THURSDAY, SEPT. 20, 1888.

SPECIAL PARAGRAPHS.

The Wilmington Star thinks that the Dockery goose is about cooked.

The official vote of Maine shows a considerable falling off of the Third party.

Low taxes economically administered is one of the fundamental principles of the Democratic party.

Carlisle says there is no doubt about Mr. Cleveland's re election; that he is stronger than he was in 1884.

Canada's effective military strength consists of 38,000 men equipped with old-fashioned English rifles.

A bill has been introduced in Congress offering \$100,000 for discovery of the cause of yellow fever, with certain means of effecting its prevention.

Mr. Harrison's letter assails free trade. Where is the free trade? Certainly not in the Democratic platform, the Mills bill, or Mr. Cleveland's letter.

It was honest Grover Cleveland who said: "The laws should be rigidly enforced which prohibit the importation of a servile class to compete with American labor."

We've got 'em on the run, boys. The Democratic members of the House, night before last, decided to continue the House in session until the Senate makes known its intentions.

The yellow fever epidemic at Jacksonville has assumed alarming proportions. Day before yesterday, the number of new cases ran up to 156, with 20 deaths. This makes a total of 1,203 cases and 153 deaths to date.

During the Cleveland administration the government has been conducted on common sense and business principles. More official work has been done for less money than at any former period in the history of the country.

If it be true, as Bolingbroke said, that "a people are judged by the character of those they elect to be their rulers," what would be thought of the refinement and moral elevation of North Carolina should Dockery be elected Governor?

Cleveland's letter may be sifted a thousand times, and every time new jewels will be found. Look at this gem, taken from the casket: "True to the undeviating course of the Democratic party, we will not neglect the interests of labor and our workmen."

When Cleveland shall have been re-elected, and when the obstructive veto power of a Republican Senatorial majority shall no longer exist to paralyze the energies of Democratic administration, then will the country enjoy the fulfillment of the obligations the Democratic party undertook for its nominees in 1884.

Tillman Renominated for Congress, Augusta, Ga., Sept. 19.—Hon. Geo. D. Tillman was renominated for Congress by the Democratic convention of the Second district of South Carolina, to-day, after a two weeks' session and several hundred ballots.

BY TELEGRAPH.

Another Obstacle.

Washington, D. C., Sept. 19.—The Chinese restriction bill seems to have met with another obstacle. Representative Kilgore, acting as chairman of the House committee on the enrolled bills, whose duty it will be to carry the bill to the President, has decided to hold it back as an act of courtesy to the Senate to give an opportunity for action on the resolution of the foreign affairs committee.

He's Now Sick.

Brooklyn, N. Y., Sept. 19.—Congressman Mills, after his address in the Academy of Music last night, became so ill that his friends had to remove him to the Clarendon hotel. He overtaxed his strength and shortly after he arrived at the hotel fainted away. A doctor was summoned and Mr. Mills was finally brought to thro' the physician's efforts. He rallied enough to admit of his removal to New York.—To-day he is reported as much better, but still too indisposed to travel.

Yellow Jack.

New Orleans, September 19.—A Picayune Austin, Texas, special dated September 18, says: "The information sent out yesterday stating that the quarantine against New Orleans has been raised was false, and the Governor says it will not be raised until he is satisfied that no fever exists in New Orleans. It was reported here last night and the evening papers issued extras that four cases of yellow fever had been developed in Galveston. The Governor telegraphed for information and the assistant health officer replied that no yellow fever existed there. Gov. Ross' private secretary has been sent to Galveston to investigate matters. Dr. Rutherford being questioned as to the location of the cases in New Orleans, said they were on Rampart and Tchoupitoulas streets, but he had forgotten the numbers."

Charlotte.

Charlotte, N. C., September 19.—The Southern Plaid-Manufacturers' Association, which has been in session here since yesterday, adjourned to-night. But little business was done, or at least but little that reporters could learn. President E. P. Dicks said to the Dispatch correspondent that much business was transacted of a private nature, and some plans were under way that he did not care to be made public until they were perfected. North Carolina, South Carolina, Georgia, Tennessee, and Mississippi were represented. Outrailing the production one third, as begun last May, will be continued; also the present price of plaids. In an interview to-night President Dicks said: "Some people try to make it appear we are a trust. We are not kind to trusts. We are trying to uphold the price of plaids and prevent the necessity of cutting wages. Our operatives understand our movement, and are in sympathy with us."

Disastrous R. R. Accidents.

Peoria, Ill., September 19.—The Evening Journal's Galesburg, Illinois, special says: At 12:45 this morning occurred a disastrous rear end collision on the Chicago branch of the Chicago, Burlington and Quincy road, near here. The first train from Chicago was run into by the second train from Streator, and the engineer killed. The train from Streator consisted of eight cars and engine 826. The second train was running at from 12 to 15 miles an hour, while the first train was scarcely moving.

The engineer, Case, of the second train, was killed as were also two tramps who were on the Rio Wisconsin train on another track that caught fire from the wreck. Six freight cars were badly wrecked. The blame is attached to the engineer of the Streator train, who died at his post.

Berlin, September 19.—This afternoon a long train bearing recruits, returning from the army maneuvers at Schnitz, collided with a freight train at Meppen. Four soldiers were killed and a number wounded. Twelve of the railway cars were wrecked. The accident was due to the switches being distended.

Yellow Jack's Work.

Washington, D. C., Sept. 19.—In the Senate, today, Mr. Edmunds offered a joint resolution appropriating \$100,000 for the relief of yellow fever sufferers, which, after brief remarks was passed.

Jacksonville, Fla., Sept. 19.—Up to noon today thirty-five new cases and six deaths from yellow fever were reported.

No official reports of new cases were made to the Board of Health, this morning. Three deaths were officially reported up to noon, but one was described as from congestion.

The situation at Gainesville, Fernandina, Starke and St. Augustine is being investigated. It is bitterly denied that there is fever at the three latter places. There is no fever at Ocala. The Ocala rifles, who served in the Fernandina riots, are quarantined near Ocala, and no sickness is reported among them.

A despatch from Gainesville to the Times Union at noon, said: "No new cases. One death occurred Monday. The sick are all getting better. The excitement is subsiding. Two-thirds of the people have left town. They can leave freely via Waverock until Thursday, when the Surgeon General will close that avenue up."

Norfolk, Va., Sept. 19th.—The board of quarantine commissioners have issued an order requiring a clean bill of health from all parties through infected districts.

INSTANTLY KILLED.—Our community was greatly shocked yesterday upon the receipt of telegraphic intelligence bearing the sad news of the tragic death of Captain John L. Holmes, a well-known former resident of Wilmington. He was instantly killed, yesterday morning, by being thrown from a carriage while the horses were running away. The lamentable accident occurred in the western portion of this State while the deceased and others of his family were driving from their summer residence, Macaboy, Polk county, to Saluda. His daughter, Miss Sallie, was in the carriage with him and was slightly hurt, but no one else was injured.

The deceased was aged about 65 years, and up to several years ago was a life long resident of Wilmington, having long occupied a leading position as member of the bar. He, however, removed to Jacksonville, Fla., some eight years since, where he has engaged successfully in the practice of his profession as a lawyer.

Last spring he purchased a summer residence in the mountains of the State, and during the hot season his family resided there. It was near the scene of this home that he lost his life.

The remains will be brought to Wilmington, this evening, and will be interred to-morrow morning.—Wilmington Messenger.

LOG CABINS have become a thing of the past. From them have come great generals, statesmen, lawyers and divines, equals in every way of those who were born in the purple of European courts. No better remedy for purifying the blood was ever made than Warner's Log Cabin Sarsaparilla. Try Warner's "Tippecanoe" to-day.

"TWO SOULS WITH BUT A SINGLE THOUGHT."

"I want to see the day come when placing my right hand on the head of a little white child, and my left hand on the head of a little colored child, I can pass them into Sunday School together."—Oliver H. Dockery, Republican candidate for Governor of N. C.

"Down with the White Man's party." "That the right of suffrage rests on no mere circumstance of race, color, sex or nationality."—7th plank of the National Prohibition platform and slogan of the organ of the Prohibition party in North Carolina.

White or black—it matters not—where do you stand?

A CARD.

Having other business that will largely occupy my attention and probably call me away from the city at intervals during the next year, I have arranged with Mr. A. B. Frey, of Millersburg, Ohio, to take charge of my jewelry store. Although recently from Ohio, Mr. Frey is a Virginian and a gentleman whom I am proud to introduce to my customers. He has a thorough knowledge of the jewelry trade. If you want a new watch, or the time piece you have needs repairing, call and make his acquaintance.

The ladies especially will find him courteous and attentive. He will sell them new goods or repair their broken jewelry at the lowest prices possible for fine quality and superior workmanship. The science of optics is one of Mr. Frey's specialties. A careful study and long experience have made him one of the best practical opticians in the country. If you require an expert to fit you with a pair of spectacles or eye-glasses, don't fail to call and see him, and no matter what the defect of vision may be, if it is possible to receive assistance from the use of glasses, he will supply you with just what is best suited to your eyes. Engraving is another specialty, and in fact for anything you ordinarily require at a jewelry store you cannot go wrong if you call. Very Respectfully, J. NO. J. THORNO N. Greensboro, Sept. 11, 1888.

NEW FALL GOODS.

As the stocks of Spring Goods this season have become exhausted, so much so that it is impossible for customers to get what they want, I have replenished with an Entirely New Stock of Goods, suited to the late Summer and Fall trade. The goods are in the house in shape to furnish all of my trade and the public generally with the very latest styles the market affords. All of the

Newest Designs of Dress Goods,

with Trimmings to match. And can assure all that my

BLACK GOODS DEPARTMENT

is better supplied than ever before with all kinds and prices of Cash meres, silk warp Henrietta Cloths, Jubilee Cloths, Flannels, Black Silks, and a full line of the latest Trimmings to match.

CLOTHING.

The Clothing Department is better supplied than ever before, as I have closed out most of my old stock. The trade compelled me to fill in ahead of the season, so I have now in stock the largest and best selected assortment of Clothing I have ever offered, and at prices lower than ever before. All I ask is a trial before you purchase.

SHOES.

The Shoe Department is now almost complete, and all I have to say is just call in and you will be suited in style and price.

HATS.

If you want a Straw Hat to sport out the season, come in and you can get one very reasonable. I will not say at cost, for you would not believe it, as that is an old song—and not many merchants ever succeeded in selling on such terms. Fur, Wool and stiff Hats to suit every body.

THE CARPET DEPARTMENT

will be complete in a few days, as the order for my fall stock is now in the mills and will be filled in a short time. I can supply the demand with every thing in the line of Carpets, Oil Cloths, Rugs and Curtains. Call and see for yourselves. I have been doing business too long to sing the old song of "Rock Bottom," "Below every one else," "Cost," and many other such straws; but come and see and you will be treated politely and business-like. Respectfully, G. WILL ARMFIELD.
