### Aid to Enemy

"Any American who wilfully neglects to pay his taxes on time or to invest every cent he can in War Bonds is surely giv-ing aid and comfort to the enemy . . . We have a job to do and we are all called for service to our country. Our dollars are called to service too. Let us all ask ourselves, 'Shall we be more tender with our dollars than with the lives of our sons?'" — Secretary Morgenthau.

Don't spend your pay in competition with your neighbors for scarce civilian goods. Save, America, and you will save America from black markets and runaway infiation. Buy more Bonds every payday. How many bonds? Figure it out yourself. it out yourself.

## To Hasten Victory

No American wants this war to go one minute beyond the to go one minute beyond the time we can bring it to a victorious end. To hasten that victory—to save possibly the lives of millions of our boys on our far flung fronts—it is imperative that every American do his part in the Second War Loan. There is an investment to fit every purse. The most you can do is little enough compared with the sacrifice offered by our boys in service. They give their lives service. They give their lives —you lend your money.
