Tarpon Evolving?

Scientists believe the tarpon may be undergoing a strange evolution. An examination of their air bladders has shown a large amount of lung tissue, proving that the fish are not entirely dependent upon their gills for oxygen. This may be the reason why they can change from salt to fresh water and vice versa. The tarpon is the only fish that is known to have passed through the canal, 40 miles or so of which is fresh water.

GOOD REASONS WHY QUINTUPLETS use MUSTEROLE for CHEST COLDS

use MUSTEROLE for CHEST COLDS

Mother—Give YOUR Child This Same Expert Care!

At the first sign of a chest cold the Quintaplets' throats and chests are rubbed with Children's Mild Musterole—a product made to promptly relieve the DISTRESS of children's colds and resulting bronchial and croupy coughs. Relief usually comes quickly because Musterole is MORE than an ordinary "salve." It helps break up local congestion. As Musterole is used on the Quints you may be sure you are using just about the BEST product made. Also in Regular and Extra Strength for those preferring a stronger product. CHILDREN'S
