## THIS WEEK IN DEFENSE

### Neutrality Law Modification Asked

Stating "we will not let Hitler prescribe the waters of the world on which our ships may travel..." the President asked Congress to repeal Section 6 of the Neutrality Act which prohibits arming of American merchant ships and to examine other phases of the law. The President said this action "is a matter of immediate necessity and extreme urgency..."

The President said conditions have changed since enactment of the law, it is no longer truly a neutrality measure. He said "it is time for this country to stop playing into Hitler's hands and to unshackle our own." He said the U. S. should not "be forced to masquerade American-owned ships behind the flags of our sister Republics."

"Most of the vital goods authorized by the Congress are being delivered," Mr. Roosevelt said. "Yet many of them are being sunk; and as we approach full production requiring the use of more ships now being built it will be increasingly necessary to deliver American goods under the American flag."

### Aid to Britain and Russia

The American Red Cross instructed the British Red Cross to forward immediately to Russia 800 tons of medical supplies. The American Red Cross will send replacement supplies to England.

### Prices

Retail food prices continued to rise between mid-August and mid-September, increasing 2.6 percent to reach the highest level since January, 1931, the Labor Department reported. Consumer Commissioner Elliot reported food prices have risen 29 percent since the war began as compared to 18.4 percent in the comparable World War period and farm products have risen 43.1 percent as contrasted to 12.6 percent during the last war.

Price Administrator Henderson, speaking in support of the pending price regulating legislation, said "even more frightening than the present level of price advances is the fact that these advances have been gathering momentum since the early months of the year." He said the cost of living last August was 7 1-2 percent higher than two years ago. Since March alone, he said, the cost of living is up 5 percent.

### Priorities

The Supply Priorities and Allocation Board ruled that no new public or private construction can be started unless it is essential for defense or the health and safety of the people or does not involve use of strategic materials. The ruling applies to Federal.

### Farm News

about the AAA and other EXTENSION WORK From the County Agent

Mr. and Mrs. J. R. Forrest, Sr. and their daughter, Betty, have tried a new vegetable and found it to be good and tasty—edible soybeans. There are several varieties of eatable soy beans, Easy Cook, Roknsun, Aoda and Bonsei. The Easy Cook variety appears to be the most popular. It is in demand among sanatoriums for flour for diabetics. Heavy yields rich in protein and oil. The plant does well on poor soil and is not subject to disease or the bean beetle. The County Agent ate some of the beans at Mr. Forrests and found them to be very palatable.

A poultry and small grain picture will be given at Hartman, Priddy's Store, Wednesday night, October 15 at 8 p. m. Farm families are invited to attend. All scenes taken on Stokes county farms.

Lee Oats No. 5 are recommended for fall sowing. This variety of oats have made good yields sown as late as November 25th. Oat is mighty good summer feed for the work stock.

Sheriff J. J. Taylor has an excellent upland field of corn grown after two years lespedeza. Numerous stalks produced three good ears each. Lespedeza is strongly recommended for upland soil improvement.

Last Saturday 4-H club boys bought their pigs and calves to Walnut Cove for their annual round-up show. The businessmen of the town welcomed them very warmly, making up a cash prize of thirty odd dollars to be used for prize money.

After the street parade and judging, several businessmen made a talk to the boys and their parents. Among those talking were T. J. Byrley, Senator Marshall and John Brown of Coble Dairies. Those winning prizes were:

In the Jr. Gurnsey Class, Bobby Health, 1st and Carl Ray Pell, 2nd. In the Sr. Gurnsey Class, Weldon Boles, 1st, James Martin, 2nd and Ray Newsom, 3rd.

In the Jr. Jersey Class, Dick Neal, 1st, Moir Sizemore 2nd. In the Sr. Jersey Class, Moir Sizemore 3rd and Betty Newsom 4th. more 1st, Gariand Sizemore 2nd Weldon Boles showed the best Gurnsey and Moir Sizemore showed the Jersey.

With this as a starter we hope to make the pig and calf show an annual affair, and since we are going to make our show an annual show, now is the time to formulate and begin your plans for next year. Start now to train and fit your calf. It can not accomplish it in two weeks, or even two months. If you have a good type dairy heifer, keep, feed, and train her
