Why Worry?

There are only two reasons for worry;

Either you are successful or you are not successful. If you are successful there is nothing to worry about. If you are not successful there are only two things to worry about; your health is either good or you are sick. If your health is good there is nothing to worry about. If you are sick there are only two things to worry about. You are going to get well or you are going to die. If you are going to get well there is nothing to worry about. If you are going to die there are only two things to worry about; you are either going to Heaven or you are not going to Heaven, and if you are going to Heaven there is nothing to worry about. If you are going to Hell you'll be so busy shaking hands with old friends you won't have time to worry. So!—Why Worry?

RISE OF THE STAR OF WILLKIE

The star of Wendell Willkie climbs the horizon, burning like Mars at perihelion.

It is a most rare circumstance when a person eminent in the affairs of State or nation or politics can afford to be inconsistent.

Emerson was the outstanding philosopher of America. He said it required a superman to turn his back on the vagaries or misunderstandings of yesterday and see the light of today.

With whom shall we contrast the late candidate for President who is superior to the considerations of fall, 1940, which are dwarfed by the considerations of spring, 1941. Shall we say: Taft, Vandenberg, Fish, Landon, Wheeler, Nye, Lindbergh?:

Pigmies of partisan politics; pro-Hitlerites, Fifth Columnists, appeasers, isolationists, advocates of "negotiated peace"—peace with a mad-dog.

These men—hear ye—at a time when the destiny of the Stars and Stripes hangs in the balance; when fire and blood and tears is the portion of unresisting peoples the clank of whose chains is heard across the waters; when the bloodshot eyes of the tiger turn toward the western hemisphere looking for more victims to rend—

Now when the prayers of hopeless populations echo to the heavens, and there is no possibility of success if England falls—

Somewhere in the universe the cry of despair will not be unheard. The God of battles will prevail, even as He prevailed over Genghis Khan, Alexander, Caesar and Napoleon.

Do not fear—the resolution of the British empire backed by the invincible power of America will abide the shock. And when Hitler and Hitlerism are irretrievably smashed the flags of the United States and England inseparably entwined will still wave triumphant in the sunlight of the New Day.

When Wendell Willkie took his stand for right and justice and patriotism he became one of that triumvirate which means to carry on against the worst that may come—Churchill, Roosevelt, Willkie.

And when the pages of history are written, and when those who seek to tarnish his escutcheon are forgotten, Wendell Willkie will be acclaimed as a patriot.

And then those who would sell the heritage of George Washington, John Paul Jones, Andrew Jackson, Abraham Lincoln, Grover Cleveland, Theodore Roosevelt and Woodrow Wilson—those who would barter this glorious estate for a mess of Reich potage will be noted only as the recipients of the undying contempt of their nation and country—

Unwept, unhonored and unsung.

Registered Nurse Asked to Participate In Peace-Time Mobilization

Winston-Salem. — Registered nurses, regardless of when and where they graduated or their present personal or professional status, are urgently requested to at once participate in the greatest peace-time mobilization this or any other nation has ever known, said Miss Bernice Pratt, director of public health for district two of the North Carolina State Nurses' Association.

All that is asked is that each registered nurse immediately send her name, address, name of the school where she graduated and the date of graduation to Miss Bess Dalton, county courthouse, Winston-Salem. The sender's name will, with others on a compiled list, be sent to Raleigh and from there she will receive a questionnaire.

In this questionnaire are fifty simple questions, easily answered. Filling it out does not in any way obligate the individual. The contents is merely for record purposes. In fact, one of the questions asked if the nurse would be willing to accept assignment now or in case of a war emergency.

"Today every woman is asking what she can do for her country. There is no more fortunate woman than the registered nurse, for she has the background of training and experience which enables her to render a service that in an emergency will be one of the first in demand." This quotation is from a letter written by Miss Edna Heinzerling, state executive secretary of the nurses, who is at present serving as special agent for the U. S. Public Health Service. It is under this division the survey of registered nurses is being made.

"The great extent to which the nursing profession can serve the nation in this hour of need is limited only by the individuals who co-operated by at once sending in their records," added Miss Pratt.
