

Goldsboro Mail.

FRIDAY AUGUST 1 1879.

LOCAL.

Inferior Court in Wilson this week.

Nash county jail has but one prisoner.

The showers are gentle, mild and general.

Newberne papers quote corn at 55 to 60c. per bushel.

Gardens in town have greatly improved since the rains.

There are some papers that neither give credit nor pay cash says the Star.

The people of New Orleans think they cannot escape the yellow fever.

Encouraging news from Draughton's Roads section about the Railway.

Communications from "R. J. S." and "C." came in two late for this issue.

Wayne will raise an average crop after all if seasons are favorable from this out.

The office and material of the Warrenton News was destroyed by fire a few days since.

Crops greatly improving, is the message we get from our farming friends from all quarters.

Several fine brick stores are taking the place of those burned in Wilson last fall.

A steam boiler exploded a few days since at Enfield killing one white man and two negroes instantly.

General rains and a great improvement of crops is the cheering news from all directions this week.

Judge Faircloth left on Tuesday last for Springs in Va. He will be away from home until about the 1st of Sept.

Messrs Jasper McArthur of Sampson, Brown Quinn and E. Joyner of Duplin, in town on business this week.

Dr. Hill of Duplin was to see us Saturday. He thinks Hon. Swift Galoway, makes an excellent State officer.

The presence of Hon. R. R. Bridgers is wanted at a Railroad meeting to be held in Castalia, Nash county, on tomorrow.

The many friends of Mrs. Asher Edwards of this place will be pained to learn that she is very ill with typhoid fever.

The health of the place is good when taken as a whole, yet we have had and have now a few cases of typhoid fever.

The stock of leaf tobacco now on hand is much smaller than at this time last year, with present prospects poor for a full crop this year.

The editor of the Free Will Baptist is after Mr. Patterson in a long editorial, which, by request, is copied on the first page of to-day's issue.

It is with great pleasure that we state that Mr. R. M. Freeman whose life at one time was disparaged by his friends is now out of all danger.

Masters Willie Dorch and Jennie Borden, of this place, and Henry Thorp of Nash, left for the Bingham school on Tuesday of this week.

The fall session of Prof. Troy's school will open on the 5th of August in the public Academy instead of his residence where it was taught last session.

To Mr. Arthur Premper of Durham, who has been visiting friends here, this week, we are indebted for a pound package of fine smoking tobacco.

One sturgeon, 110 lbs and seven large gar fish was the fruits of one haul of a sein in the Neuse, near Ashley Whitley's place in Johnston county last Friday.

The name of Judge Thomas Suttle is prominently mentioned as the commanding man for the Republican nomination for Vice President on the ticket with Gen. Grant.

The Star of the 30th inst. quoted Spirits of Turpentine at 25 1/2 cts. per gallon, common strained Rosin \$1.00, good strained \$1.05, yellow dip Turpentine \$1.75, virgin \$2.25 per bbl.

Mr. R. E. Blackley, of the Lenoir Topic, has taken to himself an accomplished, young and beautiful wife from old Virginia. Miss Mary M. Morgan of Petersburg was the happy bride.

We are informed by Mr. W. H. Marshall, one of the general assessors for the county (of Craven) at large, that the crops throughout the county are just simply magnificent and superb.

Mr. Willis Cole from Grantham's Township was in to see us Monday, and give an encouraging account in regard to the willingness of that section of Wayne to make liberal subscriptions to the Harnett Railway.

The Petersburg Index-Appel welcomed the first showers of the recent rains with the endearing appellation, "The blessed rain," and so it is with every blessing from the hand of our Heavenly Father—they are all blessed.

The canvass for a county subscription to the Greenville Railroad goes bravely on in Greene, we have sent them a supply of approval tickets with the hope that enough of them will be voted to carry subscription.

We understand that Hollowell & Peterson will leave special cars for the accommodation of their friends at La Grange and Kinston on their grand Excursion Aug 6th. This bids fair to be an excellent Excursion.

It is a little singular says the Wilmington Star, that all the recent rains have commenced between mid-night and day. We think they begin here at all times of the day and night, and comes gentle and refreshing.

Mr. W. W. Ipark, who recently moved to Selma to conduct the drug business for Drs. Vick & Noble, made a flying visit to his old home on Saturday last. Will, is a clever young man, and his many friends here were glad to see him.

Hope our people will not have any dispute over each trying to get in the class of seven to raise the \$7,000 for the Harnett Railroad. We would stretch out the thing a few names rather than have a fuss among friends.

At the Friends Quarterly Meeting last Saturday, that new and elegant Church, usually called Falling Creek, in this county, was officially recognized, and recorded, receiving the name of Bethany, by which it will henceforth be known.

Dr. Bull's Baby Syrup is recommended by druggists as being a purely vegetable and reliable preparation for Babies. Price 25 cents.

The centennial fever is getting up considerably. On the 7th of October 1880, the Battle of Kings Mountain, fought on the 7th of October 1780, is to be celebrated on the battle ground. There is such a thing as over doing a good thing.

Mr. W. T. Dorch, who has just returned from New York, says the recent rains have been distributed all along the route. He thinks from the appearance of crops that the drought was more severe in Virginia than at any other point in his route.

Mr. Thomas M. Killeit of Pikeville township informs us that he and Mr. E. C. Futrell, who farms together, have a stalk of cotton 14 inches high 4 bolts and 51 forms. The land upon which it grows is of poor quality, and no fertilizers were used.

Hollowell and Peterson will run another grand Excursion to Morehead City on August 6th, and return on August 7th. Fare will be only one dollar for round trip. Their Excursions are always orderly and enjoyable. They look after the comfort of their passengers.

A correspondent from Peacock's Roads, says: "We have fine rains, also crops show signs of improvement, and while we cannot expect full crops, more will be made than was expected. The best informed men say that \$20,000 can and will be raised for the Railroad."

H. F. Grainger, Esq., left for Greene on Wednesday afternoon, to address the people of that county upon the importance of the Goldsboro, Snow Hill & Greenville Rail Way. He is a hard worker, a rising man in Eastern Carolina, and what he finds to do, he does it with all his might.

The town authorities has placed a new patent water elevator in the well on East Centre street near the Gregory House. It is claimed for this new invention that the air being forced into the water through the cups arranged on an endless chain agitates and purifies the water.

The most inexcusable folly is to endure Dyspepsia with all its miseries, when a 25 cent bottle of Dr. Bull's Baltimore Pills will cure the malady.

Over \$50,000 of the \$80,000 pledged on the grand campaign for the Harnett Railway has been already subscribed, and the work goes bravely on. Friends don't be discouraged! Goldsboro will do her duty; mark our words. We regard the building of the road as almost absolutely certain.

We have been pained by the intelligence of the death of Mrs. S. S. Alsop, of Enfield; a most estimable lady she was. We had the honor of being the guest of her and husband a short time since, and little did we suppose our parting with her then was the last time we should see her face on earth.

The remains of Mr. J. B. Baker, whose death was announced in the last issue of the MAIL, was brought from Mt. Olive where he was visiting his sister, to this place for interment in the town cemetery. He was buried with the honors of masonry, and his funeral largely attended by our people on Sunday evening last. The funeral discourse was delivered by Rev. Mr. Isler. Mr. Baker had many friends in this place and his family have the sympathy of our people.

Mrs. Martha Arrington of Halifax, died at a ripe old age, at her home on Friday of last week. "Blessed are the dead that die in the Lord, ye saith the Spirit they rest from their labors and their works do follow them." To her children and the surviving relatives and friends we tender sympathy and condolence.

J. C. Hundley of Granville has invented a machine and has obtained a patent upon it that he calls an "orderer." From what we can learn of its use, it is a distributor of steam over a barn of tobacco so that it can at any time desired be put in case for stripping and preserves the brightness of the leaf, tobacco raisers in Granville who have seen it think it will add much to the tobacco interests.

On the 1st Thursday in August, the voters of Greene county will vote upon the question of a county subscription of \$50,000 to the Goldsboro, Snow Hill and Greenville Railway, and if a majority shall say subscription, we think Wayne and Pitt should feel honored bound to raise an equal amount by private subscription, in as much as they have refused to submit the question of subscription to the people.

Those who desire to visit Beaufort this season should not forget the Excursion train that goes down on the 6th inst., Wednesday of next week. It is the only chance that will be offered this season to go and return for one dollar, so far as we know or have heard. Those up the Wilmington road can take the morning train South and reach here in time for the Excursion train.

The Governor offers a reward of two hundred dollars for the capture of Deems Simmons, col., who killed David Lanier, of this county; a report of which was given in the MAIL. It may be inferred that the Governor supposes all the readers of the MAIL to be too lazy or cowardly to catch a runaway even for the money as he never has taken occasion to say to them that a reward has been offered.

Mr. W. H. Smith, of the late firm of Smith, Palmer & Co., having bought the interest of Mr. A. B. Palmer, deceased, the firm name has been changed to W. H. Smith & Co., and the business conducted as before the death of Mr. Palmer, at the same place. The house is well known as a first-class hard-ware establishment. The stock kept is large and varied. Mr. Smith and his associates are of our most substantial men; enterprising, honest and correct.

We are indebted to the committee of arrangements for an invitation and ticket over the Seaboard & Roanoke R. R., and with the privilege secured for obtaining a ticket for one cent per mile over the W. W. road to attend the 5th inst. We bespeak a pleasant time for those of our friends who can attend. We know the people of Norfolk to be hospitable and alive to every impulse that to make up a chivalrous and high toned community.

A correspondent from Meadow says: "Count certain on the \$20,000 pledged you from Meadow Township to the Harnett road. What may we expect from Goldsboro, the inactivity of your people is having a depressing effect upon some. Why don't your people move forward." To our esteemed friend who writes thus we beg to say, don't get impatient, our people are waking up and will redeem the pledge we made for Goldsboro. Stick a pin there and go ahead.

We know of no institution of learning for young ladies that is more deserving of patronage than that of the Chowan Baptist Female Institute. The parental like care exercised over the girls causes parents who know the President as we do to feel perfectly secure in committing daughters to his guardianship, and withal the course is thorough, instruction the best and charges low. The institution was established in 1851—twenty eight years ago, and not a stain upon its fair name has ever been heard. Write to Dr. A. McDowell for catalogue and other particulars.

THINK OF IT—Our excursion train for Morehead City leaves Goldsboro at 7:45 on the morning of Aug. 6th and returns on evening of 7th.—To persons going on this train, tickets to Goldsboro and return at three cents a mile each way, good from Aug. 5th to 8th, will be sold at the following stations:—Rocky Mount, Sharpsburg, Toisnot, Wilson, Black Creek, Fremont, Dudley, Mount Olive, Faison, Warsaw, Magnolia, Princeton, Pine Level, Selma, Wilson's Mills and Clayton. As this will in all probability be the last Excursion this season, we advise all to go on it. We think we can safely promise a more comfortable class of cars than we have been able to run heretofore, having promise of some coaches from N. C. R. R.

Remember, the fare is ONLY ONE DOLLAR. Now is the time. HOLLOWELL & PETERSON. Headquarters Excursion Department, Goldsboro, N. C., July 30, 79.

HOW TO GET SICK. Expose yourself day and night; eat too much without exercise; work too hard without rest; doctor all the time; take all the vile nostrums advertised; and then you will want to know HOW TO GET WELL.

Which is answered in three words—Take Hop Bitters! See other column.

EXCURSION NOTICE.—Tickets to Goldsboro and return at three cents per mile each way, good from 5th to 8th of August, will be sent to Rocky Mount, Sharpsburg, Toisnot, Wilson, Black Creek, Fremont, Dudley, Mount Olive, Faison, Warsaw and Magnolia, to persons going to Morehead City on our Excursion, which leaves here at 7:45 P. M. on 7th, in time to connect with night train going North on W. & W. R. R. Persons North of Goldsboro, by taking morning train on 6th will make close connection going and returning. This Excursion is for whites only, and crowds of them are going.

FARE ONLY \$1.00 FOR ROUND TRIP. From every hill and valley, In Lenoir, Greene and Wayne, We hear that crowds are coming, To go on our train. From Sampson and high Johnston We hear the same report, And Wilson, Nash and Duplin Will help us build the road.

HOLLOWELL & PETERSON. Headquarters Excursion Department, Goldsboro, N. C., July 24, 79.

Mail Missives.

Wm. H. Vanderbilt, has recently purchased four million dollars of U. S. 4 per cent Bonds.

A colored youth, 17 years of age was drowned in Atkinson's Mill pond while bathing, a day or two since.

That breast plates were worn by many of the Federal soldiers during the late war, there appears to be abundant proof.

Many women in Boston are asking that they may be assessed for a vote tax that they may be allowed a vote next fall.

The New Bern Democrat says: "There are two kittens in this city which have six well formed and well developed legs."

The appearance of the yellow fever at Memphis has put a quietus upon the Exodus to Kansas of the colored people, which we regard as unfortunate for the South.

Hon. Robt. W. Johnston, of Little Rock, Ark.; died on Saturday night last. He had represented his State in Congress, both in the House of Representatives and Senate.

The Greenville Express gives accounts of destructive fires in the county of Pitt. Much fence has been destroyed and large bodies of valuable woodland have been greatly damaged; thought to be the work of incendiaries.

Governor Vance will be heard from in Ohio in a few weeks, as he is to take part in the gubernatorial campaign in that state. We predict that his speeches will do both himself and the cause he goes to promote good.

The crops in this section are suffering seriously from the long drought and it is supposed that the yield will be short. In some places even the undergrowth in the woods is shriveling up and dying from want of moisture.—Roanoke News.

A woman in Bertie county became so badly frightened during a severe storm a few days ago, that she appeared to be dead, and was about to be buried when she revived, says a Bertie correspondent of the Raleigh Observer.

Rev. Dr. Dickerson, of the Methodist Church, says that Chastine Cox, the murderer of Mrs. Hull, is all right and ready for heaven—that he is truly a Christian. Such a story as this does a vast deal of harm.—Wil Star.

We think you are correct Bro. Kingsbury.

A Rochester paper speaks as coolly of tanning the hide of a dead negro as if the poor negro had been a hog, yet the poor negro must not be left to the mercy of Southern people, even if they do give them decent burial instead of converting their hides into shoe strings.

Mr. Geo. Bate has had an exhibition at Mr. T. Smith's store quite a curiosity in the shape of a Guinea egg, with a very striking and correct representation of "Old Sol" impressed on the shell. This might be taken as one of the effects of the intense heat, but it was laid where the sun's rays never penetrate.—Wilmington Star.

One fatal case of yellow fever is reported in New Orleans, which we fear is but the beginning of the long list soon to succumb to that terrible plague. Memphis is nearly depopulated with the fever, and as there are comparably few left and strenuous efforts are being made to check the spread of the epidemic. We hope the terrible scourge may be abated.

A mulatto man of Atlanta, that calls himself Bob Webster and who claims that a fatal house girl at Washington was his mother, and Hon. Daniel Webster his father, is having a lecture fixed up to be delivered in Boston and other places north. Go ahead Bob if you can get any droppings from the nose of your scribbling kindred that we say. The old statesman is gone, he can stand it if Bob's other kin can.

Last Monday says the Wil. Star, a terrible storm of rain fell in and around Pittsburg, Pa. Twenty-five houses in Petrolia, were swept away and destroyed. The people of that section barely escaping with their lives; some miners narrowly escaped drowning. The only known loss of life so far reported is that of Mrs. Daily, who was drowned in attempting to cross a creek at Irwin's Station. The rain-fall is reported seven inches.

William Horn of New York has instituted two suits against the State of North Carolina, one for past due coupons at a bond issued in behalf of the Western N. C. Railroad company under act of Feb. 18 1860. The other for coupons of above issued for the same road under act of Dec 18th 1868. These suits will bring before the court the question of validity of the special act bonds, the suits were instituted in the supreme court under section II act 4 of the constitution.

W. F. Korney & Co. are receiving a Car Load of fresh Lime every week.

Another large stock of Childrens Carriages just received at Fuchter & Kern's. Selling off at cost.
