olina, this is to notify all per- oak; thence ment to the undersigned.

This May 27, 1943. J. A. PELL, Administrator

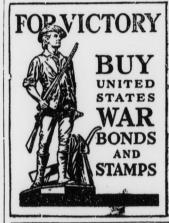

Keep them in Your MEDICINE CABINET

of the Estate of Frank S.

Lynch, Pilot Mtn., N. C.

No American wates this war to to one minute beyond the time we can bring it to a victorious end. To hasten that victory—to save possibly the lives of millions of our boys on our far flung fronts—it is imperative that every American do his part in the Second war Loan. There is an investment to fit every purse.
The most you can do is little enough compared with the sacrifice offered by our boys in service. They give their lives —you lend your money.

Hints For Motorists By Joseph R. Rollins The Atlantic Refiring Company

WHEN replacing a bulb in a When replacing a bulb in a good idea to coat the base of the bulb with flake graphite. This will prevent the bulb from corroding and sticking in the socket. Also, if you wipe a little vaseline around the joint between the body of the headlight and the rim, it will help keep out water, and at the same the state of the provent the same the state of the representations.

If you have carburetor trouble that is not traceable to the usual sources, the main metering jet of the carburetor may be at fault. An enormous amount of pasoline passes through this little part in the course of a year and sometimes it breaks down under the load. In some cases it has been found cut clean off.
