

LOCALS

Miss Susie Johnson is quite ill at her home near Mt. View. She is a sister of John Wade, J. T., Miss Ida and Mrs. Geo. Lewis.

Walter Petree, Jr., is here from the University at Chapel Hill on the spring vacation.

The infant of Mr. and Mrs. Chas. H. Martin has recovered from a recent serious illness.

Lieutenant and Mrs. Woodrow Taylor have returned from a visit to relatives of the lieutenant at Leesville, S. C.

Mrs. Jessie P. Christian and Mrs. N. E. Pepper attended the convention of the Methodist Missionary Society at Mt. Airy Tuesday and Wednesday.

John L. Christian of Pinnacle, was in town Wednesday. Mr. Christian is the Stokes representative of Baugh's guano.

H. H. Leake, of Winston-Salem, was here last week. Mr. Leake has established himself for the practice of law in the Nissen building of the Twin City.

R. E. Leake, formerly a merchant of Danbury, was here Monday. He conducts a mercantile business in Greensboro now.

Considerable frost and some ice occurred during the cold mornings this week. Fruit was probably damaged some, but not seriously.

Roy Wilson, the manager of Stedman lake, says there are plenty of fish in the lake now but that they won't bite much.

Know Your Language

"BUNKUM" and the shorter word "bunk" both derive from Buncombe, the name of a county in North Carolina. During a famous debate in Congress many years ago the representative for the district insisted on making a rambling speech when the House was impatiently waiting for an opportunity to vote. The speaker explained his insistence by saying the people of his district expected it of him; so he was bound "to make a speech for Buncombe."

Do not say, "That is an entirely different matter than the one you have in mind." "Than" indicates a comparison. Distinction or separation is indicated by "from." Say, "That is an entirely different matter from the one you have in mind."

Library and Book-Mending Project in Stokes.

Since the beginning of the library and book-mending project in Stokes county, the Stokes county board of education, the superintendent of Stokes county schools and the commissioners of Stokes county have been very co-operative. The board of education has paid rent or donated the rooms used in our library work and also has furnished fuel, equipment and bought supplies and materials to be used in this work, and since September 1, 1936, approximately two hundred dollars has been spent for this purpose. The materials are used in mending the books in the schools and libraries and immediately put in circulation again as soon as they are mended.

The library and book-mending project was begun on August 28, 1936. Since that time, one thousand, three hundred and seventy books have been mended, five thousand, eight hundred fifty-one have been serviced, two thousand four hundred and twenty-five listed, four hundred books classified, and one hundred thirteen magazines donated. During that time there has never been more than nine workers on the project at one time. Then the books were circulated in only two schools. Now books are borrowed from the library commission and are exchanged in the Walnut Cove, Danbury, Francisco, Lawsonville and Sandy Ridge schools.

Much progress has been made in the work done, and new ideas given. In the last week one of the workers found a solution that cleans book backs and pages splendidly, especially the supplementary readers in the primary grades. The formula is as follows: Dissolve ivory soap in hot water and add ammonia. The right amounts used will form a jelly. This is used on the books with a soft cloth.

Thirty-two note books were made for the W.P.A. Institute held in Winston-Salem from March 31st until April 3, 1937. Colored drawing paper was used for backs, and water proof book cloth was used for a binder. During the last two weeks, work has been slow due to the bad books we had to mend. They were first grade readers and very dirty, and required lots of patching. Each worker could not mend more than one a day. Also, one poster and three pictures were made this period. During the last month, each worker brought in a new word to use during the day—words that could be used in every day conversation, such as mercenary, incredible, adroit and ingenuity. All of the workers are interested in learning and using the new words, and enjoy this a great deal.

Quaker Gap News

Rural Hall, April 12.—Miss Vernice Burwell, of Leaksville, spent the week-end with her parents, Mr. and Mrs. Willis Burwell.

Mr. and Mrs. Leonard Roberts, of Winston-Salem, spent the week-end with Mr. and Mrs. J. W. Burwell.

Miss Vera Nunn, of Winston-Salem, spent the week-end with her parents. Miss Nunn holds a position as stenographer and bookkeeper for a company in Winston-Salem. She is a graduate from Nancy Reynolds school and also graduate from a Business College and is a very attractive and fine girl. She is the daughter of Mr. Dixie Nunn.

Mrs. H. G. Guthrie, accompanied by the T. M. Smith family, made a trip to Winston-Salem Saturday.

Miss Kathleen Taylor, a pretty and attractive daughter of D. C. Taylor, has returned from a trip to Washington, D. C. Miss Taylor reported to friends that the trip and sight-seeing was wonderful and was educational, and means a lot to anyone who would make the visit to our capitol. The most interesting thing was she saw and heard President Roosevelt make a speech in person. Miss Taylor will graduate at Reynolds school in May and she is valedictorian of the Senior class.

Mr. D. C. Taylor visited his parents, Mr. and Mrs. H. H. Taylor, of Lawsonville, Sunday.

Mrs. D. C. Taylor, accompanied by Mr. and Mrs. O. W. Crandell, of Winston-Salem visited relatives in Greensboro Sunday.

Mr. Roy Barr, of Mt. View, and Miss Martha Barr called on Miss Main Taylor Sunday night.

The Danbury Reporter sent to any address \$1.00 the year.

Hints for Homemakers

By Jane Rogers

SERVED alone, seasoned tomato juice or canned Hawaiian pineapple juice are rivals for first place in the realm of distinguished appetizers. But have you ever served tomato and pineapple juice in combination? Here is a combination of two favorite juices that will tickle the palate and whet the appetite of your most discriminating guest. It is appropriately named—Delight Cocktail. To prepare servings for six, mix two cups canned Hawaiian pineapple juice, one cup unadulterated tomato juice and the juice of two lemons. Chill and shake well before serving.

Every woman likes to have a list of easily prepared main dishes from which to choose on those days when she has but a few minutes to spend in the kitchen preparing dinner. Nothing could be more satisfactory at such a time than this recipe for panned oysters. Drain one pint of oysters, place in a heavy frying pan and cook over a low fire until the edges curl. Add four tablespoons butter, two tablespoons lemon juice, and pepper and salt to taste. Bring to a boil. Serve on hot toast, garnish with lemon.

BILIOUSNESS

New Miracles Of The Photoelectric Cell

By James D. Purdy
Director, Schools of Electrical
Engineering, International
Correspondence Schools

AN electric eye standing guard against smugglers is one of the unusual features of the new Free Port on Staten Island, New York. A 1000-watt light casts its beam across 2700 feet of water to a photoelectric cell at the opposite side of the entrance to the port. A launch or other vessel crossing the beam and shutting off the light from the cell, sets off a siren and causes the ringing of a bell to warn the custom guards on duty.

The photoelectric cell has been called into play to prevent lighting from interrupting the broadcasting of radio programs. If lightning strikes the antenna tower the flash is caught by a photoelectric cell trained on a discharge gap at the base of the tower. The cell sets up an impulse which through a complicated mechanism shuts off the transmitter's power for a split second, preventing the station's power from being drained off into the earth, as would otherwise occur. The interruption is so brief that it is imperceptible to the radio audience.

A new type metal-working lathe has been developed abroad, which is controlled by a photoelectric cell and is said to be capable of producing objects as shown by a drawing, without the intervention of the human hand. After the machine has been adjusted, the cell scans the drawing and automatically produces the object in the indicated shape and dimensions.

The stars and a photoelectric cell are utilized to regulate with absolute accuracy a new electronic clock installed for the Pope in Castle Gondolfo. When a certain star comes into the focus of the cell placed at the base of an astronomical telescope, the light of the star causes the cell to set up an impulse which corrects any slight inaccuracy in the clock's timing.

Hints for Homemakers

By Jane Rogers

BRAZIL nuts add a touch of distinction to many dishes. Try them chopped fine and sprinkled over the filling and on top the frosting used for chocolate layer cake. Or use them this way to provide pleasant variation to grilled tomatoes: Select tomatoes of even size and cut in halves. Sprinkle each half with salt, pepper, sugar and paprika, dot with butter or minced bacon. Set under broiler flame and cook three minutes, then sprinkle thickly with sliced Brazil nuts and continue broiling until nuts are brown.

Dried apricots or peaches soaked in part Hawaiian pineapple juice and part water instead of all water have a delicious zesty flavor and require no sweetening. Soak one pound of dried fruit in one cup of pineapple juice and enough water to cover (about one and one-half cups). Let fruit soak until plump, add more water if necessary and simmer until fruit is tender.

Beauty Hints

By Jane Heath

YES your Christmas gifts can be luxury gifts at a tiny price! Kurlish gifts to beautify the eyes are something every woman and girl of your acquaintance would delight in owning! Imagine the excitement of receiving gold and silver eye shadows!

And if you want to go more swank include a Kurlish eye beauty brush.

Then again you'll bet every young—and not so young—person on your list would "give anything" to have curly eyelashes. You can be sure that Kurlish, the famous little wonder that curls eyelashes to petal loveliness (and does it all in thirty seconds) will be received with loud whoops of joy!

Another suggestion is Lash-tint, the liquid mascara, to darken lashes to exotic beauty. It's waterproof.

doesn't crack or smart, and comes in a divine little modern shaped glass bottle for her dressing table.

"LOOK OUT, LIZZIE"

3-ACT PLAY TO BE PRESENTED BY SENIORS OF KEYNOLDS HIGH SCHOOL, SATURDAY, APRIL 17, 1937.

There will be a 3-act play given at Reynolds High School, Westfield, Saturday evening, April 17, at 8 o'clock. The title of the play is "Look Out, Lizzie." The cast of characters is as follows:

Silas Long—An old farmer—Ralph Lawson.

Sarah, his wife—Effie Essick.

Hazel, their daughter—Kathleen Taylor.

Lizzie Blinks, the hired girl—Ada Essick.

Hank Blanks, the hired man—Troy Mabe.

Minnie Hall, the neighborhood gossipier—Nolie Durham.

Richard Biltmore, a stranger—Jack Simmons.

Dave Hinkle, an old miser—Floyd Lynch.

A small admission fee of 10c and 15c. will be charged.

If You Wear FALSE TEETH

try New Alkaline Powder

FASTTEETH holds your place back and tight. It will prove a great source of satisfaction to you. Its soothing cushion effect prevents pressure on the gums, rubber sore spots and sensitive youth membranes. FASTTEETH makes your mouth feel clean and fresh. All people "appearing in public" like business men, salespeople, actors, singers, musicians should use FASTTEETH to avoid any possible embarrassment of a loose or dropping plate. No gummy, soapy, pasty taste or feeling, because FASTTEETH is alkaline and will not sour or seep away. Get FASTTEETH today at any drug store.

WORKS UNDER HUDSON RIVER

Tunnel engineer comes off the job—lights a Camel to set him right for hearty eating. He fights compressed air, muck, and 100-degree heat—at 65 feet below the surface! "I play safe and smoke Camels," says Sidney S. Wetzel. "Camels don't irritate my eyes. With Camels my digestion is splendidly smooth." Smoking Camels at meals and after helps digestion in this way: the flow of digestive fluids—all the digestive fluids—is increased.

FOR DIGESTION'S SAKE - SMOKE CAMELS!

A Grand Slam At Any Bridge Table

By Jane Rogers

Nibble and stay thin is the motto of the bridge playing hostess who fortifies her guests with grapefruit peel candied in pineapple juice instead of chocolates and bon bons.

A CANDY to delight the woman who is watching her waistline is prepared by cooking thin strips of grapefruit peel in a sirup made of Hawaiian pineapple juice and sugar. The result is a delicious candy with a gummy consistency and the true pineapple flavor. To add color to the peel the sirup may be tinted with vegetable coloring, and for variety the peel may be cut in fancy shapes before cooking.

The tested recipe follows:

Candied Grapefruit Peel

Wash grapefruit skins, remove all membrane, leaving the thick white and yellow rind, and cut into strips about three inches long and three-eighths of an inch wide. Place rind in a kettle and cover with cold water.
