With the interest and cooperative spirit of the new teachers, plus the same of the old teachers, indications are that this year will be a highly successful school year. The entire student body has greatly enjoyed the entertaining chapel programs put on by the 4th, 5th and 6th grades. The Grammar school has organized a Literary Society. of some of the older people of the community dressed and acting as children 50 years ago, and you'll forget all your troubles by laughing until your sides split. For the next three weeks we're looking forward to a big time in Lawsonville, so be sure to meet your friends there.

**Wings Replace Legs**

R. W. HORNUNG, Lavelle, Pa., has substituted wings for legs. Crippled in a coal mine accident, but undaunted by disaster, the young miner enrolled for an engineering course with the International Correspondence Schools. He established himself as an automobile mechanic, built up a prosperous business as a dealer, and learned to fly his own plane which he regularly uses to get about the country on business trips.

"BUNKUM" and the shorter word "bunk" both derive from Buncombe, the name of a county in North Carolina. During a famous debate in Congress many years ago the representative for the district insisted on making a rambling speech when the House was impatiently waiting for an opportunity to vote. The speaker explained his insistence by saying the people of his district expected it of him; so he was bound "to make a speech for Buncombe."

Do not say, "That is an entirely different matter than the one you have in mind." "Then" indicates a comparison. Distinction or separation is indicated by "from." Say, "That is an entirely different matter from the one you have in mind."
