AN EDITORIAL WILL THE DEMOCRATS OF SURRY, ROCK- INGHAM AND CASWELL BE FAIR TO STOKES COUNTY?

In the June 4 primary Ralph Scott, candidate for Solicitor, carried his own county of Stokes almost solidly, and received in the district a majority of more than FOURTEEN HUNDRED over his next highest opponent, A. D. Ivie, Jr., of Rockingham County.

Yet A. D. Ivie, Jr. is demanding a SECOND PRIMARY, which will cost the taxpayers of the district THOUSANDS OF DOLLARS.

Appeal to the Fairness And the Democracy of the Democrats of the District.

Will the Democratic voters of Surry, Rockingham and Caswell be fair to Stokes county?

Is it fair or generous of Rockingham to want to be the home of both Judge and Solicitor? Hon. Allen Gwyn of Rockingham was nominated for Judge in the June 4 primary and this is equivalent to his election. Rockingham has been many times honored by State and federal appointments.

Men. A. D. Folger of Surry was nominated for Congress in the June 4 primary, which is equivalent to his election. Will the Democratic voters of Surry county recognize the justice and fairness of Stokes county's claim for the Solicitorship?

Caswell county, of fine citizenship, rich in political history and traditions, has repeatedly been honored. At present Caswell is the home of a State Highway Commissioner.

Stokes Deserves Recognition In the District

Stokes county has NEVER had a State or district officer.

Will the Democrats of Surry and Rockingham and Caswell be fair and just and generous to their fellow Democrats of Stokes, especially in view of the fact that Ralph Scott was high man in the June 4 primary for Solicitor and who led his next highest opponent by more than Fourteen Hundred votes in the whole district.

Stokes county has become in recent years to be one of the strong Democratic counties in the State.

Ralph Scott has done his part in redeeming the county from 45 years of Republican control.

Is it not only fairness, justice, good judgment and good Democracy to give the nomination for Solicitor to Ralph Scott, who is entirely competent, and whose splendid vote in his own county and in the district is a fine tribute to his character and capability.

Is there good sport-manship, good judgment and good Democracy in the fine old counties of Surry, Rockingham and Caswell?

The Danbury Reporter is quite sure there is and that the best efforts of the Stokes Democracy to be honored with the nomination of our candidate for Solicitor will be recognized.

STOKES FARMERS RECEIVE CHECKS

MORE THAN \$32,000 HAS COME SO FAR TO FOUR TOWN- SHIPS — OTHERS EXPECTED ED SOON — B. H. JESSUP PUTS IN MODERN WATER SUPPLY.

To date, we have received 778 checks amounting to \$32,370.28. Most of these checks were for Big Creek, Peters Creek, Beaver Island and Meadows townships. When checks are received, notices are mailed immediately to every producer who has a check at the county office. We are endeavoring to make it as convenient as possible for producers to get their checks and when checks arrive they are being taken by the treasurer to central points in the various townships. This will save many farmers the time and trouble of coming to the county office to sign for their checks. Farmers are requested not to call at the office for their checks until they have received notice that it has arrived. We hope to receive the remainder of the checks for all the townships in the County at an early date.

HYDRAULIC RAM

B. H. Jessup, of Lawsonville, walked 12,000 miles, almost half way around the world and spent more than 2 1/2 years over a period of 30 years carrying water from the spring to the house before he installed a hydraulic ram on his farm a few days ago and saved this unnecessary drudgery.

For a total cost of \$131.00, Mr. Jessup installed a hydraulic ram that is delivering 27 gallons of pure, clean, cold spring water to his house every hour, or 648 gallons every 24 hours. This cost included the ram, pipe, concrete or everything that was used in the installation.

This ram is pumping water to an elevation of 30 feet and delivering the water from a spring 700 feet from the house. In regarding about his new water system, Mr. Jessup stated that he just didn't understand how he did without running water at his house for so long a time. He plans to make a complete installation by installing a kitchen sink and a bath room and pipe the spring water to the barn.
