#### "IS THINE HEART RIGHT?" Dr. Talmage's Sermon, Preached Sunday, December 4, 1887.

Text: "Is thine heart right?"-II Kings x, 15. With mettled horses at full speed, for he was celebrated for fast driving, Jehu, the warrior and king, returns from battle. I should like to hear of your financial welfare. I want everybody to have plenty of money, ample apparel, large storehouse and comfortable residence, And I might ask: Is your business right, your income right, your worldly surroundings right? But what are these financial questions compared with the enquiry as to whether you have been able to pay your debts to God; as to whether you are insured for eternity; as to whether you are ruining yourself by the long credit system of the soul? I have known mea to have no more than one loaf of bread at a time, and yet to own a government bond of heaven, worth more than

the whole material universe. The question I ask you to-day is not in regard to your habits. I make no inquiry abour integrity, or your chastity, or your sobriety. I do not mean to stand on the outside of the gate and ring the bell; but coming up the steps I open the door and come to the private apartment of the soul; and with the earnestness of a man that must give an account for this day's work, I cry out, O man, O | was the transgressions of the race, woman immortal:

IS THINE HEART RIGHT? I will not insult you by an argument to prove that we are by nature all wrong. If there be a factory explosion, and the smokestack be upset, and the wheels be broken in two, and the engine unjointed, and the ponderous bars be twisted, and a man should look in and say that nothing was the matter, you would pronounce him a fool. Well, it needs no acumen to discover that our nature is all atwist and askew and unjointed. The thing doesn't work right. The

biggest trouble we have in the world is with our souls. Men sometimes say that though their lives may not be just right. their heart is all right. Impossible! A farmer never puts the poorest apples on top of his barrel; nor does the merchant place the meanest goods in his show window. The best part of us is our outward life. No wonder that he crouched under a torture that made the sun faint, and the everlasting hills tremble, and the dead rush up in their winding sheets as he cried, "If it be possible, let this cup pass from me." But the cup did not pass. None to comfort. There he hangs! What has that hand done that it should be thus crushed in the palm? It has been healing the lame and wiping away tears. What has that foot been doing that it should be so lacerated? It has been going about doing good. Of what has the victim been guilty? Guilty of saving a world. MacIan, a chieftain of a prominent clan, resolved to return with the rest of the rebels, but had some pride in being the very last one that should take the oath. He postponed starting for this purpose until two days before the expiration of the term. A snow storm impeded his way, and before he got up to take the oath and receive a pardon from the throne, the time was up and past. While the others were set free, MacIan was miserably put to death. He started too late and arrived too late. In like manner some of you are in prospect of losing forever the amnesty of the Gospel. Many of you are going to be forever too late. Protest Against Small Windows. I have entered my protest many a time against small windows. Let there be light is the warning of every physician. It is absolutely necessary to health that a house be well lighted, and a great deal of the sickness of a city is to be attributed to dark rooms. It may be called refinement for a woman to be pale and thin, but it renders her unfit to bear the burdens of life and powerless to resist disease. A plant cannot grow in a dark place, and why should a human being? Children brought up in these modern houses, with their small windows and dark rooms, become unhealthy and puny. Style is to blame for this evil. Every house should have as much sunlight
