

**The Goldsboro Star.**

GOLDSBORO, N. C.

SATURDAY, MAY 27, 1882.

With this issue we enter into our second volume of the STAR, which has twinkled the past 12 months in the homes of the thousands, for whose patronage we return our thanks, and solicit a continuance with a hope to make the paper even better than it has been the past year.

One year ago to-day we ventured upon the sea of journalism, and sent forth our salutatory in which we said: "We shall contribute our every effort in bringing the chasm which unprincipled fanatics have placed between the two races, believing, as we do, that the prosperity of our race redounds to that of the other."

We have at all times and under all circumstances endeavored to follow this declaration of principles that we set forth in our first, yet we have been placed under circumstances by which public sentiment called upon us to deal with solid facts, this we have endeavored to do without weighing the consequences that might follow, and have at all times used plain English with no uncertain sound. We have endeavored to be honest in our views, which germinated from unselfish convictions of an honest heart; and this declaration we hope to follow in the future as in the past.

Our subscription list has gradually grown from hundreds to the thousands, and we feel safe in launching out for another year upon the sea of journalism, feeling that our patrons will aid us in the future as in the past.

**OUR TRIP WEST.**

We left Goldsboro on the 14th inst for the west, we first halted at Greensboro, here we met our talented young friend C. H. Moore and he accompanied us to Winston the next day, we meet his honor Judge M. S. Eare, who was holding Forsyth court, and took rooms at the New York Restaurant and rested from our Journey. The next day we attended Court and arranged our legal business after which we took a Strole through the Ancient Town of Salim which is Southwest of Winston-any Stronger that has never Visited this Double city Winston-Salem, but what will see the Big Coffee Pot that divided these two Municipalities. There are some as whole souled people in this section of North Carolina as ever Breated the breath of life, and in point of thrift and go ahead they Excel the Eastern people. We meet Dr. W. H. Wheeler and the Ed of the Union Republican-and a host of other leading Gentleman of that section, on the night before we left for other parts, the citizens gave us a grave ovation with the brass band and called upon us for a speech-to which we responded in our best style-Prof Chas. H. Moore's remarks on this occasion was very pointed and enjoyed by the vast crowd of both white and colored that came out to hear of what we had to say. The next morning at 6 o'clock we took the cars for Greensboro, there we remained until the next morning. From there we went to Salisbury and spent a day with our old friend Prof. A. S. Richardson Editor of the Star of Zion and from here we took passage for Charlotte to hear the Address of Senator Bayard on the occasion of the Meolenburg Centennial—here we met the Leading Republican of the west-and the indications are that the state convention on June 7th will be a large one, and it will require the best talent in the state to manage the affair, to avoid a serious henderence for a Republican victory this fall—every Republican in the state ought to attend

and show his appreciation of the struggle the independents are making for liberty in the state and wholesome laws. The people or on in favor of O. H. Docery or Col. I. J. Young for congress at large but will be stified with either of these Gentleman—the weekest man we met in the west with the people is the pomp with out power in the 5th District.

RALEIGH, MAY 25, '82.

*Editor Star:*—While visiting Raleigh this week we attended the commencement exercises of Shaw University, and we must say that the exercises were good and the orations well delivered. We have not time to speak of all the orations separately, but will say that all done well. Among the graduates were J. S. Lee, of Yanceyville, W. T. H. Woodward, of Winnsboro S. C., H. P. Cheatham, Henderson, besides two who took their degrees. The music was good; the closing piece was composed by J. S. Lee, one of the graduates.

We also visited St. Augustin Normal Institute. This school is under the charge of Prof. Harris, and well does he deserve to be praised, for he labors earnestly and diligently among his pupils. He has seven teachers and 145 pupils under his charge, and all seem to be laboring for the good of their pupils. While there we listened to several recitations, which showed to us that the teachers had not been idling their time away.

We then turned our steps to the Deaf, Dumb and Blind Institute. This Institution is under the principalship of W. F. Debnom, a gentleman of patience and intelligence. While there we heard a number of classes, one in essay writing, and we must say, for the short time some have been there, that there are some who excel those of our public school in composition writing; this school numbers 50, with four teachers and one matron—Mrs. R. E. Harris, of Goldsboro. All seem to be making rapid progress, and working in harmony. We hope that it will be our luck to visit these schools again soon. MRS. G. T. W.

TRENTON, May 24, '82.

*Editor Star:*—Pursuant to a call of the chairman of the Republican Executive Committee, they met in the court house at Trenton on the 6th of May, for the purpose of calling a County Convention the 3rd of June. The committee was all present whose names are J. L. Wilson, C. T. M. Simmons, Jr., S. D. Strayhorn, F. F. Green, H. D. Williams, E. M. Jarmon and A. S. Jones. All the townships hold their meetings on the 27th inst. Your name was spoken of in the committee as the choice of the colored Republicans for Congress from this county, also Hon. I. B. Abbott.

Mr. E. R. Page stands prominent with the Republicans in this county for Congress. The Republicans are for harmony and success in the coming campaign.

Yours for victory.  
JONES COUNTY.

FREMONT, May 25, '82.

*Editor Star:*—The closing exercises of the school to-night by A. B. Vincent near Saul's X Road, was witnessed on the 20th inst. by one of the largest gatherings of both races that has ever been seen in this section among the colored people. The Examination commencing at 10 o'clock A. M. consisted of closes in arithmetic, Grammar, History of the United States reading and spelling &c., Col. Geo. T. Wassom and Prof. E. E. Smith of Goldsboro having been invited to deliver addresses on the occasion rendered the large audience quite eager for their arrival. The Cornet Band of the Cross Roads furnished music for the occasion—most of the prominent white people of this section of both sex turned out and expressed themselves as pleased with the

exercises and even surprised at the rapid progress made by the children.

The afternoon exercises consisted of dialogue recitations, orations, vocal and instrumental music, after which Prof. Smith being introduced, rose and spoke in commendable terms of the progress of the school. He urged the people to continue the good work, and secure the best instruction attainable.

Col. Geo. T. Wassom being in the western part of the State, was unavoidably absent to the regret of the large and appreciative audience which had assembled to hear this distinguished young man of our race.

Yours &c.,  
FACT.

**THE GUILTEAU CASE.**

The argument on the appeal in the Guiteau case closed last week and it is now reported that the court is equally divided on the decision, one of the leading points being the question of jurisdiction—the President dying in New Jersey and the trial having taken place in the District of Columbia. A new hearing it is said will be ordered before the five Judges in a step of four.

Among the Zuni Indians, who have recently come to the front by coming East for ocean water, there is said to be a social custom that might be worth adopting in more civilized circles. In Zuni-land the houses belong to the women instead of the men, so a man can marry without first being obliged to buy or hire a house; marrying men are therefore abundant among the Zunis. On the other hand, a man who marries can occupy his wife's house only during good behavior, the wife having always the right to put an unsatisfactory husband out of doors. This is a privilege that would raise many an American wife from abject slavery to the rank of equal partner in the conjugal firm. But, whether for husband or wife, the Zuni plan is an advantageous one; it encourages early marriages, assures every woman of a home, so that she need not marry merely to get one, and it keeps husbands in order, for almost any man will behave himself if by so doing he can avoid the onerous duty of paying house rent.—*Evening News.*

**THE USUAL RESULT.**

It is not to be denied that a good sewing machine is one of the most important appurtenances of the modern household. We thought we had a good machine in our household until one day the agent of the New Home presented himself at our door and proceeded to deliver an oration upon its characteristic merits.

"But," we answered, "our machine serves us nicely and suits us well, and we do not care for another."  
The agent, however, was persistent, and finally begged the privilege of leaving one of his machines with us, "for the ladies to try."  
The request was not unreasonable, so we granted it—but more to oblige the agent than anything else; for we really did not want the machine, and had not the remotest idea of buying it.  
The machine once in the house, it was natural that the ladies should look it over. They did so, and as a consequence fell in love with it. They say that without the slightest wish to deory or disparage any other machine, this, all things considered, is, in their opinion, the most desirable one to be had.

The upshot of the whole matter was that the old machine was disposed of, and the Light Running New Home installed into our household—a very fair and satisfactory arrangement being made with the agent.  
It is pronounced a genuine beauty and a real comfort, and our folks wanted us to tell other folks about it.  
This unrivalled machine is manufactured by JOHNSON, CLARK & CO., 30 Union Square, New York, who wish us to say that all who will send for their new illustrated catalogue and enclose their advertisement (printed on another page), will receive a set of fancy advertising novelties, of value to those collecting cards, etc.

**TRY A BOTTLE OF**

**Cherokee Cough Cure.**

The very thing. Every bottle sells another. It recommends itself. Price 25 cents. To be had at all drug stores. Address MRS. SUE NELSON, Goldsboro, N. C.

OAK OIL FOR WORMS, prepared by Dr. P. H. Hicks Tolson N. C.

**Relief for Rheumatism.**

WHAT CLARE FIBER IS.

This new material is a strong, tough, elastic fiber, cut from the pine leaf and chemicalized for mattresses and bedding purposes. It retains all the curative virtues found in pure pine, which is so beneficial to those suffering from rheumatism and fever. It generates ozone—oxygen air—purifying the atmosphere of the apartment in which it is placed. It makes a comfortable, durable and elastic mattress, and will not break or mat down.
