"For I am persuaded that neither death, nor life, nor angels, nor principalities, nor powers, nor things present, nor things to come,

"Nor height, nor depth, nor any other creature, shall be able to separate us from the love of God, which is in Christ Jesus our Lord."

## THE MENACE OF THE DAWG

Ten persons are being treated at Winston for rabies. Maddogs are rampant over there, says Dr. Hege, the district health officer, who admits Nye. But senatorial immunity does not shield that the menace is increasingly serious.

They don't fool with them over about Lawson- ering contempt of the American people. ville. A dog bit around among the dogs a few days ago. The citizens got out their guns and pair of saboteurs in their ding-dong that if the killed everything that looked like he had been Germans cannot cross the 20 miles of channel bit.

Probably many people do not realize the terri ble danger of hydrophobia. When you get it the only satisfactory thing about it is that you die except those who have as much intelligence as a soon.

The Pasteur treatment is not pleasant either. You have to take a big blunt needle in the yellow desertion of the well-being and the safety avordupois many times, and you wish you were dead.

And then if you get over it, the law-suit you hand the owner of the dog makes him wish he had not been born.

We have sometimes wondered about the Danbury dawgs going mad. It is hard enough to get even as Poland and Belgium and France around without stepping on one, when they are sober, but if mad it would be too bad. But if one the intelligent American people know that he wants to taste you, let him. Your condition thereafter would be more healthy than if you kicked him, especially one of the small fuzzy of America through motives of personal gain. kind.

Somebody keeps kicking my dawg around-

Makes no difference if he is a hound. Gotta stop kicking my dawg around."

This spurious argument is made to justify their of this democracy to which the axis will turn in its venom and hunger if and when England is destroyed.

What keeps the Hun army out of England is the British navy which stands unsleeping and wary with its 16-inch guns. But for this fleet. England would today be crushed and enslaved,

bathed in a mystic light.

In government orphanages a prayer to Hitler is required of the children before every meal: "To thee I owe, alone, my daily bread; abandon thou me never, with me fore'r abide, Fuhrer, my Fuhrer, my faith and my Light."

The laws of Hitler countenance and even command murder and other crimes in the name of the State, and for the good of the Fuhrer.

The only moral compulsion laid on German women is that they produce. Prostitution is advocated. More and more men are needed for the divisions. Unmarried women advertise in the daily newspapers for companions.

One notice reads: "A German girl wishes to become mother of a child whose father is a German soldier fighting for the Fuhrer."

A man advertises as follows: "I am a soldier, 22 years old, tall, blond, blue-eyed. Before I go to Christian people of the earth to vise up and regive my life for Fuhrer and Fatherland I want store to His shrines that God to whom "a thouchild and heir for the glory of Germany."

And so Hitler boasts that the new faith is destined to last a thousand years.

But for all Hitler's efforts, long before Hitler's millennium has run its course those German people who still revere the faith of their fathers will be enabled with the help of till unconquered to meet a German woman to whom I can leave a sand years are but yesterday when it is past and as a watch in the night."

Is not this a time of war?

The new tax bill brewing in congress will almost take the hide-but the money must come if real defense is established. More tax on cigarettes, beer, chewing gum, theater tickets, etc., and a 2-cent stamp on every check issued. Incomes must bear tremendously more burden. Steel yourself for it, it's coming.
