SHE IS NOT FREE!

Anna Eliza Utley Comes Back to Our City.

She is Still Indebted to the City and Should Pay Her Bill.

POLICE SHOULD SEE THAT IT IS PAID

Something of an Interview with Holt About Direct Tax and the World's Fair Exhibit in 1892.

THE GLOBE is not caring a continental about many things. But when the time comes for some people to laugh at law: to make of it a kicking block and refuse to obey its mandates, then THE GLOBE would like to ask a few questions:

According to the records this woman Utley—also Adams—wearing all the names, was working on the street.

She confessed in the court and at her trial that she was conducting a house which would not elevate the morals of any community. She was fined for her conduct and sentenced to work on the street, but by the good luck which came to her she was released from the sentence and the penalty, under the direct promise that she would leave the place and remain away.

But she has returned.

What she is doing here THE GLOBE neither knows nor cares, but it does say that until she fulfills her part of the agreement she stands before the law a criminal. It is manifestly the duty of the police to see to it that she goes away, or else do what other people as unfortunate as she—pay her fine.

And the chief of police might look into this matter as he goes along.

DIRECT TAX.

Governor Holt Interviewed in Regard to the Direct Tax.

The News and Observer says: We called at the executive office yesterday to interview Governor Holt in regard to the direct tax fund.

Our people are very much interested in the subject in connection with the appropriation made of this fund by the last general assembly for the world's fair. The governor was ready and willing, as he always is to place before the people all information in which they may be interested.

In answer to our inquiry as to the amount of the direct tax fund that had been paid out on applications properly proven, Governor Holt said:

Within the last twenty-six days I have paid out \$128,175.67. This sum has been actually paid out, and does not include the warrants that have been issued, or the applications on file for immediate consideration.

The warrants that have been signed and forwarded to the parties entitled to them, and which may be presented for payment at any moment, amount to about \$25,000.

The sum covered by the applications now on file will reach about \$100,000, showing that, in round numbers, \$253,000 have been disbursed and demanded up to present date, and all within twenty-six days.

The governor handed us a statement showing the amount paid out each day, making a daily average of about \$4,000. This statement further shows that during the latter part of the twenty-six days larger sums were being paid out.

We asked the governor if he thought there would be enough of the fund to pay the \$25,000 appropriated for the World's fair?

He could only form an opinion as to what had already been done in the way of paying applications, and thought that even as early as January next, the amount in hand would be inadequate to meet the appropriation.

We then asked what was to be done as to North Carolina being represented at the World's fair?

This contingency, he said, would have to be provided against by the liberality of the people of the state. For himself, he was ready to prove his earnest desire to have North Carolina represented by a liberal subscription, and in any other way he could use his influence, but he did feel that he could say to the applicants for money which he owed them, and which the federal and state law said was theirs, that their applications could not be paid, because their money was needed to pay the expenses of the state in making her exhibit at the World's fair. He said he would pay to each person the money that belonged to him as fast as applications were presented properly authenticated.

IT WAS A SUCCESS.

What the Durham Boys Made Music for at Oxford, N. C.

The german at the Centre warehouse last night was a very pleasant affair, but there was a smaller number of dancers on the floor than was expected. Many stayed away because of the inclement weather. Those present, however, had a good time and danced until a late hour. The Durham orchestra rendered excellent music.

The german was given complimentary to Miss Daniel, of Tarboro, N. C.; Miss Outlaw, of Windsor, N. C.; Miss Porter, of Tennessee; Miss Russell, of St. Louis, Mo., and Miss Hicks, of Raleigh, N. C. Capt. W. T. Clement was the leader.

Blood Will Tell.

Of course it will—that is if it is good, healthy blood. It will glow in the cheek, and tell the story of perfect physical health. If it does not, if the complexion is devoid of color, the muscles weak and flaccid, something is wrong, and something out to be done about it at once, for in such cases delays are dangerous. For torpid liver, "biliousness," and the thousand and one ills to which these conditions of the system lead, there is no remedy in the world equal to Dr. Pierce's Golden Medical Discovery. Boils, pimples, eruptions, scrofulous sores, salt-rheum, and all kindred diseases are cured by it.

Simmons Liver Regulator cures general debility and will give you new lease on life.

Heart disease, palpitation, pain in side, short breath, oppression, asthma, swollen ankles, are cured by Dr. Miles' New Heart Cure. A new discovery by the eminent Indian Specialist. Fine illustrated treatise free at W. M. Yearby's drug store, or address The Miles Medical Co., Elkhart, Ind.
