Farmer's Department.

How FARMERS SAVE MONEY .- They take good papers, and read them. They keep accounts of farm operations.

They do not leave their implements scattered over the farm, exposed to rain, snow, or heat.

They repair tools and buildings at the proper time, and do not suffer a subsequent three-fold expenditure of time and money.

They use their money judiciously, and do not attend auction sales to purchase all kinds of trumpery because it is "cheap."

They see that their fences are well repaired, and their cattle are not found grazing in the meadows, or grain-fields, or orchards.

They do not refuse to make experiments in a small way of many new things.

They plant fruit trees well, care for them, and of course get good crops. They practice economy by giving their stock good shelter during the winter, also good food, taking out all that is unsound, half rotten, or mouldy. loss by fire, lightning or tornado.
