

REALIZATION--

We congratulate Mr. Boyles on his wisdom and foresight in purchasing his Security Endowment contract 20 years ago and on his persistence in carrying it to maturity.

Walter Boyles receiving a \$2500 check from W. M. Fulp on maturity of his Security Endowment policy in that amount written for him by Mr. Fulp 20 years ago.

Mr. Boyles can't buy more insurance, but he can help our boys by buying War Bonds which he is doing.

The Realization Of a Worthwhile Goal Is Always Worthy Of Note

Here's what Mr. Boyles says about it:

"If I had not owned this policy I would not have saved the substantial amount I am now receiving.

"A few times during the past 20 years I was badly in need of money for emergencies and this policy provided a quick and sure way of raising the cash.

"The satisfaction of knowing that my family was protected in case I should not live was of great value to me.

"This \$2500 of cash now enables me to face the future with an added sense of security.

"Twenty years looked like a long time ahead in 1922, but looking back from today it seems only yesterday that I started my Security Endowment Plan."

And significantly: "I wish I had taken twice as much. I could have carried it."

See W. M. "Bill" Fulp who worked out this plan for Mr. Boyles 20 years ago and let him equip you to . . .
