NEW YORK COLUMN.

GROVSTEEN & CO.

Piano Forte MANUFACTURER.

499 BROADWAY, NEW YORK.

THE ATTENTION of the Public and the trade is invited to our NEW SCALE 7 Octave Rosewood Piano-Fortes, which for volume and purity of tone are unrivaled by any hitherto offered in this market. They contain all the modern improvements.

French Grand Action, Harp Pedal, Iron Frame, Over-string Bass, and each instrument being made under the personal observation of Mr. J. H. Grovsteen, who has had a practical experience of over 30 years in their manufacture, is fully warranted in every particular.

The "Grovsteen Piano Forte" received the highest award of merit over all others at the celebrated World's Fair, where were exhibited instruments from the best makers of London, Paris, Germany, Philadelphia, Baltimore, Boston and New York; and also at the American Institute for five successive years, the gold and silver medals from both of which can be seen at our warehouse.

By the introduction of improvements we make a still more perfect Piano Forte, and by manufacturing largely with a strict cash system, we are enabled to offer these instruments at a price which will preclude competition.

Prices. No. 1 Seven Octave, round corners, Rosewood plain case, \$300. No. 2 Seven Octave, round corners, Rosewood heavy mouldings, \$325. No. 3 Seven Octave, round corners, Rosewood Lion's XIV style \$350. Terms.—NET CASH, in current funds. Descriptive circulars sent free. April 14, 41m.

GEO. A. PRINCE & CO.'S Patent Melodeons.

40 Varieties, with Patent Bass Tenors, or Sub Bass.

AUTOMATIC & SCHOOL ORGANS! Furnished in elegant Rosewood, Walnut or other fine Cases.

EVERY INSTRUMENT WARRANTED FOR FIVE YEARS. No charge for Boxing or Shipping. 40,000 Now in Use.

An illustrated catalogue containing full description of style, and testimonials of the most eminent musicians, as well as the superior excellence of our instruments—will be sent free to any address.

THE AUTOMATIC ORGAN. In presenting the AUTOMATIC ORGAN, we boldly announce the great triumph in musical instruments of the age. During the past half century, the French and Germans have manufactured a great variety of instruments with double bellows, and two pedals for the feet to operate; but the want of the re-versed or exhausted bellows, (which is the only bellows used in our instruments) made it impossible for them to produce the mellow, rich and musical tone for which our instruments are celebrated.

Another objection to this method of blowing was, that both feet being occupied in the work. Within the past two years, instruments constructed on this European plan of "double bellows" have been manufactured in the centre of the instrument to act upon the well, and operated by the knee. The inconvenience and contortion necessary to perform this object, are disagreeable to the gentleman, and to a lady the use of such an apparatus is nearly impossible.

Our AUTOMATIC device obviates this difficulty entirely, the simple and desired increase or decrease in the volume of the tone we predict for this invention a brilliant future.

The Melodeon and School Organ. For seven years the superior excellence of our Melodeon has not been questioned, and for two years past the enormous demand has made it impossible for us to meet our orders promptly. With our increased facilities we feel warranted in assuring our patrons that their orders will be promptly met, and solicit a continuance of their patronage. GEO. A. PRINCE & CO.

Caution to Purchasers. All of our instruments have upon the name boards in full, "GEO. A. PRINCE & CO." When a dealer represents any other instrument as the same as ours, it is usually a mere attempt to sell an inferior instrument, which can make a larger profit.

P. S.—A liberal discount to Churches, Clergymen and Schools. Address GEO. A. PRINCE & CO., Buffalo, N. Y.

MANHOOD:

IN THE YOUNG AND RISING GENERATION, the vegetative powers of life are strong; but in a few years how often the pallid hue, the lack-luster eye and emaciated form, and the impossibility of application to mental effort, show its baneful influence. It soon becomes evident to the observer that some depressing influence is checking the development of the body. Consumption is talked of, and perhaps the youth is removed from school and sent into the country. This is one of the earliest diversions of the ever-changing scenes of the city, the powers of the body soon much enfeebled to give zest to health and rural exertion, thoughts are turned towards pure pleasures.

If the patient be a female, the approach of the menses is looked for with anxiety, the first symptom in which Nature is showing her saving power in diluting the circulation, and thus in giving relief to the womb of health. Alas! increase of appetite has grown by what it fed on, and the energies of the system are prostrated, a painful and wonderful period to which only and must undergo so exciting a change from child to woman, is looked for with pain; the parent's heart bleeds with anxiety, and fancies the grave but waiting for its victim.

HELMBOLD'S FLUID EXTRACT OF BUCHU

For Weakness arising from Excess, or Early Indiscretion, Attended with the following symptoms: Indisposition to Exertion. Loss of Power, of Memory, Difficulty of Breathing, General Weakness, Horror of Disease, Weak Nerves, Trembling, Dreadful Harrow of Death, Night Sweats, Cold Feet, Irritability, Dimness of Vision, Languor, Universal Lassitude of the Muscular System, Often Eromous Appetite with Dyspeptic Symptoms, Hot Hands, Flushing of the Body, Dryness of the Skin, Pallid Countenance and Eruptions on the Face, Pain in the Back, Headaches of the Eyes, Frequently Black Spots flying before the Eyes, with temporary Suffusion and Loss of Sight, Want of Attention, Great Irritability, Restlessness, with Horror of Society. Nothing is more desirable to such patients than Solitude, and nothing they more dread for Fear of themselves, no Exposure of Manhood, no Exertion, no speculation, but a hurried Transition from the question to another.

These symptoms, if allowed to go on— which this Medicine invariably represses— soon follow Loss of Power, Fatality, and Epileptic Fits, in one of which the patient may expire.

During the Superintendence of Dr. Wilson, at the Bloomingdale Asylum, this result occurred to two patients; reason had for a time left them, and both died of epilepsy. They were of both sexes, and about twenty years of age.

Who can say that these excesses are not frequently followed by those direful diseases— Insanity and consumption? The records of the Lunatic Asylums, and the premature deaths by Consumption, bear ample witness to the truth of these assertions. In Lunatic Asylums the most melancholy exhibition appears. Consumption is actually sudden and quite distinct— neither Mirrh or Grievous visits it. Should a sound of the voice occur, it is rarely articulate.

With woeful measures wan Despair Low-sullen sounds his grief beguiled. Whilst we regret the existence of the above diseases and symptoms, we are prepared to offer an invaluable gift of chemistry for the removal of the consequences—
