

**FSA LOANS ARE NOW AVAILABLE**

**FARMERS OF STOKES AND ROCKINGHAM MAY GET HELP—THIRTY THOUSAND DOLLARS SUPPLEMENTAL FUNDS RELEASED.**

"In a great many cases farmers in Rockingham and Stokes counties eligible for the credit and farming advice which the Farm Security Administration has to offer will want to start a farming program which gradually will build up the land, so that the farm may become a profitable enterprise," said J. E. Cheves, Reidsville, N. C., County FSA Supervisor.

The soil improvement and farm improvement phase of FSA's rehabilitation program will be emphasized during the balance of this year, according to Mr. Cheves.

"A sound farm plan should be worked out for each individual farm, and it is not too soon to take advantage of this service for next year to begin making their applications."

Eligible farmers should consult with County Supervisor Cheves, Municipal building, Reidsville, N. C., and county building at Danbury, N. C., who may be able to furnish credit and to assist in working out farm plans for gradual improvement of their farms.

Small loans totalling \$146,000 have been advanced by the Farm Security Administration to date to farmers in these two counties. New loans and supplemental loans recently approved for the present year amount to about \$30,000.00.

Loans can be made for purchase of lime, phosphate, seed for cover crops, workstock, livestock, farm implements, fencing for pasture, minor repairs to farm buildings and other items necessary in a sound farming program, in addition such necessities as fertilizer, seed, food, clothing, etc.

"When the farmer is a renter, a satisfactory lease is necessary for both tenant and landlord to get the fullest benefit from this program," Mr. Cheves said. A rental agreement covering a period of years, or one with renewal clause is preferable.

"The credit and advice offered by the Farm Security Administration is not for the purpose of promoting a highly specialized type of cash farming, but rather for the purpose of enabling the farmer to work out and follow a long range "live-at-home" farm plan, embracing the production of food for the family, feed for livestock, adequate cash for farm and family necessities and repaying the loan," he pointed out.

"Loans for non-recoverable goods, as seed and fertilizer, must be repaid in one year, but a longer period is allowed for that part of the loan which is to purchase lime, phosphate, livestock and farming equipment, also for repairs of a permanent nature," he pointed out.
