

The Wilmington Messenger

ESTABLISHED 1867.

WILMINGTON, N. C., THURSDAY OCTOBER 20, 1892.

PRICE FIVE CENTS

TELEGRAPHIC SUMMARY.

Most of the members of the Cabinet and of the Supreme court and many Diplomats left Washington City yesterday for Chicago. Two persons lose their lives in a fire at Englewood, Ill. Street railway mail service has been established in St. Louis. John A. Potter has resigned as general superintendent of the Homestead Steel works. Serious charges are made against Stephen B. Elkins and others in the management of the West Virginia Central railroad. The telegraphers on the Missouri Pacific will announce their ultimatum unless the railroad immediately comes to an understanding with them. The crowd of strangers has already begun to assemble at Chicago. There will be thirty Governors in that city by to-night. The Vesuvius and the Charleston have been ordered to Charleston, S. C., to take part in the Columbian celebration. One hundred and two of the crew and nineteen of the passengers of the wrecked Boxhara are supposed to be drowned. Telephone communication is now opened between Chicago and New York city at \$10.00 a talk. The Governor of Kansas asks for Federal troops to protect Coffeyville from the friends of the Dalton gang. There is likelihood of a big strike on the Mexican Central railroad. There seems to be some doubt as to the day which should be observed as a general holiday. The 21st inst is the day appointed by the President as a day of general holiday in commemoration of the discovery of America by Columbus. The New York clearing house will be closed on the 21st inst. The Minnesota courts decide they have no jurisdiction of the case to compel the Secretary of State to group the electors in a particular way on the tickets. All the telegraph operators along the Santa Fe main line have returned to work, having been convinced that the dispatch ordering them out was a forgery, but the operators on important branch lines refuse to go back to work. This may cause a split in the Order of Telegraphers. The Atlantic and Pacific operators offered to go back to work but the superintendent refused to take them back. The boulder councilman, Frank Tannock, pleads guilty at Toledo, Ohio. It is thought four more will also plead guilty. A spirit of disaffection exists among the men of the Thirteenth Hussars, stationed near Cork in Ireland. A man in New York city died shortly after a "glove fight" from blows received on the head. Gen. Stevenson spoke at Birmingham, Ala., yesterday. Last night he was given a reception by the organized clubs of the working men. He closes his Alabama campaign at Huntsville to-night. Yesterday was the opening day of the State Fair. About 8,000 people were in attendance. The exposition hall is crowded with splendid exhibits. The Wild West show gave a performance in the afternoon. The improved sulky was used for the first time on the track in yesterday's races. On a Government dredge boat on the Tennessee river yesterday seventy-five pounds of dynamite exploded. One man was killed and two others seriously wounded. The Tammany county convention yesterday nominated Thos. F. Gilroy for Mayor and the Republicans nominated Elwin Einstein.

Fearful Dynamite Explosion.

CHATTANOOGA, Oct. 18.—At noon to-day seventy-five pounds of dynamite exploded on a Government dredge boat on the Tennessee river, six miles from here. Charles C. Senno, a laborer, had his head blown off, and Sharp and Thompson, laborers, were seriously injured. The deck was torn off, and the boat sank. The explosives had been placed ready for use with caps and fuses attached and became ignited by a spark from the engine. Thirty men were at work in the immediate vicinity and their escape was marvellous.

Troops Wanted to Protect Coffeyville.

TOPEKA, Kan., October 18.—Governor Humphrey has sent a letter to Major-General Miles, at Chicago, requesting that a company of United States cavalry be sent to the Southern Kansas border for the protection of the citizens from a remnant of the Dalton gang. The application is made on a petition from the Mayor and Council of Coffeyville that rumors are now circulating of another attack on the town by friends of the desperadoes.

Catarrh in the Head.

Is undoubtedly a disease of the blood, and as such only a reliable blood purifier can effect a perfect cure. Hood's Sarsaparilla is the best blood purifier, and it has cured many very severe cases of catarrh. It gives an appetite and builds up the whole system.

HOOD'S PILLS act especially upon the liver rousing it from torpidity to its natural duties, cures constipation and assist digestion.

OUR RALEIGH LETTER.

THE OPENING DAY OF THE CENTENNIAL CELEBRATION.

A Grand Display—Witnessed by Twenty Thousand People—The Parade a Real Success—Distinctive Features of the Floats—The Old Locomotive, the Tornado—Treasurer Main's Condition Still Critical.

MESSENGER BUREAU, RALEIGH, N. C., Oct. 18.

There was nothing here to-day save "Centennial." And such a celebration! It was grand. It was more than the most sanguine believed it would be. It delighted the residents and the visitors felt almost as much pride in it. At the earliest hour after daylight plenty of people were astir. By 9 o'clock the streets were full and the large proportion of visitors began to be noticeable. On Fayetteville street stood thousands of people. The business houses were brilliant with the centennial colors, orange and red, and there were national flags without number. No place was too humble to be decorated. Add to this a sky without a cloud and weather as soft as that in early May, and it will be seen that everything was propitious for success and enjoyment. All business was suspended, public and private, and the one thing thought of was the "best point of view." At 11 o'clock to the minute the trumpeter of Chief Marshal John M. Heck sounded the advance, and along beautiful Fayetteville street the procession moved. The street glowed with color, on each side and overhead. So full of people was it packed that there was just space for the pageant. First rode Chief of police Heart, heading a platoon of police, and then came the chief marshal with a staff of fifty. After these marched the band of the Knights of Pythias. As the chief marshal passed the city hall he and his staff covered the thirteen divisions of the parade followed without a hitch. There was a fine representation of State officers, in carriages, and the public institutions were all represented. The Governor's Guard, headed by the Third regiment band was the special escort to these. The "mounts" of the various staffs were exceptionally fine, and there were over 400 men on horseback representing the leading people here. There were sixty carriages in the second division. In one was the mayor and three ex-mayors of Raleigh. In others were eighty citizens over 65 years of age. Maj. Winder and Mr. Myers, of the Seaboard Air Line, were present as invited guests. As the head of the procession reached the beautiful Capitol square 1,000 white children from the public schools began to sing "The Old North State," and the marshes and the people who were spectators joined in the swelling chorus. Ten thousand copies of Judge Gaston's stirring song had been distributed. The historical floats, "Sir Walter Raleigh" and "Lafayette," have been already described. They were in the third division, as was also the Tornado, the first engine of the Raleigh and Gaston railway. On this engine were Mr. Albert Johnson, the engineer, who brought it into Raleigh in March, 1840, and beside him was Keuben Mays, colored, who was the first fireman. These two, after fifty-two years of service, are still in the company's employ. There was a facsimile of the first freight car used in this road. On it was this inscription: "The first train, received by the Raleigh and Gaston railway, in 1840 was this, the Raleigh and Gaston railroad; may the freight and passengers goes over it in tornadoes, whirlwinds and volcanoes, and may the returns to the stockholders be as frequent, but more lasting than the sparks from the spitfire." These were the names of the four first engines. The firemen's division of the big parade was certainly fine. In ancient costumes were men on a float manipulating the famous old Salem engine of 1794, the oldest in the country. Then came queer old engines and trucks. Lastly came the Raleigh department, with the best apparatus to be had—the pride of the State. The "war boats" in the Fifth division were fine. On the "Confederate" float were the veterans in the old uniforms, all these being inmates of the Soldiers Home. There was a large mounted escort of ex-Confederates. The general design of the floats was fine and showed care. The float of the Agricultural and Mechanical college was one of the best. At least 1,000 persons took part in the procession and the estimate made by people from other cities is that 20,000 people at least saw it. There was no hitch or delay and it moved steadily along, requiring just thirty minutes to pass. It was something over one mile in length. It is safe to say, on the testimony of outsiders, that it was the biggest and best ever seen in this State, and people were frank to say that many places thrice the size of Raleigh had not surpassed it. The closing feature, the "Wild West" show, attracted a great deal of attention, the Indians and cowboys and the real buffaloes delighting the children. The procession made its way to the State fair grounds. R. H. Battle, president of the State Agricultural Society, formally opened the fair. There were 10,000 people on the grounds, this being the largest number on record on the opening day. The exhibit at the fair is considered above the average, and the Wild West show proved very interesting. There were no accidents during the entire day, and not a case of drunkenness or disorder. There was never a more creditable or more enjoyable a celebration.

Altogether it was a day never to be forgotten here. A great many old residents now living in other places, came here to see it and were deeply grati-

RED HOT IN NEBRASKA.

A QUADRANGULAR BATTLE IN GENUINE WESTERN STYLE.

Four Candidates for Governor—Three Sets of Candidates for Congress—A Political Black Crook Who is Too Much for His Competitors—The Third Party Holds the Winning Hand.

(Baltimore Sun.)

OMAHA, Oct. 17.—Four candidates for Governor of Nebraska are making stump speeches daily and nightly. Three sets of candidates for Congress are howling themselves hoarse in constant harangues before audiences, big and little. Legislative and local aspirants are making the welkin ring from almost every spot of ground in the State. The prohibition candidate for Governor is having a quiet time all to himself. The other candidates pay little, if any, attention to him. By the aid of brass bands and vocal music furnished by women's temperance associations he drums up an audience wherever he goes, who look upon his performance as a kind of circus business. But he makes no proselytes, and the other candidates do not think he is in it at all, and never think of including him in their figuring. For all that they might find him a factor whose votes might be necessary to them.

THE TELEGRAPHERS' STRIKE.

The Bogus Dispatch Ordering the Men Out—Some Return to Work—Others Holding Out—Others Refused Their Old Places.

KANSAS CITY, Oct. 18.—A special to the Star from Topeka says: All the operators along the Santa Fe main line are now at work, but the disastrous effects of the bogus dispatch ordering a strike was much more far-reaching in its results. At the general office of the Santa Fe system the latest reports from the Atlantic and Pacific railroads were that 500 operators on that division of the system were still out and refused to return to work. The men here don't understand why this action has been taken and the only explanation offered is that the men, having once quit work, do not like to confess themselves hoaxed, or they do not believe that the ordering them to return to work is genuine. Operators here fear that serious damage has been done their order. Impression prevails that the heads of the Telegraphers' association have been too careless and did not take necessary precautions to prevent mistakes. Unless the Atlantic and Pacific operators return it will probably cause a division in the organization of the Order of Railway Telegraphers. The men here insist that Barker should be prosecuted and their officials say that proceedings can only be instituted through Chief Ramsey, whose name was forged and will let the matter drop as far as they are concerned. With the Gulf, Colorado and Santa Fe and the Atlantic and Pacific operators out and the main line operators standing by the company, Chairman Ramsey will be in a predicament.

ALBUQUERQUE, N. M., Oct. 18.—The Atlantic and Pacific operators offered to go to work last night, but were refused by Superintendent Gobel, who says he can run a month without the operators. All trains are running on time cards. Gobel is supposed to be in communication with headquarters at Chicago and refuses to discuss the matter in any phase.

Street Railway Mail Service.

ST. LOUIS, Oct. 18.—A committee representing the Order of Railway Telegraphers has been in session with G. C. Smith, assistant general manager of the Missouri Pacific railroad, since September 27th. Yesterday the matters in dispute were brought to a close and Smith made his recommendation to go to work last night, but were refused by Superintendent Gobel, who says he can run a month without the operators. All trains are running on time cards. Gobel is supposed to be in communication with headquarters at Chicago and refuses to discuss the matter in any phase.

A Boodler Pleads Guilty.

TOLDO, Ohio, Oct. 18.—Councilman Frank Tannock, the second one of the boodlers, was arraigned for trial this afternoon and entered a plea of guilty, throwing himself on the mercy of the court. This has thrown the remaining five boodlers into consternation, and it is believed that all of them, but one, Manchester, will plead guilty. The indictment against Swain, who turned State's evidence, will be not prosecuted.

Fatal Ending of a Glove Fight.

NEW YORK, Oct. 18.—During a glove fight in the rooms of the P. Garrigan association at No. 266 West Fifth street this morning, William Neary, aged 21 years, of No. 140 West Fifth street, was struck several times on the head and body by William McGarry, of No. 706 Ninth street. Neary died shortly after noon to-day. McGarry was arrested.

The Milburn Gin Works Sold.

MEMPHIS, Tenn., Oct. 18.—The trustees have sold the Milburn Gin Machine company, including the grounds, machinery and buildings, for \$188,000 to satisfy a mortgage to secure the payment of \$147,000 in bonds, the outstanding interest having been defaulted for the past eighteen months. The plant was purchased by J. W. Allison, president of the Tennessee Cotton Seed Oil company.

A Sensible Man.

Would use Kemp's Balsam for the Throat and Lungs. It is curing more cases of Cough, Colds, Asthma, Bronchitis, Croup and all Throat and Lung Troubles, than any other medicine. The proprietor has authorized any druggist to give you a Sample Bottle Free to convince you of the merit of this great remedy. Large bottles 50c and \$1.

THE STATE FAIR.

Eight Thousand People Attend the Opening Exhibition.

RALEIGH, N. C., Oct. 18.—[SPECIAL.] The thirty-second annual State Fair of the North Carolina Agricultural Society opened to-day and was attended by 7,000 or 8,000 people and the centennial anniversary of the incorporation of the city of Raleigh also took place. The city is decorated with bunting and flags and a grand trades display marched through the city and to the fair grounds this morning and the fair is probably the most successful ever held. The large exhibit hall is crowded with fine displays and throngs of people passed through it to-day.

A special feature is the Wild West museum and Indian encampment of Pawnee Bill, which gave a performance to-day showing scenes and incidents as they transpire on the plains of the West. It was a thrilling exhibition of real life and filled the audience with enthusiasm.

The following is the result of the races.

First race—Three-fourths dash, running, dead heat between Lilly and Prince Charles; time 1:25. Accidental was withdrawn and Lilly and Prince Charles divided the purse.

Second race—Fres for all, two mile dash, trotting, Charlie won, Charlie G second, Robert D third; time 5:25.

Third race—2 year olds, mile heats, trotting, Japan won, Maggie Campbell second, Starbelle third; time 2:57.

The improved sulky was used on this track to-day for the first time.

Gen. Stevenson at Birmingham.

BIRMINGHAM, Oct. 18.—General Stevenson's visit to Birmingham was marked by perfect order and great enthusiasm. Several thousand people came from other parts of the county and State, and working men were notably numerous in the crowd that filled the grand stand at the fair grounds. A procession, composed of a dozen local Democratic clubs, county and city officials and prominent visitors, formed at 10 o'clock and escorted the General to the grounds, several miles out. The crowd is estimated at 6,000 or 7,000, all of whom were abundantly fed at the barbecue which followed the speaking.

Gen. Stevenson's speech was largely devoted to the tariff and addressed chiefly to the working men. When he discussed the Force bill as a scheme to turn the election over to officials, not one of whom would be elected by the people, he provoked the greatest demonstration of applause. He contrasted the economy and surplus of Cleveland's administration with the expenditure and empty treasury of the present one and in his tribute to Cleveland, read Chauncey M. Depew's tribute to the ex-President. At this the crowd went wild and the band played Dixie.

Hon. Jas. Ewing followed Gen. Stevenson, and among other things, said he had no doubt the South would come up solid in November.

In the afternoon Gen. Stevenson held a reception at the Caldwell house, attended by many ladies. At night organized labor clubs took charge of him and gave him a reception at Erswell's hall, where over 1,000 wage earners were present. At midnight Gen. Stevenson left for Decatur where he will speak to-morrow. He will close his campaign in Alabama at Huntsville to-morrow night.

Means Civil War in Canada.

TORONTO, Oct. 17.—The World, whose editor and proprietor is W. F. MacLean, M. P., one of the strongest supporters of the Dominion Government, in an editorial published to-day on the annexation movement, says: Annexation cannot ever be without strife. A great majority of Canadians are built that way. They would sooner fight than be part of the United States. Not that they hate the United States, but they much prefer to be Canadians and of the British Empire, or, at least, are not hostile to the mother country, and hostile to that mother country they would have to become if they passed under the Yankee flag.

The United States is full of tall twisters. The Government of the United States goes into the tall twister's main on frequent occasions, and the conspiracy to dismember Ireland from England had its headquarters in the United States. These are hard and undeniable facts. He, therefore, who is Canadian and argues for annexation, is arguing for civil war; he is stirring up civil strife, and just as sure as annexationists persist in their present methods strife will come. When strife, civil strife, breaks out, it breaks out unexpectedly and in unlooked for places, but it will come.

Let these men then understand whether they are drifting. If they are wise they will cease their troubling or they will seek a place of rest under the flag they much beloved. They are free to depart peaceably to join in their much talked of exodus, but if they stop here and continue their treason and their promptings of madmen to do an over act they must take the consequences.

The Court Had no Jurisdiction.

ST. PAUL, Minn., Oct. 18.—In the District court this morning Judge Brill announced his decision in the mandamus proceedings brought by the Democratic State committee to compel Secretary of State Brown to group the electors in a different way from what he had announced. The decision was that the court had no jurisdiction in the case and the case was dismissed.

Life without health is a burden. You should resort to every means to regain your health. Disease is fermentation of the blood and tissues caused by Microbes. Radams Microbe Killer is the only remedy that can be taken a large enough quantity to stop fermentation of the blood. Radams Microbe Killer is entirely harmless—it cures where medical science fails. Fifty page book free, giving history of Microbes and Microbe killer. ROBT. B. BELLAMY, Agt.

WASHINGTON CITY.

FEDERAL OFFICIALS LEAVE FOR THE CHICAGO CELEBRATION.

Members of the Cabinet, and the Supreme Court and Diplomats left Washington City yesterday for Chicago to take part in the Columbian Celebration. The Vesuvius and Charleston ordered to Charleston, S. C.

WASHINGTON, Oct. 18.—The navy will do its part towards celebrating the Columbus anniversary. The vessels of the North Atlantic squadron are at Stratford, Conn., to-day for that purpose. On the 21st the naval forces at the Brooklyn and Norfolk, Va., navy yards will parade, and later, on October 31st, the Vesuvius and Dolphin will be at Charleston, S. C., for the local celebration. As there appears to be a doubt entertained in some quarters as to whether the 21st of October is a general holiday, it may be interesting to recall the fact that the President has already acted officially in the matter, and by proclamation has appointed that date a holiday. The proclamation was issued July 21st last and was probably occasioned from public attention by reason of the rapid succession of important events attending the closing days of the session of Congress, although it was sent out to the country through the medium of the Associated Press at the time. The place where the greatest uncertainty seems to exist upon the question is New York. So far as that State is concerned, Section 24 of the general laws, adopted by the last Legislature, provides that holidays shall be "each day appointed by the President of the United States or by the Governor of this State as a day of general thanksgiving, general fasting and prayer or other general religious observance." As the President's proclamation expressly provided for "general religious observances," there can be no question that Friday, October 21st, is a legal holiday in New York State as elsewhere.

Gen. Weaver Denounced.

PULASKI, Tenn., Oct. 18.—While Gen. Weaver was speaking near Pulaski Saturday the Democrats of Giles county were assembled in the town listening to ringing addresses by staunch advocates of the Democracy. The following resolutions were unanimously passed before the meeting adjourned: Whereas, the People's party Presidential candidate, J. B. Weaver, has made an address to the people here to-day, and whereas, the Democrats of Giles county, believing in the right of free speech, have accorded him a hearing in his own defence concerning the charges of inhumanity, spoliation and brutality, alleged against him while commander of the post here in 1863-4. Nevertheless, he resolved that we do reaffirm and do publish to the world that Jas. B. Weaver, now posing as a friend of the down trodden and oppressed of this land, did while our country was under his dominion as military commander in 1863-4, levy assessments on non-combatant citizens, that he wantonly devastated our country, that he insulted old women and children and that his name is a byword of reproach to our people. That contrasting his conduct with that of our President, Gen. Johnson and others while here we condemn him not as a Union soldier but as a marauder and despoiler of the helpless and as such arraign and indict him before the people of the United States.

A Charge Against Stephen B. Elkins.

BALTIMORE, Oct. 18.—Judge Dennis, in the Circuit court to-day took up the bill for an injunction brought by Alexander Shaw and others against the West Virginia Central Railroad company, seeking to restrain the company from disposing of the permanent lease it has on the Piedmont and Cumberland railroad. Alexander Shaw, plaintiff in the case, is the owner of about one-fifth of the stock of the West Virginia Central and Pittsburgh Railway Company. He states that he has been systematically robbed during a series of years by Stephen B. Elkins, Henry G. Davis and Thomas B. Davis, who own a majority of the company's stock and manage its affairs.

How a Boy Made Money.

I notice what Mr. Wilson's son said about making money selling a corn husker. I would like to tell him how I made money with a plating machine. H. F. Deino & Co., Columbus, Ohio, sent me a fine machine for plating with gold, silver and nickel, for \$5, all ready to commence work. I made \$3.10 the first day, plating tableware and jewelry, \$25 the first week. Anybody can make money in the plating business, because at every house they have some things to plate, and everybody is willing to help a boy along. You can plate right before the folks, and they like to see it too. I sold three platters to three friends of mine at a profit of \$5 a piece, that was \$15. I would advise any boy who wants to get along in life to start to commence with the plating business. He can make money and help his folks at home along a little too.

ED. BUTLER.

NEW YORK, Oct. 18.—The Republican county convention to-night made the following nominations: For Mayor, Edward Einstein; President of the Board of Aldermen, C. Volney King; Register, Hugh Coleman; Judge of the Court of Common Pleas, Leonard A. Glegrich; County Clerk, Henry C. Betty.
