—If you go on the excursion to Wilmington and are not satisfied when you return, the managers will give you money back. Every passenger guaranteed a seat or money refunded.

—We were incorrect in the statement yesterday in regard to the reception of Trinity college building. Such a report came to us, but we learn that a quorum was not present and, therefore, no action was taken.

AS TO ELEVATION!

A Ten Foot Jump and It Was a Winner.

An Elevator Does Not Work According to Rule.

HAPPILY NO ONE IS BADLY HURT

People Who Ride Bronchos, Bicycles, Wild Steeds and Elevators Should Have a Care.

There came near being a serious accident at Smoot, Parrish & Co's prize house to-day. Mr. Smoot and three of his laborers were coming down from the fourth floor of their house where the church rope got loose, precipitating them at a fearful rate. When near the last floor the fly wheel, probably weighing 800 or 1,000 pounds broke off, and came with a vim to the floor, almost breaking through and had it fallen through the hatchway, probably all four men would have been killed, but fortunately it rolled away in an opposite direction. All the spokes, except two, were broken. Mr. Smoot and the other gentlemen thought a jump of ten feet would be better than a sudden stoppage, so they made the leap in due time to prevent an accident. It will take considerable money to repair damages.

Mr. Parrish is rejoicing that he was at another point.
