## TERRACING WORK AT DILLARD

**FARMERS OF THAT COMMUNITY ARE TAKING ADVANTAGE OF MODERN METHODS — FARMERS URGED TO SEND IN WORK SHEETS — SANDY RIDGE COMMUNITY FAIR.**

### To Stokes Farmers:

During the past week the terracing outfit terraced approximately 47½ acres of land for four farmers in the Dillard Community. The farmers with the approximate acreage terraced for each are as follows: C. S. Martin, 22½ acres; J. S. Rothrock, 9 acres; J. M. Fagg, 8 acres; and J. F. Rothrock, 9 acres. On these 47½ acres 15,650 feet of terraces was built. One meadow strip was graded; 800 feet of outlet channel was constructed; and 1300 feet of farm road was built.

All four farmers listed above have signed an agreement with the C. C. C. camp and the boys are completing the terrace outlets as they can. These farmers are very well pleased with the work that is being done by the Camp.

### Report Soil-Building Practices

We wish to call to the attention of the farmers in this county who have signed a work sheet under the Soil Conservation and Domestic Allotment Act that it is very important that they report immediately, if they have not already done so, any soil-building practice that they have carried out since their farm was checked by the supervisors.

It will only be a matter of a few days before we will be ready to start typing the applications for payment that have been earned by the farmers this year. When these applications are typed they will then be ready for the signatures of all parties concerned in the payment.

A number of farmers are lined up for terracing work just as soon as the tractor can get to them. We wish to call your attention again, that while the tractor is working within a community, we would like to serve every farmer who wants any work done whether it be terracing, filling gullies, or pulling up farm roads.

### Sandy Ridge Community Fair

Through the cooperative efforts of the patrons of the school and the faculty, a community fair was held at the Sandy Ridge School. This was the first community fair to be held there and the results speak well for all who helped to make it possible. It was a fine exhibit of the agricultural products that are grown in that section of the County. The display of tobacco was unusually good with the other products such as corn, potatoes, fruits and vegetables following in close order.

The women did not stand idly by and see the products of the

field take all of the blue ribbons, but instead arranged a wonderful display of the work they had been doing in the home along the line of canning and preserving fruits and vegetables. The flowers that were shown also gave much credit to the ladies of the community. One would have to go a long way to find an exhibit of needle work that would surpass the one at the Sandy Ridge fair.

The fair this fall has served to stimulate much interest and the people of the Sandy Ridge Community are planning now to hold a bigger and better fair next year. We hope that many of the other communities in this County will catch some of the enthusiasm from the people of Sandy Ridge and start working toward a community fair for another year.

## Bowman-Mounce Bout Coming? — Pugilistic Fans To Have Rare Treat

Pugilistic circles are now awaiting with ill-concealed impatience the rumored coming fight between Jasper Bowman, the Vade Mecum tornado, and Billie (Cat) Mounce, the Danbury champion middleweight.

It appears there is some personal difference between these two rivals for fistic honors, just enough, you know, of subdued dynamite to insure a good fight.

The arrangements of the details for the bout are now being made.

## Youngs School News

Improvements have been made on the school grounds by clearing out a part of the wood, which is being used for fuel, a saving in expense as well as adding a good appearance to the grounds. The boys are not bothered much now in hunting the ball which has been knocked into the woods. We have a splendid group of boys for a baseball team. Some large, light rubber balls have been bought and games of dodge ball and relays give all the pupils a chance for games which are watched or supervised by one or both the teachers.

A good time at the Pie Supper has come and gone and a very satisfactory income was the result. Mrs. J. B. Young furnished the cake for the voting contest for the prettiest girl in the school community. Miss Ola Oakley was the happy but not vain recipient of the most votes and gracefully cut the cake and gave some to those who voted, save one.

Miss Ludia Wood gave the cake for the Guessing Contest. The guesses were many and some curious. Finally Gordon Wood guessed "hickory nut," which won the contest. Both cakes were fine specimens of good cooking.

Another guessing contest was involved the number of beans in a pound of pintos. Several wild and close guesses were made and Mrs. Byrd Oakley was the winner. A lively vote was taken on who was the ugliest man present. There were several candidates but in spite of all Mr. Dixie Wood was the happy winner, but his wife doesn't believe it is true.

Many girls and young ladies contributed their pies and the highest bidder was the eater, sharing with the one who baked the pie. All the pies looked good and not considering the late hour, the eating was as good if not better than the looks.

The boys will soon receive a new ball and bat for their games. A supply of new song books are now ready for use and other things will be bought for the school as needs require. The teachers duly appreciate every interest shown by all those who helped from the smallest to the largest amount, even some of the best wishes, if known.

MEDDLESOME BILL.
