“It's not Magic—”
that makes ORANGE users' crops grow so wonderfully...

IT'S ORANGE TOBACCO FERTILIZER!

Orange isn't magic.

But there are thousands and thousands of Orange users who will tell you that Orange Tobacco Fertilizer works like magic for them in bringing quantity and quality tobacco—in bringing them top money every time.

And why Orange does that year after year is no secret, either. It's simply that Orange is made to be the finest tobacco fertilizer that can be bought. It's made to outgrow, outproduce, out-

qualify and outdo in every way any tobacco fertilizer known.

That's why five years of scientific testing by prominent and impartial growers has shown Orange to be worth nearly \$100 per ton more! That's why hundreds of Orange users made \$300 or more per acre from their tobacco last season!

Don't envy your neighbor. Work magic with your own tobacco—you don't need a magic wand or a silk hat. All you need is Orange! Be sure you get it.

“Delightful at mealtimes”

says Champion Figure Skater—BETTY CHASE
“I LOVE TO SMOKE Camels with meals and afterwards,” adds this graceful athlete. Camels speed up the flow of digestive fluids, increasing alkalinity, and bringing you a sense of well-being. Camels set you right!
