## THANKSGIVING DAY.

Our annual National festival day is to-day. Plenty and prosperity abound and health and happiness are ours to enjoy. Let it, then, be made a genuine Day of Thanks. Let us be thankful for the blessings of heaven, in the varied contents of "basket and store," for the fruitage of the orchards, the holdings of the granaries, the friends that are with us and the tender memories we have of those who have gone beyond. Let those who have plenty give thanks that they have much to enjoy, and thanks that it is their privilege to give of their bounteous store to those who are less fortunate, and thanks again that it is not only those who receive, but those who give who are blessed.

Day of Thanks to those who have but little, that it may be made the means of comfort and enjoyment by the mingling of what little they have with the heaven of content. Day of Thanks to the sad and sorrowing, to the needy and unfortunate, to those who suffer from wrong doings of their own or from others, that dark clouds often have silver linings and that the gloom of night is always followed by the light of day. Day of Thanks for the life that now is and the hopes and promises of the life to come; for the life-giving, health-giving and wealth-giving elements so positive and plentiful on every hand; for what we have and for the much more that we may have, of our own choice, in the way of careful, conscientious and prudent living.

Day of Thanks for the precious memories of the past, the tenderness of affections and endearment of the present and for the rich promises of the opening future of the Home Life before us. Day of Thanks for the loves of our homes and the endearing ties of kinship, for the occasions of family reunions, for the opportunities of mingling together of the old and the young, for the loving embraces of parents and children, for the ample means afforded for the bestowment of blessings of the aged sire and mature matron upon the children and children's children of their day and generation, for the giving of benedictions by the grand-sire and grand-dame upon the little ones of the family flock, for the privilege of being recipients of such blessings and benefits.

Day of Thanks to the lofty and lowly, for the freedom of thought and action which is their heritage in this land of liberty; for the protecting care that our National, State and local governments afford us. Day of Thanks for the "olive branches" that may gather around the Thanksgiving table; for the circumstance that brings so many who have strayed from the old roof tree back to the embraces of loved and loving family circles. Day of Thanks for the old who are still with us, as we reach one hand backward to them and another forward to the little ones who are the connecting links of the lives not only of those who have gone before us, with our own, but of our own with those who are to come after; for the duties that these little ones demand at our hands, and for the lessons of life that they teach us as we go on our way from one Thanksgiving Day to another and making each one, as it comes in its turn, a genuine DAY OF THANKS.

There can be no mistake in taking the Regulator for these disorders. It quickly relieves. Don't make the mistake of getting anything else for Malaria.

Office of S. CHERRY, 21 Drayton Street, Savannah, Ga., Dec. 16, 1891.

Messrs. Lippman Bros., Savannah, Ga.  
Dear Sirs:—I would like to add my testimony to the almost miraculous effect of P. P. P. in the case of Mary Ingraham, a woman living on my place; she had a constant cough, sore throat, debility, etc., and was emaciated to a degree that she was unable to get out of unaided, being given up by physicians; she had taken the ruinous so-called Blood Medicines without the least effect; until being put under the P. P. P., she immediately began to improve and is now in as good health as ever in her life. You can refer to me at any time as to the effects of P. P. P., in the foregoing case. Yours truly, SAMUEL CHERRY.

Monticello, Fla., Jan. 21, 1890.  
For the last eight years I have been in bad health, suffering with Malaria, Rheumatism, Dyspepsia, Dropsy. My digestion was bad, and my hair all came out, in fact I was nearly a wreck. I had taken kidney and blood medicines, which did me no good. When I began taking P. P. P., about three months ago, I was as weak as a child. I have only taken four bottles [small size], and to-day I am a well man and my hair has "come again." I cannot recommend P. P. P. too highly. W. F. WARE, Marshal, Monticello, Fla. F. C. OWENS, Witness.
