the pulsars of the house, so he says to the lad who leads him: "Show me where the main pillars are." The lad does so. Then the strong main puts his right hand on one pillar and his left hand on another pillar, and, with the mightiest push that mortal ever made, throws himself forward until the whole house comes down in thunderous crash, grinding the audience like grapes in a wine press." And so it came the man who that reas: And so it came to mass, when their earts were merry that they said: Call for amoun, that he may make us sport. And ey called for Samson out of the prison one, and he made them sport.

In other words, there are amusements that are destructive, and bring down disaster and leath upon the heads of those who practice hem. While they laugh and cheer, they die. The three thousand who perished that day in Jam are as nothing compared with the tens usands who have been destroyed by

But the other text I have read implies that ere is a lawful use of the world, as well as a unlawful abuse of it; and the difference when the man Christian and the man unthat in the former case the man asters the world, while in the latter case the orld maders him. For whom did God ake this grand and beautiful world? For hom this wonderful expenditure of color, is gra-culness of line, this mosaic of the nd, this fresco of the sky, this glowing age of orchard and vineyard, this full a of the tempest, in which the tree heatra of the tempest, in which the tree
mines flute and the winds trumpet and the
thunders drum and all the splendors of
th and sky come clashing their cymbals!
If whom did God spring the arched bridge

n of the structure, do you allow strangers come in and occupy the place, while you ust your own chaldren in the kitchen or s been or the fields? Oh, no. You say: "I in very ghal to see strangers in my man-men but my own sons and daughters shall have the first right there. Now God has built this gread non-son of a world, and he has spread a glorious feast in it; and while these who are strangers to his grace may some in I think that God specially intensisto tive the advantage to his own children. You will find the Janorama and the art you will find the Metropolitan Museum and the Historical Society rooms full of rare curigive the advantage to his own children, these who are the rors and the daughters of the Lovi Abraighty, those who through grace can look up and say; "Abba, Pather," You cannot make me believe that God gives more advantages to the world than he gives to the church bought by his own bood. If, therefore, people of the world have looked with delerous sympathy upon the who make profession of religion. ng down into privation and into hardship. Thy did not they tarry a little longer in Why did not they tarry a little longer in the world, and have some of its enjoyments and some ments and recreations. I say to such men of the world: "You are greatly mistaken." and before I get through I will show that those people who stay out of the kingdom of God have the hardships and sild denials, while those who come in have the joys and the satisfactions.

of has given them.
Hitherto, Christian philanthropists, cleri-

al and lay, have busied themselves chiefly in g anful recreations; but I feel we have no right to stand before men and women in whose hearts there is a desire for recrea-tion amounting to positive necessity, de-nouncing this and that and the other thing, when we do not promise to give them some thing better. God helping me this morning, and with reference to my last account, I shall when upon a sphere not usual in sermoniz-ge, but a subject which I think ought to be resented at this time. I propose now to lay sefore you some of the recreations which are ot only innocent, but positively helpful and In the first place, I commend, among in-

loor recreations, music, vocal and instru-mental. Among the first things created was the bird, so that the earth might have music st the start. This world, which began with o sweet a screnade, is finally to be demol-obed amount the ringing blast of the arch-naged's trumpet, so that as there was music to the start, there shall be music at the close. While this heavenly art has often been larged into the uses of superstition and disstages into the uses of superstuon and dis-inguism, we all know it may be the means of high moral culture. Oh, it is a grand thing in have our children brought up amidst the count of cultured voices and amidst, the nellody of musical instruments. There is in his art an indescribable fascination for the has are all measurements and all those families who have be means to afford it, have flute or harp, or came or organ. As soon as the hand is large enough to compass the keys, teach it how to back out the melody. Let all our young men sick out the melody. Let all our young menry this heavenly art upon their nature.
Those who have gone into it fully have found
in it illimitable recreation and amisement.
Unit days, stormy nights, sensons of sickses, business disasters will do little toward
depressing the soul which can gallop off over
resical keys or soar in jubilant lay. It will
ture pain. It will rest fatigue. It will quell
passion. It will revive health. It will relaim dissipation. It will strengthen the immortal soul. In the battle of Waterloo, Welington saw that the Highlanders were fallagton saw that the Highlanders were fall-ing back, he said: "What is the matter here!" He was told that the band of music here? He was tord that the band of music had ceased playing, and he called up the spers and ordered them to strike up an in-spiriting air; and no seener did they strike he air than the Highlanders were rallied and helped to win the day. Oh, ye who have been routed in the conflicts of life, try by the force of music to rally your scattered bat-allons.

Lam glad to know that in our great cities there is hardly a night in which there are no concurts where, with the best musical instruments and the sweetest voices, people may find entertainment. Patronize such enter-

on of life. There are many Christian despondent from year to year who through such an institution be bene fited in their spiritual relations. There are in the Christian people who seem to think that it is

REV. DR. TALMAGE.

when through right exercise and prudency for unight be athletic and well. The effect of the body upon the soul you acknowledge. Put a man of mild disposition upon the animal dief of which the findian partakes and in a little while his blood will change and become like users who wanted to go into the large to t

and mental aliments, do not turn your back upon such a grand me licament.

Still further: I commend to you a large class of parlor games and recreations. There is a way of making our homes a hundred fold more attractive than they are now. Those parents cannot expect to keep their children away from outside dissipations unless they make the domestic circle brighter than anything they can find outside of it. Do not then, sit in your home surly and unsympathetic, and with a Falf condemnatory look, because of the sportfulness of your children. You were young once yourself, let your children be young. Because your seys are dim and your ankles are stiff do not denounce sportfulness in those upon whose eye there is the first lustre, and in whose foot there is the bounding joy of robust health. I thank the first fastre, and in the bounding joy of robust health. I thank God that in our drawing rooms and in our sports that in our drawing-rooms and in our par ors there are innumerable games and sports which have not upon them the least taint of iniquity. Light up all your homes with innocent hilarities. Do not sit down with the rheurastism, wondering how children can go on so. Rather thank God that their beauty are so light and their that their hearts are so light and their laughter is so free, and that their cheeks are laughter is so free, and that their cheeks are so raided and beautiful world! For wooderful expediture of color, hess of line, this mosaic of the freeco of the sky, this glowing or hard and vineyard, this full the tempest, in which the tree teand the wirds trumpet and the stardmand and the pelendors of ky came clashing their cymbals! and good spring the arched bridge esting upon buttresses of broken if For whom did he gather the of fire around the window of the For all men, but more especially dear children. But when the storm actually clouds the sky it will be time enough for you to hail out your reef tackles. Carry, then, into your homes not only the innocent sports and rames which are the inventions of our own day, but the games which come down with the sportfulness of all the past ages—chess and charades, and tableaux and bettelore, and calisthenics, and lawn tennis and all those amusements which the young people of our homes know so well how to contrive. Then there will be the parior socialities—groups of people assembled in your alities—groups of people assembled in your homes, with wit and mimicry and joviality, filling the room with joy from the door to the mantel and from the carpet to the ceil-ing. On! is there any exhilaration like a score of genial souls in one room, each one adding a contribution of his own individual mercinent to the aggregation of general

> You will find the Metropolitan Museum and the Historical Society rooms full of rare curiosities, and scores of places which can stand plainly the test of what is right and wrong in amusements. You will find the lecturing hall which has been honored by the names of Agassiz in natural history. Dozemus in chemistry, Boynton in geology, Mitchel in astronomy, John B. Gough in moral reform, and scores and hundreds of men who have poured their wit and genius and ingenuity through that particular channel upon the hearts and consciences and imaginations of men, setting this country fifty years farther in advance than it would have been without n advance than it would have been without

It is joice in the popularization of outdoor sports. I hall the croquet ground and the greatly mistaken, and before I get through I will show that those people who stay out of the kingdom of God have the hardships and a lidenals, while those who come in have the love and the satisfactions.

This morning in the name of the King of the king of the area and earth I serve a writ of ejectment upon all the sinful and polluted who have squatted on the domain of earthly pleasure as though it belonged to them, while I claim, in behalf of the good and the pure and the true, the eternal inheritance which old has given them.

Hitherto, Christian philanthropists, clerical and lay have having themselves chieffy in the popularization of outdoor sports. I hail the croquet ground and the sports and the sportsman's rod and the sportsman's god. In our cities life is so unhealthy and unnatural that when the census taker represents a city as having \$50,000 inhabitants, there are only 40000, since it takes at least two men to amount to one man, so depleting and unnerving and exhausting is this metropolitan life. We want more fresh air, more sunlight, more of the abandon of field sports. I cry out for it in behalf of the church of God as well as in behalf of the church of God as well as in behalf of the church of God as well as in behalf of the church of God as well as in behalf of the church of God as well as in behalf of the church of God as well as in behalf of the church of God as well as in behalf of the church of God as well as in behalf of the church of God as well as in behalf of the church of God as well as in behalf of the church of God as well as in behalf of the church of God as well as in behalf of the church of God as well as in behalf of the church of God as well as in behalf of the church of God as well as in behalf of the church of God as well as in behalf of the church of God as well as in behalf of the church of God as well as in the constant when the crosus taker represents a city as having \$50,000 inhabitants, there are only 40000, since it takes at least two men to amount to one man, so depleting Capitoline grounds might be all awake with the heel and the shout of the swift skater. I the heel and the shout of the swift skater. I wish that when the warm weather comes the graceful oar might dip the stream and the evening tide be resonant with boatman's song, the bright prow splitting the crystalline billow. We shall have the smooth and grassy lawn, and we will call out people of all occupations and professions, and ask them to join in the ball player's sport. You will come back from these outdoor exercises and recreations with

player's sport. You will come back from these outdoor exercises and recreations with strength in your arm, and color in your cheek, and a flash in your eye, and courage in your heart. In this great battle that is opening against the kingdom of darkness we want not only a conserrated soul, but a strong armand stout lungs and a mighty muscle. I bless God that there are so many

muscle. I bies God that there are so many recreations that have not on them any tains of inquity; recreations in which we may engage for the strengthening of the body, for the clearing of the intellect, for the illumination of the soul.

There is still another form of recreation which I commend to you, and that is the pleasure of doing good. I have seen young then weak and cross and sour and repelling in their disposition, who, by one heavenly touch, have wakened up and become blessed and buoyant, the ground under their feet and the sky over their heads breaking forth into music. "Oh," says some young man in the house to day, "I should like that recreation above all others, but I have not the means." ove all others, but I have not the means.

house to day, "I should like that recreation above all others, but I have not the means." My dear brother, let us take an account of stock this morning. You have a large estate, if you orly realize it. Two hands. Two feet. You will have, perhaps, during the next year, at least \$10 for charitable contribution. You will have twenty-five hundred cheerful looks, if you want to employ them. You will have five thousand pleasant words, if you want to spoak them. Now, what an amount that is to start with.

You go out to-morrow morning and you see a case of real destitution by the way-side. You give him two cents. The blind man hears the pennies rattle in his hat, and he says: "Ihank you, sir: G:d hless you." You pass down the street, trying to look in-different; but you feel from the very depth of your soul a profound satisfaction that you made that man happy. You go on still farther, and find a poor boy with a wheelbarrow, trying to get it up on the curbstone. He fails in the attempt. You say: "Stand lack, my lad; let me try." You push it up on the curbstone for him, and pass on. He wonders who that well dressed man was that on the curbitions for him, and pass on. He wonders who that well dressed man was that helped him. You did a kindness to the boy, but you did a great joy to your own soul. You will not get over it all the week.

concerts where, with the best musical instruments and the avectest voices, people may find entertainment. Patronice such entertainments when they are afforded you. Buy season tockets if you can for the "Philhar monic" and the "Handel and Haydn" societies. Feel that the dollar and a half or two dollars that you spend for the purpose of bearing an artist play or sing is a profitable investment. Let your Steinway halls and your academies of music roar with the accumulation of appreciative audiences assembled at the concert or the oratorio. Still further, I commend as worthy of support the gymnasum. This institution is arming in favor every year, and I know of nothing more free from dissipation or more calculated to recuperate the physical and mental energies. While there are a good many people who have employed this institution there is a vast number who are ignorant of its excellences. There are men with cramped cheers and weak sides and despond dent spirits who through the gymnasium might be rouved up to exuberance and exhitaration of life. There are many Christian prople despondent from year to year who are jened and prople despondent from year to year who are ignorant of its excellences. There are men with cramped cheets and weak sides and despondent from year to year who are ignorant of its excellences are many Christian prople despondent from year to year who are ignorant of the store of a fired who is employed the proposed to make this man happy? He certainly does not was money; he is not poor; but he is sick." Give himone of those tw nty-the is sick." Give himone of those tw nty-the certainly does not was money; he is not poor; but he is sick." Give himone of those tw nty-the certainly does not was money; he is not poor; but he is sick." Give himone of those tw nty-the certainly does not was money; he is not poor; but he is sick." Give himone of those tw nty-the certainly does not was money; he is not poor; but he is sick." Give himone of these tw nty-the certainly does not was money; he is not poor; but h You spent only two cents out of the \$10, you have contributed one out of twenty five hun-ired cheerful looks; you have given ten, fifteen or twenty of the five thousand pleasant words you are going to speak during the year; you have with your own hands helped the how with the wheellerow and Christian people who seem to think that it is a good sign to be poorly, and because Richard Baxter and Robert Hall were invalids they think that by the same sickliness they may so the to the same grandeur of characts. I went to tell the Christian people of my congregation that God will hold you responsible for your invalidism if it is your fault and sold the spier.—Col. Gardiner, who sat with his thow on a table spread with all extravagant riands, looking off at a dog on the spier.

night at 6 octock. Inc day wore away, and it came to 4 o'clock, and to 5 o'clock, and she cried out at 5 o'clock: "Destroyed spirits, ye shall not have me yet; it is not 6, it is not 6:" The moments went by, and the shadows began to gather, and the clock struck 6; and while it was striking her soul went. What hour God will call for us I do not knowwhether 6 o'clock to-night, or 3 o'clock this afternoon, or at 1 o'clock, or at this moment. Sitting where you are, dropping down, where would you go to!

But our hour for adjourning has already come, and the last hour of our life will soon be lere, and from that hour we will review this day's proceedings. It will be a solemn nour. If from our death pillow we have to look back and see a life spent in sinful amusement, there will be a dart that will strike through our soul sharper than the dagger with which Virginius slew his child. The memory of the past will make us quake like Macbeth. The iniquities and rioting through the have research will one to the stream of the past will make us quake like Macbeth. The iniquities and rioting through memory of the past will make us quake like Macbeth. The iniquities and rioting through which we have passed will come upon us, weird and skeleton as Meg Merrilles. Death, the old Shylock, will demand and take the remaining pound of fiesh and the remaining drop of blood, and upon our last opportunity for repentance, and four last chance for heaven, the curtain will forever drop.

### A Unique Advertisement.

Some years ago, when Mr. Bonner be came worn out with the fatigue of hard work, he purchased a place in the coun-He had not been there a great while when the following appeared in the Ledger under the heating, "A country seat for sale where there is fever and ague:

I hereby offer to sell my country seat at West Morrisania, near Melrose Station, where I have lived for the past three summers, but do not think I could live much longer. I have heard that people looking for a place to purchase could never find one where they have chills and fever. They always have it about a mile or a mile and a half or two miles away, but never right there at the place that is for sale. Now, I offer for sale a curiosity—something rare—the precise exact place that is for sale. Now, I offer for sale a curiosity—something rare—the precise, exact spot where the fever and ague is. I will warrant it to be there. Three of my children have it, my gardener has it, my gro in has the premonitory symptoms, and I have a sufficient inking of it myself. Any doctor with a large family, with a specific for fever and ague would find it a most eligible situation. The neighborhood is full of the disease, and if he could keep it out of his own family it would give him a reputation which would assure his future. Besides the fever and ague the estate consists of a fine double house with modern conveniences and improvements, such as hot and cold water, furnace, range, etc. About two acres of land, a pretty fair barn, and some excellent box stalls for horses. It is really a beautiful place. The fair barn, and some excellent box stalls for horses. It is really a beautiful place. The grounds are handsomely laid out and covered with shrubbery and trees of the choicest kind. The trees not only afford a delightful shade, but a nice harbor for mosquitoes. I bought the place to please my wife, and shall sell it to please my whole family. Terms cash. I am afraid my security on it would get fever and ague and become shaky. Those wishing to purchase will please apply immediately. I want to get away from it as fast as Dexter can carry me. as Dexter can carry me.
ROBERT BONNER.

P. S.—The town authorities have begun to make alterations in the streets adjoining. and if they drain the place as well as they do the pockets of the landholders, it may become healthy.

This advertisemens created quite a sensation at the time, and was copied in the daily papers all over the country.

Each Shop in Paris Has It. Color.

Busine's people in Peris have long since formed a color speech by which certain trades ar casily recognized. First of all the color shops are distinguished by being painted outside it squares and stripes of the mer, brilliant colors. Viennese leather, Dronze and trinket shops have begun to use the Austrian colors, yellow and blackr then the Spanish wine shops use yellow and red; the Italian, green, white and red. The business places where furniture carts for removal are kept are painted yellow, as well as the wagons-why, not even the proprietors know. Pastry shops are own cutside, and within and gold, so that one is reminded of the pastry itse f.

Milk shops are white and blue, both inside and out. The washerwomen now begin to paint the outside of their ironing shops a bright blue, while the carts that take the linen to the wash houses in the country are bright green. Wine houses are all painted brown, or a dull red, which is exactly the color of the vin ordinaire mixed with cranberry juice and logwood. Still darker is the color of the charcoal shops, which the dust soon renders completely black. Bakers are fond of light brown and white, with much gilding and large mirrors. - Court

## Superstitious Lake Marines.

In speaking of the superstitions of mariners, Captain J. W. Hail, one of the oldest and most experienced lake-faring men in Detroit, said yesterday: "Did you ever notice that there is no vessel on the lakes named The George Washington? The first vessel that ever bore that name was a steamer launched in 1833. went down during the same year with the loss of one life. Another was built about 1837, and in 1838 foundered with the loss of sixty-eight lives. The idea that there is bad luck in the name has never been overcome, and I doubt whether you could now induce an underwriter to take a risk upon a boat bearing that name."—Detroit Free Pr. 83.

## Took Him at His Word.

"Good-by!" he said brokenly, and his frame shook with emotion: "Good-by, and may heaven bless you! Remember, Miss Smith, that although I cannot win your love I shall always be your devoted friend; and if at any time I can be of service to you, you have but to command me. I leave for Australia to-night. Good-by!

"I am sorry, Mr. Gerridge," said Miss Smith, in a low tone of voice, "to have been the means of driving you so far from home, but since you are so kind as to offer your services I will ask you to

SWALLOWED A SPIDER.

A Novel but a Marvelous Cure for Ma-"Malaria?"

"Malaria"
"Yes, malaria."
"No, sir. I am no more afraid of malaria
than I am of you." and as the speaker was at
least ten inches taller than the reporter, and
proportionately broader, his fear of that
dread malady was probably not excessive.
"I've had malaria, and I've been cured."
"Yes, but a man can have malaria more
than once."

"Yes, but a man can have malaria more than onca."

"Not if he is cured the way I was. About ten years ago I was living in Indiana, in Vigo county, near Terre Haute. In those days a man was regarded as a stranger until he had drank about a gallon of whisky and quinine, and shaken down his bedstead three or four times with the ague. I had a rather reticent nature, and I suppose it took the dimate longer to get acquainted with me than it did the ordinary run of men. For I had to drink about a barrel of whisky and take whole pounds of quinine before I could get strong enough to even shake myself, let alone a bed."

"How was I cured!"

"Well it was a novel cure. I boarded with a Mrs. Dennis, who told me she could cure me if I would take her medicine. Finally I agreed. She brought a towel and bound it around my head so I could not see; then she brought a glass of water, and told me to take my dose, and immediately swallowed the water.

The dose tasted like a little ball of dust.

take my dose, and immediately swallowed the water.

The dose tasted like a little ball of dust, and as it was going down I felt a sharp pain in my throat, as if it had been scratched.

"The next morning Mrs. Dennis brought a little box and showed me her medicine. It was a big, hairy, black spider, alive, and the mate to the one I had swallowed the day before."

The medicine this gentleman took for malaria, may have been effective, but few would care to try the remedy. Nor is there any necessity for it.

Malaria is a poisoned condition of the blood, produced by bad air and water, which enter the blood-channels through the stomach that ways and produce in

enter the blood-channels through the stomach and lungs, and other ways, and produce injurious effects on the liver and kidneys. It is cured by putting the liver and kidneys in perfect, healthy working order. The drugs ordinarily used for such purposes frequently do quite as much harm as good, and leave the system in an enfeebled condition.

The certain and harmless remedy for malaria is Warner's safe cure, which puts the liver and kidneys in healthy action, when the poison is carried out of the system, and the serious effects it engenders pass away. J. M. Booth, Springfield, Mass., under date of March 28, 1887, writes: "One year ago I had the malaria—had had it more or less for ten years. I stopped all other medicines and ten years. I stopped all other medicines and took Warner's safe cure, and it cured me. This country is famous for malaria, and I know Warner's safe cure will cure it." Feople who live in malarious localities will

recipie woo ave in maiarious jocarites will find in Warner's safe cure a specific against contracting this disease. The malarial potent can find no entrance to the system, if the liver and kidneys are kept in healthy action. The gentleman who swallowed the spider, concludes his narrative in the New York Mail and Express by saying:
"I was effectually cured, but I wouldn't take another dose of that medicine to save my life."

### Making Silver Dimes.

It is not generally known that the United States Mint, on Fifth street, is the largest institution of the kind in the world, yet it is a fact. Just at the pres ent time there is a lively demand for silver dimes, and hundreds of thousands of dollars of them are being shipped to New York, Chicago, Cincinuati, St. Louis and other Eastern cities. Two of the money presses have been for some time running exclusively on this coin. The demand is so great that these machines are not even stopped on Sundays, and will be run on that day

throughout the present month.

The process of dime-making is an interesting one. The silver bullion is first melted and run into two-pound bars. These in turn are run through immense rollers and fistened out to the thicknes of the coin. These silve. strips are then passed through a machine which cuts them into the proper size for the presses, the strips having first been treated with a kind of tailow to prevent their being scratched in their passage through the cutters. The silver pieces are then put into the feeder of the print ing presses, and are fed to the die by automatic machinery at the rate of 100 per minute, 48,000 dimes being turned out in the regular working day of eight

As the smooth pieces are pressed be tween the ponderous printing dies they receive the lettered and figured impression in a manner similar to that of a paper pressed upon a form of type; at the same time the piece is expanded in a slight degree, and the small corrugations are cut into its rim. The machine drops the completed coin into a receiver, and it is ready for the counter's hands.

The instrument used by the counter is not a complicated machine by any means, as one might suppose. It is a simple, copper-colored tray, having raised ridges running across its surface at a distance apart the exact width of a dime. From the receiver the money is dumped on to this board or tray, and as it is shaken rapidly by the counter the piece: settle down into the spaces be ween the ridges. All these spaces being filled, the surplus coin is brushed back into the receiver, and the counter has ex actly 1,250 silver dimes, or \$125, on h's tray, which number is required to fill the spaces. The tray is then emptied into boxes, and the money is ready for shipment. The dime does not pass through the weigher's hands as does the coin of a larger denomination. One and one-half grains is allowed for a dollar down, and the deviation from the tandard, in the case of ten-cent pieces, is so trifling that the trouble and expense of weighing coins of this denomination dispensed with .- Son Francisco Chronic'e.

## Shoeing Horses.

It is the general practice in Spain to shoe horses without the application of heat, and very few shoeing smiths have bellows or forges in their shops. They also make their shoes without the a d of fires, a fact largely due to the pure, soft, ductile iron primarily manufactured with wood and charcoal The Spanish "herrador" or shoeing smith, for he does no other work, generally jobbing or repair-ing, has no use for the drawing knife, and he never touches or pares anything but the wall, and that with the butteris, and on no consideration would be put on a calk unless ordered to do so by a veterinarian. It may be surprising, but nevertheless it is so, that lameness located in the feet or caused by shoeing is far more rare in Spain than in England or America. Philadelphia Press.

## The Cut est Little Things.

"Cute": he echoed. "Well, I don't know as the adjective would have occurred to me in just that connection. But if you mean that they do their work thoroughly, yet make no fuss about it; cause no pain or weakness; and in short, are everything that a pill ought to be, and nothing that it ought not, then I agree that Pierces Pleasant Purgative Pellets are about the cutest little things going.

## The Plain Truth

Is that Hood's Sarvaparilla has cured theusands people who suffered severely with rheumatism. seutralizes the lactic acid in the blood, which cause those terrible pains and aches, and also vitalizes and enriches the blood, thus preventing the recurrence of the disease. These facts warrant us in urging rou, if you suffer with theumatism, to give Hood's Sarsaparilla a trial.

"Having been troubled with inflammatory rheu

matism for many years, my favorable attention was called to Hood's Sarsaporilla. I have now used three bottles and can already testify to beneficial results. I highly recommend it as a great blood purifier."— J. C. Arms, West Bloomfield, N. Y. Hood's Sarsaparilla

# ST. JACOBS OIL.

WHAT IT HAS DONE.

Relief.—In any climate at any season one or two applications of St. Jacobs Oil relieves; often cures permanently. This is the average experience in ten years.

Cures.—The contents of a bottle have cured thousands of extreme chronic cases. Used according to directions there is a cure in every bottle.

The Testimony.—Thousands of testimo-nials substantiate the above statements in the cure of all kinds of painful ailments.

The Proof.—To make sure of this show-ing, answers to inquiries concerning the per-manency of the cures resulted as follows; That from date of healing to date of response every cure has remained permanent without re-

Its Supremacy.—The twenty million bot-tles sold can be justly rated as so many cures; in almost every case a permanent cure. Its price is the surety of every bottle being the same, every bottle being a cure and the poor

## CATARRH IN THE HEAD.

SYMPTOMS OF THE DISEASE. Dull, heavy headache, obstruction of the masal passares, discharges failing from the head into the throat, sometimes profuse, watery, and aerid, at others, thick, tenacious, mucous, puruient, bloody and putrid; the eyes are weak; there is ringing in the ears, deafness, backing or coughing to clear the throat, expectoration of offensive matter, together with scale from ulcers; the voice is channed and has a "masal twing"; the breath is offensive; smell and taste impaired; there is a sensation of dizziness, with mental depression, a hacking cough and general debility. Only a few of the above snamed symptoms are likely to be present in any one case. Thousands of cases annually, without manifesting half of the above symptoms, result in consumption, and end in the grave. No disease is so common, more deceptive and dangerous, less understood, or more unsuccessfully treated by physicians.

COMMON SERSE

If you would remove an evil, strike at its root. As the predisposing or real cause of catarrh is, in the majority of cases, some weakness, impairity, or otherwise faulty condition of the system, in attempting to care the disease our chief aim must be directed to the removal of that cause. The more we see of this odious disease, and we treat successfully thousands of cases annually at the invalids Hotel and Surgical Institute, the more do we realize the importance of combining with the use of a local, soothing and bealing application, a thorough and persistent internal use of blood-cleansing and tonic medicines.

Sold by Druggists.

25 Cents a Vial.

BEING PURELY VEGETABLE,

Dr. Pierce's Pellets operate without disturbance to the system, diet, or occupation. Put up in glass vials, hermetically sealed. Always fresh and relia-ble. As a gentle laxative, or active pargative, they give the most perfect satisfaction.

CHIEF
RELIANCE.

In curing catarrh and all the various diseases with which it is so frequently complicated, as throat, broachial, and lung diseases, weak stomach, catarrhal deafness, weak or inflamed eyes, impure blood, scrofulous and sphillite tains, the wonderful powers and virtues of Dr. Pierce's Golden Medical Discovery cannot be too strongly extolled. It has a specific

[COPYRIGHT, 1887.]

effect upon the lining nuceus membranes of the nasal an air-passages, promoting the natural secretion of their follogiands, thereby softening the diseased and thickened motand restoring it to its natural, thin, delicate, moist, healt dition. As a blood-purifier, it is unsurpassed. As those which complicate entarth are diseases of the lining nuceus branes, or of the blood, it will readily be seen why this is so well calculated to cure them.

As a local application for bealing the discretion in the head, Dr. Sage's Catarrh Remedy all comparison the best preparation ever It is mild and pleasant to use, producing no regin, and containing no strong, irritating the drug, or other poison. This Remedy is paries so many cases of catarrh, thus affording great of those who suffer from this disease.

PERMANENT

The Golden Medical Discovery is the "helpmate" of Dr. Sage's Catarrh Remot only cleanses, purifies, regulates, a up the system to a healthy standard quers throat, bronchial, and lung communicaterially in restoring the discased, thickened, or ulceral brane to a healthy condition, and thus eradicates the When a cure is effected in this manner it is permanent. Both Dr. Pierce's Golden Medical Discovery and P. Catarrh Remody are sold by druggiests the world over. I \$1.00, six bottles for \$2.00. Dr. Sage's Catarrh Remedy half-dezen bottles \$2.50.

A complete Treatise on Catarrh, giving valuable his clothing, diet, and other matters of in portance, will be post-paid to any address, on receipt of a 2-cent postage.
