Governor's Message.

EXECUTIVE DEPARTMENT,

RALEIGH, November 17, 1868. To the Honorable, the Gen. Assembly of N. C .: Gentlemen :- It is proper that at your first regular session under the new Constitution, I should lay before you "information of the affairs of the State," and recommend to your consideration such measures as may be deemed expedient.

The people of the State have reconstructed their government on the basis

the State government during the present fiscal year will be, three hundred bly is especially invited to that portion nature, which will violate no sacred and seventy five thousand two hun- of the report of the Secretary of State rule of charity, and which, honoring Add interest falling due during fiscal this subject. EDUCATION.

The attention of the General As-

THE PATRIOT AND TIMES. the rebellion are not confined to particular cases. They were general, affecting the whole people of the State in every walk of society. If a debtor cannot pay in the last resort, after reasonable indulgence has been extended to him, he is a bankrupt. What rendered him a bankrupt-whether the rebellion, or his own improvidence, or NO. 43 want of economy or foresight-is not material to the argument. We may lament his misfortunes and sympathize with him, but still the fact remains that he is still in possession of property which justly belongs to his creditors, some of whom may have been reduced to his condition by his failure to meet his obligations. The only refuge of such a person is to compromise with his creditors, or to enter a court of bankruptcy, or to make such an exhibit and disposition of his property and effects as will satisfy his creditors, that he is fixed in an honest purpose to do them justice. I do not by any means concur in the opinion that an honest bankrupt has incurred any serious loss of character as a business The Board of Education and the man, or that he should be distrusted or avoided. Such a man, on the contrary, has displayed honesty, moral courage and candor which entitled him to the respect and confidence of his

neighbors; especially when we remember that we have just emerged from a condition in which nothing was solid, and in which nearly every one was involved in pecuniary disaster and distress. Failure in business or loss of General Assembly shall provide, by property should but stimulate to reproper legislation, for giving to mechan- newed exertion. The honest, industriics and laborers an adequate lien on ous and upright citizen, howsoever reduced or depressed by misfortune, will always find friends to aid him in tween capital and labor, the latter is his efforts to improve his condition.

I reccommend that the stay laws be first, because money or capital is pow repealed, and that creditor and debtor er; and secondly, because capital is be placed on a footing similar to that generally controlled by a greater de- which they occupied previously to the gree of intelligence than that which rebellion.

The year now closing has been richly crowned with harvests. The seasous have been propitious. A plentiful supply of bread has been produced for our whole population, so that want in this respect will not be felt during the coming year by any who will labor for a living. Fruits of all kinds have been gathered in abundance. The staples of cotton and tobacco are affording fair profits to those who produced them, while from timber and naval stores a considerable portion of General Assembly. our people are realizing good returns, as in former years. Our commerce is increasing. Our mineral resources are once more in process of development. Our Railroads are recovering from the depression under which they formerly labored, and promising better returns than heretofore to the State and to the Stockholders ; while new lines of com munication are being laid out, destined

to penetrate and develop the great natural resources of portions of the State heretofore untouched by the hand of improvement. The State credit has been re-established on a solid basis, thus giving promise that at no distant day the bouds of the State will command as much in the market as those of the most favored and prosperous States.

We have great causes to be thankful to Almighty God for the manifold blessings which He is bestowing upon us; and we can confidently look forward, under His protection and guidance, for a condition of prosperity and happiness which we have not heretofore enjoyed.

STATE DEBT AND FINANCES. The State debt and finances wil doubtless receive the thoughtful and careful consideration of the General Assembly.

The amount of the State debt on the 1st of October, 1868, was nineteen million two hundred and nine thousand nine hundred and forty-five dollars .-(\$19,209,945.) This includes estimated amount of past due interest to be funded under act of August 20, 1868, of two millions of dollars. (\$2.000,000.) The above amount (\$19,209,945,) is inclusive of bonds issued for internal improvement purposes since May 20, 1861, and prior to the year 1866. The amount of these bonds is one million one hundred and twenty-eight thousand dollars, (\$1,128,000,) and the estimated interest thereon due and unpaid is one hundred and eight thousand five hundred and ten dollars (\$108,510.) The amount of interest which had matured October 1st, 1868, and been paid in cash, is one hundred and twelve thousand one hundred and one dollars. subsequent dates during the present fiscal year is as follows: January 1st. 1869, three hundred and eight thous and one hundred & ninety-seven dollars. (\$308,197. April 1st, 1869, three hundred and four thousand one hundred and one dollars, (\$304,101.) July 1st, 1863, three hundred and eight thousand one hundred and ninety seven dollars. (\$308,197.) Total for fiscal year ending September 30, 1869, one million thirty-two thousand five hundred and ninety-six dollars. (\$1,032,-596.) The amount of interest above stated as falling due April 1st, 1869, includes interest on bonds four millions five hundred thousand dollars, (\$4,500,-000.) yet to be issued bearing date October 1st, 1868. The balance remaining in the hands of the Public Treasurer October 1st, 1868, was one hundred and fifty thousand thirty four dollars and eighty-four cents. (\$150,034.84.) The amount from taxes, including payments in October, is two hundred and twenty-six thousand seven hundred and six dollars forty-two cents. (\$226,706.42.) The taxes from several counties remain unpaid, but we cannot expect more than seventy-five thousand dollars (\$75,- tics. Agriculture, and immigration, 000) from this source.

The loungers who, for the most part, fill our jails and workhouses, as they will to care in this respect for the poor and fill the penitentiary. There is work of the ignorant, since it is not merely some kind for all to do, and all should THE MILITIA.

Attention is invited to the Report of the Adjutant General, herewith submited. The views and suggestions of the Adjutant General have my entire approval. The opinion of Washington uttered in 1790, that a "free people ought not only to be armed, but disciplined," and that a well-organized militia "is certainly an object of primary importance, whether viewed in reference to the national security, to the satisfaction of the comunity, or to the preservation of order," is not less weighty or important now than it was then.

The expenditure incurred thus far on account of the militia is quite small.-I did not deem it expedient or necessary to avail myself of the power conconsiderable quantity of arms, with necessary equipments and ammunition, has been procured without cost, save for transportation. It is important that the militia should be enrolled, but it is not deemed essential that the entire body should be desciplined or drilled. The recommendations of the Adme to be such as should meet, as I trust they will, the approval of the General Assembly.

It is estimated that the expenses of the Adjutant General's office for the ensuing year, including his salary, will not exceed five thousand dollars, (\$5,-000.) I recommend an appropriation sufficient to cover that amount.

ECONOMY IN PUBLIC EXPENDITURES. I cannot too earnestly commend to the attention of the General Assembly the importance of enforcing economy in the public expenditures. Public officers who disburse the public moneys should be required to be as careful and economical as they would be as individuals in their business transactions. The State is in debt, the people are for the most part poor, and it is, therefore, especially important that economy should be observed. I recommend that the duties of the State Auditor be clearly and fully defined, and that it be made his duty to examine rigidly every account or claim against the State, of whatsoever character, before the Governor is required by law to issue his warrant for the same.

DUTIES OF PUBLIC OFFICERS AND THEIR SALARIES. Attention is respectfully invited to The law of creditor and debtor is of the fact that the duties of the Secretathe first importance. The relations of ry of State, Auditor, Treasurer, Superthese two classes should be plainly and intendent of Public Works, Superinernment will not be in complete opera- prescribed by law.
