We Tobacco Planters smoke Camels

THE CAMEL BUYERS BOUGHT THE BEST LOTS OF MY LAST CROP. THEY TOOK JUST ABOUT EVERY TOP GRADE LOT AT ALL THE SALES I WENT TO. I PREFER CAMELS FOR MY OWN SMOKING. I KNOW THERE'S FINER TOBACCO IN THEM. YOU'LL FIND THAT MOST OTHER PLANTERS PREFER CAMELS, TOO

MEN like Mr. Carroll, with a lifetime's experience in growing tobacco, know that one cigarette—Camel—is made from finer, MORE EXPENSIVE TOBACCOS. So it means a lot when they say that most smokers who grow tobacco smoke Camels themselves. Make Camel your cigarette too.

If You're Planning To Build

By W. S. Lowndes Director, Schools of Architecture and Building International Correspondence Schools

IN THE Spring many American families think of building new houses and plan homes which will be more ideal in every respect. Of course architects and building experts have to supply the technical knowledge, but if you are planning to build there are numerous little things to keep in mind. You should have some knowledge of the methods of construction and the building materials to be used. Keep in mind that the primary object of house-building is to make it into a harmonious unit. It is also important to know something of landscape gardening which will aid you in planning walks, lawns, trees and other decorative features.

The first object in designing a house is to provide comfort and protection, the second is to make it beautiful, and the third is to do these things in an economical manner. Saving in the first cost of a house is effected by making it as small as possible without sacrificing any of its essential requirements. Every house should be built so that it will be pleasing to the average house buyer. Expensive construction and peculiar design often interfere with the sale of a house, or compel the owner to sell at a sacrifice.

Beauty is an asset to any house. This element is not necessarily a matter of expense, but may be obtained by the application of thought and good taste to the design and arrangement. Certain elements, such as simplicity, symmetry, balancing of parts, good proportion and appropriateness, always contribute to the external beauty of a building.

Know Your Language

By C. L. Bushnell School of English, International Correspondence Schools

"BUNKUM" and the shorter word "bunk" both derive from Buncombe, the name of a county in North Carolina. During a famous debate in Congress many years ago the representative for the district insisted on making a rambling speech when the House was impatiently waiting for an opportunity to vote. The speaker explained his insistence by saying the people of his district expected it of him; so he was bound "to make a speech for Buncombe."

Do not say, "That is an entirely different matter than the one you have in mind." "Than" indicates a comparison. Distinction or separation is indicated by "from." Say, "That is an entirely different matter from the one you have in mind."
