Georgia Color d People Are Stopped From Productag a Play.

In 1633 the villagers of Ober Ammergau, in the Bavarian Highlands, on the cessation of a plague which desolated the surrounding enuntry, had vowed to perform every tenth year the Passion of our Savior, out of gratitude and as a means of religious instruction, a vow which has ever since been regularly observed. It was afterwards somewhat remodelled, and is perhaps the only mystery or miracle play which has survived to the present day. The last performance in Bavaria took place in 1880. The persecutor of Christ considers his part an act of religious worship, and he and the other performers are said to be selected for their holy life. There are usually about five hundred players. Some seven or eight years ago, Salmi Morse, who had visited Ober Ammergau, formed a company of about one hundred players in San Francisco, Cal., with James O'Neill, who impersonated the Savior, and gave one performance in the Grand Opera House. The building was packed to suffocation, but immediately after the play the principal characters were arrested and fined, and were not allowed to give another performance. Morse then went to New York and made preparations to present it on a grand scale. Hundreds of performers were engaged, arations to present it on a grand scale.
