From every county where he has held court comes the report of his splendid ability as a judge and the efficient manner in which he transacts the business of the Court.

His business-like dispatch of the heavily congested dockets saves thousands of dollars to the taxpayers of every county in which he presides.

Judge Bivens is conducting his campaign upon the highest plane. The people should recognize the value of the services of this jurist to the State of North Carolina, and on the 4th day of June re-nominate him to this one of the most important positions within the gift of the State.

The Democrats of Stokes county are cordially invited to come out on June 4 and confirm the judgment of Clyde R. Hoey.
