VITAL INFORMATION BY RATION BOARD

Clerical Force Now Required To Work Six 8-Hour Days To Keep Up—Rationing Guide—Pleasure Driving Over—People Urged To Read County Papers To Keep Posted.

The Clerical force of Rationing Board is now required to work 45 hours per week, eight hours per day for six days. The work is increasing daily as rationing becomes more and more complicated and as more and more articles are added to the list of rationing and price ceilings. In order to facilitate the business of the office people having occasion to call are urged to be brief and to the point in their requests. Since the inception of the program a few of the things accomplished have been the handling of twenty thousand individual ration cards, twelve thousand supplemental sugar rations, four thousand cars and trucks registered three times, over twenty thousand gas ration books and supplements issued, some six thousand kerosene and fuel oil books issued. This is aside from the thousands of tire, auto, bicycle and other applications passed on.

STOKES CITIZENS URGED TO READ LOCAL PAPERS To Keep Up With Ration Requirements

In a short time a new rationing of foodstuffs affecting every individual is to be inaugurated. Holders of Ration Book No. 1, better known as "Sugar Books," will be required to register again at the various schools over the county. The local papers, Danbury Reporter and Stokes Record, have and will continue to cooperate by printing the ration news, dates of registration, places, hours and all changes from week to week. The board will in the future give to these papers each week the information and facts relative to all programs affecting the general public. To save time and unnecessary trips we urge all

Soil Conservation News

One of the jobs that farmers can do this winter to get ready for all-out crop production to meet war needs in 1943 is to plow out their terraces to maintain adequate channel capacity and enable the terrace to function properly.

Labor and teams or power equipment will not be in great demand until spring planting time. A. C. Metz, Work Unit Conservationist of the Dan River soil conservation district, points out, and in the meantime terraces can be plowed out at any time when weather conditions are favorable.

Where flat breaking or complete plowing is used in preparing land, terraces can be maintained as a part of the land preparation, Metz explains. The whole "trick" is to plow in such a manner across the slope that each trip is effective in bringing the terrace to the right size and shape.

In plowing new terraces with narrow channels, the width of the land can be increased slightly at each plowing until the desired cross section is obtained. This will increase channel capacity, round out the bottom, and provide flatter side slopes that will not interfere with operation of farm equipment in the field.

Methods of plowing for terrace maintenance with turning plow, disc plow, and disc tiller are described in an illustrated leaflet of the U. S. Department of Agriculture, copies of which can be obtained at the office of the Soil Conservation Service in Danbury, N. C., Metz said.

TURN IN YOUR SALES CARDS

Farmers are asked to please turn in their sales cards to the local Triple-A office immediately.

BUY WAR BONDS & STAMPS

Owners holding "T" books. All holders of A, B and C books are urged to check closely on the expiration dates and to gauge their driving accordingly.

Pleasure driving and unnecessary trips are out. County and State officers are on the alert to report any cars or trucks on the highways for purposes unnecessary. Violators will be reported to the local board and this board will promptly revoke the gas ration of all offenders. Attendance at religious services of any nature, visiting sick relatives, making necessary trips to mill or market within reason are not barred. Neither is going to and from work. Driving to any place of amusement or to pay personal calls are prohibited. Few violations have been reported so far in this county.

Merchants will be required by Feb. 10 to file with the board price ceilings on dried beans, dried fruits, canned vegetables. By March 20 they must file ceilings on coffee, canned fish, cooking oils, shortening, corn meal, cane and maple syrup, canned milk, flour, citrus fruits and juices. In the future practically everything in all stores will have ceiling prices posted.
