The late appropriation of more than 12 billions for national defense is also included in Mr. Mc-James Edwards, larceny, 2 to 5 Neill's fiscal indictment.

Mr. McNeill paid his scornful respects to crop effect at expiration of sentence control and asked that all those in the audience who had been paid back money "wrongfully taken" from them by the government, hold up

Not a hand was raised, but a few fellows on a back seat that the day before had averaged 25 cents for their tobacco in Winston-Salem and Madison smiled. Possibly they recalled 1930-31-32 when the average syrocketed around Dr. C. R. Hutchison 3 cents, thought of today with the foreign war going on, exports cut off, and the giant surplus left over from last year and yet—25 cents.

The suave gentleman from Washington now turned to the State administration, and expatiated on the extravagance of the Raleigh regime. He said he could run the State government on 57 million dollars, whereas the present cost is sakes alive over a hundred million, if mistake not. One of his first steps in this magic salvage to the targets would be, he remaled, to repeal the sales tax which now only prowas held similar at the home of duces one or two millions in revenue.
