SENATE.

Washington, Feb. 26.-The necessity or the anxiety of the Democratic Senators to arrive at some definite agreement on the subject of the Tariff bill led to an early adjournment of the Senate to-day-the remainder of the afternoon being spent in a Democratic caucus as a portion of the forenoon had been. During the forty minutes that the public session lasted there was presented, in compliance with a resolution adopted last week, a copy of the correspondence between the Treasury Department and the Department of Justice as to whether silver certificates issued under the Bland-Allison act of February 28, 1878, are "lawful money" under certain statutes. The opinion of the Department of Justice as given to the Treasury Department is that these silver certificates "are just what they purport to be," that they are only lawful money to the extent that they are received for customs, taxes and other public dues, and that they are not lawful money within the mean-

ing of the statutes cited. The opinions of the Commissioner on Foreign Relations in regard to the Hawaiian questions were presented by the chairman, Senator Morgan. The Senate at 11:15 o'clock adjourned.

In his prayer this morning Chaplain Bagby referred to the illness of Representative Wilson, of West Virginia, and asked that he might be restored to health.

Mr. Pence made a personal explanation regarding the colloquy between himself and Mr. Hainer yesterday. Mr. Pence said further that he was charge made by another gentleman. Other previous remarks he had made in vesterday's debate might have been obnoxious for personal allusions contained in them. Being informed by taking occasion, he said, to respond to the friends of experience that this was the right and proper thing to do, he made the explanation and apologized to Mr. Hainer and to the House gladly. ings were dispensed with. Mr. Bland changed the form of his motion then, withdrawing the limitation of debate. Whereupon, objection to taking up the bill disappeared, and Mr. Hatch took the chair over the Com-

mittee of the Whole. Mr. Bowers, Republican of California, was the first speaker. He declared himelf to be in favor of the free coinage of silver, because three fourths of the people for the Seventh California district

wanted it. Mr. Allen, Democrat, of Mississippi after a humorous introduction, pleading for his remarks the consideration due to the atterances of an ex-candidate for the United States Senate, said there seemed to be an irreconcilable conflict between the capitalists and the interests of the masses of the people of this country. It had been common for Representatives of the capitalistic class to refer to those who were in favor of this bill, as demagogues. If it be demagogy for a man on this floor, to be earnestly in favor of those measures which he believes to be for the best interests of the people he

represents, and in accordance with their desires, then I plead guilty to demagogy and prefer to be a demagogue rather than something else considered to be the contrary. Now I am not in favor of scaring capital or any one else, but if the House is to be prevented from exercising its constitutional functions of outlining a financial policy for the Government by the threat that somebody is going to get scared, the sooner we declare the clearing house committee of New York the only source of financial legislation in this country the better.

Mr. Cannon, Republican, of Illinois, said he believed that silver would in the future, as it had been in the past, be one of the money metals of the world.
