SENATOR MORGAN

IS RENOMINATED BY THE DEMOCRATIC CAUCUS.

His Address to the Caucus, Advocating Harmony-No Attention Paid the Manifesto of B. F. Kolb, Issued for Political Fflect Abroad - His Vaporing Interview in His Organ as to His Intentions.

MONTGOMERY, Ala, Nov. 20.-Senator Morgan was nominated for re-election as Senator to-night by a joint caucus of the Demothe testimony of the main witness for the cratic members of the Legislature. After the nomination the Senator spoke for an sattacked on the ground of the infidelity hour and reviewed the course of the Demoof the witness-Paul Conrad president of cratic party, counseling harmony in the party ranks and assuring them that the result would be all right in 1896. He reiterated his views as to the free coinage of silquestion were well known.

The manifesto issued yesterday by R. F. Kolb, stating that he had been elected Governor and would take his seat on December 1st, fell still-born here. No one has been heard to discuss it on the streets or pay by a train at a railway crossing in the least attention to it. The Advertiser Germantown, Pa- Several New York printed this morning an interview with officers are arraigned on indictments | Taubeneck, in which he claimed that it was the understanding of the People's party that Morgan was to come to Alabama and stump the State in the interest of free silver and in opposition to Qates, but after making three speeches he changed his mind and worked

BIRMINGHAM, Ala., Nov. 20 -The general oublic here seems to attach but little importance to the proclamation of Kolb. They anticipate no rouble whatever, and believe his manifesto is simply for political effect

Kolb was interviewed by his own paper, the Tribune, to-day, and the following is the substance of his remarks:

"I propose to offer the people the opportunity to stop the Jones kind of Govern-We wanted a contest law. We asked it of the last Legislature, but in apparent defiance of us, it repealed the sec- forth that the charges against Libers were tions of the Code of 1886, which made some step toward granting a contest in elections of State officers and put nothing in the place of those sections covering our demand. No man who knows the feeling of the present Legislature believes for a moment that it will do anything to allow an orderly and full contest of the election of Oates, as the constitution requires it to do. The most sacred rights of the people have been outraged and all that Jones means is if they do anything to right themselves he will shoot them to death.

"I know the people better than he does and I know what their feelings are and what their determination is. They have been cut down to the last point of endurance. They don't want any advice from me, or from anybody else. No, they know Tom Jones and they remember all they have borne from him and they see clearly that the only hope of free elections and liberty in Alabama is in themselves. They are not revolutionists. They are brave men, who have children to feed and clothe, and provide a future for.'

A Train Robber Gets a Long Term. JEFFERSON CITY, Mo., Nov. 20.-The

Supreme court this morning sentenced Marion Hedgepeth to twenty-five years' imprisonment in the penitentiary, and the Supreme court marshal will probably bring him to the prison to morrow.

In the spring of 1892 he, with several other parties, robbed a San Francisco express car in St. Louis county of nearly \$17,-000 and about \$3,000 worth of valuables. Only a small portion of the plunder has eyer been recovered, although numerous efforts have been made to effect some sort of a compromise with Hedgepeth. Hedgepeth is said to have been involved in the life insurance swindles developed at Philadelphia upon the Fidelity Mutual Life association by the ubiquitous H. H. Holmes. Holmes is being claimed as a criminal in nearly every State in the North, and one of the stories published is that Holmes' plan of purchasing a body and palming it off as the corpse of a well-insured man was originally suggested by Hedgepeth who was cheated out of his share of the

Property Greater Than First Supposed - The Disturbances in the Volcano of Strombold.

ROME, Nov. 20 .- The earthquake shocks continue at Milazzo, on the north coast of the Island of Sicily and the fact that the volcano of Strombold is nearly in a state of eruption is accepted as proof that the disturbances are of volcanic origin. The inhabitants of Milazzo continue in a state of the greatest terror. They are living in huts hastily erected in the fields. Elsewhere the feeling of alarm is subsiding and business is resuming its normal course.

At Palmi six persons were killed and over 300 were injured.

The communes of Delianova and Polistena suffered equally, but no deaths are reported. Eight person shed at Seminara and 200 people were stones and mortuary chapels in the cemetery of Seminara were completely shattered. The villages of Barapoeri and Santa were destroyed.

In Reggio itself, the postoffice, prefecture, town hall, court house and prison were almost wrecked. Cases were heard to-day in the open yard attached to the court house and the prisoners were placed on board ships

The Lexow Investigation Rearing Fruit.

NEW YORK, Nov. 20 .- Ex-Police Sergeant Geo. C. Libers was arraigned before Judge Ingraham in the Court of Oyer and Ter miner this morning, on charges of bribery in seven different cases. Lawyer Jenks, his counsel, presented a demurrer, setting not crimes in the meaning of the State statutes. The demurrer was overruled and Libers pleaded not guilty.

Police Detective Sergeant Wm. Frinck, who was indicted by the grand jury last Friday, dehyered himself up to the district attorney this morning. He is charged with bribery. The testimony against him was secured through the evidence brought out before the Lexow committee in connection with the illegal practices of Dr. Whitehead Frinck is accused of having accepted \$500 from Dr. Whitehead in consideration of allowing the doctor to escape the legal consequence of his acts.

Shortly after the arrest of Frinck, Sergeant O'Toole was brought in on the same charge preferred on the strength of the same evidence. He is alleged to have taken \$200 from Dr. Whitehead. Both prisoners were taken before Judge Fitzgerald and held in \$5,000 bail.

Tom Watson Accepts Congressman Black's Proposition.

ATLANTA, Ga., Nov. 20 .- Tom Watson, the Populist candidate from the Tenth Geor gia district, has accepted Representative J. . C. War Between Mexico and Guatemala

Threatening. OAXACA, Mex., Nov. 20.—The situation on the Guatemalan and Mexican borders is very threatening and it is believed the Guatemalan troops are preparing to make an aggressive movement against Mexico within the next few days, as the different regiments are being drawn together. A feeling of great apprehension exists among the people of the States of Tabasco, Chiapas and Oaxaca, which are situated on the border, over the threatened invasion, and many settlers are leaving the turbulent section, pending a settlement of the difficulty.

Republicans Checkmated. LINCOLN, Neb., Nov. 20. -The Populist State Central committeemen sprung a surprise on their Republican brethren yesterday when they announced that in the event of the Republicans contesting the election conclusion, the Ministry gave the matter of Judge Holcomb as Governor, they would retaliate by contesting the election of every Republican candidate. At Independence headquarters yesterday evening Congressman Bryan, ex-Attorney General Leese and Judge Brady were preparing papers with this object in view. The election of the rest of the Republican State ticket aside from Majors has not, heretofore, been questioned.

A Condemned Murderer Dies of Starvation.

PENSACOLA, Fla., Nov. 20 .- Thomas Trainor, the convicted murderer of his divorced wife and her husband, died in the county jail in this city last night of staryation. Trainor was tried and convicted at the fall term of the court of murder in the first degree, and was waiting for the sentence of death to be passed when his death occurred. For several weeks he has refused all food sixty-eight pounds.

CLAIMING PAYMENT.

REMARKABLE DEMANDS OF WESTERN RAILROADS.

Expenses of Keeping up Our Cruisers -The Bond Issue to be a Great Success-Withdrawals of Gold for Bond Purchases-Slight Accident to the President - No Cabinet Meeting in Consequence.

WASHINGTON, Nov. 20 .- During the recent strikes many railroads applied to the Government for protection and troops were placed on trains and along the disturbed portions of their routes. Now the companies who availed themselve of the troops filing bills with the War Department for the transportation of the soldiers, whose chief duty was to keep their lines open and guard their property. Nothing, it is asserted, was the time they were asked for, and it was supposed that the roads would transport them free of cost, as their services were chiefly needed to protect the interest of the roads. This, however, is not the case, and railroad companies now want pay for carrying the men who protected their property. The War Department opposes the payment of the charges and it is likely will contest the claims in the courts. The department, it is said, will raise the point that as the railroads sought protection of the troops, they have no right to regard them as ordinary passengers.

The Machias sailed from New York this morning under orders to join the Asiatic quadron. She will stop at the Azores,

Abraltar, Suez, Colombo and Singapore. The report of Paymaster General Edwin Stewart, of the navy, for the past fiscal year is a document of considerable interest. It presents a complete exhibit of the financial fairs of the department. Among other items, it is shown that during the period covered by the report the cost of the United States cruiser Chicago (2d rater) was \$310, 613: the United States cruiser Yorktown (3d rater), \$169,907, and the United States steamship Petrel (4th rater), \$103,502. These figures afford an approximate idea of the cost of maintaining vessels of the different classes. The cost of the New York navy yard was \$54,341. This includes only the cost of officers and clerks and of labor and material applied to the erection, repair, care and preservation of the wharfs, buildings

The regular Cabinet meeting did not take place, owing to the absence of the President. When returning to his home at Woodle last evening from a walk, he trod on a small round stone, which rolled away, causing a sprain of one andle. The sprain is slight but because it was sustained by a foot which had been afflicted by gout, it was so painful the walking was not easy. Mrs. Uleveland drove in this morning and informed the members of the Cabinet. The President is getting along nicely, but walking is still

painful, and he would not make the trip. The indications are that the present Government loan of \$50,000,000 will not only prove a complete success, but that the aggregate of the bids will be far in excess of the amount of the bonds to be sold. As fast as received the bids are immediately placed, un-opened, in the treasury vaults, so that it is impossible to know, in advance of the general opening or next Saturday at noon, the names of the bidders, the amounts bid for, or the prices offered. The number of envelopes bearing the legend "Proposals for ing received at the treasury, is far in excess of the number received for the February issue, and the number of requests for blank

The amount of gold withdrawn to-day from the sub-treasury at New York in exchange for currency, presumably for the purchase of bonds, was \$1,600,000, of which \$900,000 was taken by the Central National bank, \$300,000 by Watson Bros., and \$400,-000 by the National Bank of the Republic on account of customers. The work of getting out the new issue is progressing rapidly. The bureau of printing and engraving is sending over an invoice of new prints each day and it is now expected that everything will be in readiness when the time for opening the bids arrives.

Sun's Cotton Review.

NEW YORK, Nov. 20 .- The Sun's cotton review says: Cotton declined 3 points, but recovered this and advanced 5 to 7 points, closing very steady. Sales were 134,100 bales, New Orleans declined 5 points and then recovered this and advanced 4 to 5 points. Spot cotton here was quiet and unchanged. Sales were 71 bales for spinning. Liverpool declined 2 to 3 points and then rallied and closed quiet and steady at a net decline for the day of 2 points. Spot sales were 10,000 bales at unchanged prices. In Manchester yarns were steady, cloths quiet. Port receipts were 69,653 bales, against 61,-060 this day last week and 53,348 last year. New Orleans receipts 'to-morrow were estimated at 16,000 to 18,000 bales, against 20,891 on the same day last week, and 13,774 last year. Thus far this week the receipts are 181,370 bales against 195,749 thus far last week. The market showed so much stubborness in the teeth of bearish news that the bears became alarmed and covered in some cases this afternoon. Stocks and Bonds in New York-The Grain and Provision Markets of Chicago.

New Yory, Nov. 20.-The opening of the

stock market was attended with firmness, higher cables from London as well as a brisk inquiry from local shorts having brought about a gain in the leading shares equal to 1 to 11 per cent. Lackawanna, Southern railway preferred, Manhattan, the Industrials and the Grangers were most prominent in the improvement. Shortly after the first hour, however, the demand for the shorts for covering purposes ceased. and the postponement in the action of the Burlington and Quincy dividend induced some of the room traders to put out fresh lines in the Grangers. There was, however, no special activity in the market until the last hour, when a raid was made on the Grangers, the result of an interview with President Cable of the Rock Island, in which he says, among other things, that the next four or five months are almost certain to be lean ones for the Western roads. Another story that hurt the market at this time was to the effect that the Chicago and Northwestern directors at their said about charging for carrying troops at meeting on November 27th next will reduce their dividend rate. Nothing official could be obtained. The heaviness of the Grangers in the last hour led to selling of the general list and for a time the whole market sagged American Sugar, however, was the first to recover and sold up to 90, after declining from 891, against 901 earlier in the day The support accorded this stock was much commented upon to-day and it was hard to trace the source of the orders. Some had it that a pool had been formed on Washington rumors that there would be no legislation this session.

trade circles, however, it is contended that the absence of business is the main source of the troubles and until the demand quickens, a bull campaign cannot be suc cessful carried through. Chicago Gas rallied to 74½ and receded to 73½ to 73½. At one time the stock commanded a slight premium for use Owing to the rally in Sugar, the market left off steadier in tone. Net changes show losses of 1 to 11 per cent, North Western leading. Louisville and Nashville Manhattan, New England, Western Union, Southern railway preferred and Sugar gained & to ? per cent. on the day. Railway bonds were quiet and lower. Sales of listed stocks aggregated 111,000 shares; unlisted.

CHICAGO, Nov. 20 .- Holders of wheat had less courage to-day even than yesterday. The shorts, with recollections of last week's strength, were timid and not disposed to press offerings yery hard. This uncertainty on both sides resulted in inactivity and comparative quiet The odds, however, were in favor of lower prices, and a net loss of &c for the day was made. Cash wheat was weak and &c lower.

Corn was dull and easy during most of the session, but late in the day an early loss was recovered, the slight improvement in wheat being of a beneficial effect sympathetically. Cash corn was weak; No. 3 was a full cent lower and other grades showed a loss of from 1 to 1c.

Oats were steady even when the other cereals displayed weakness. The reason for the independence was not quite clear, many believing that the oatmeal trust had some part in it. Offerings were light and trade unimportant. Cash cats were from steady to to lower.

There was more product for sale to-day than there was demand to absorb it. The preference for the selling side was ascribed to a lower hog market and to the sinking proclivity of grain. Business was of a much less important character than in the immediate past, with outsiders evidently holding aloof. The close was 271c lower than yes terday for January pork and 121 to 15c each for January lard and ribs.

More Victims to Surface Railway Crossings,

PHILADELPHIA, Noy. 20 .- A southbound accommodation train on the Chestnut Hill branch of the Philadelphia and Reading railroad ran into a two horse carriage containing John Horace Meacham, aged 70 years, his wife and Mrs Harriet Smyth, at 10:30 o'clock this morning at the East Washington lane crossing in Germantown. Mr. Meacham was killed, as was also Patrick Lacy, aged 57 years, the watchman at the crossing, who had seized the horses' heads and endeavored to back them from the track. Mrs. Meacham received a fractured skull and died shortly afterward in the Germantown hospital. Mrs. Smyth was slightly injured. Both horses were killed outright and the vehicle was smashed to pieces. It is supposed that Mr. Meacham, who was driving the team did not hear the approaching train and was not aware of the danger until he had driven upon the track. Engineer Morris Lacy states that he did not see the team until within two car lengths of the crossing. He then saw the horses on the track with the watchman at their head endeavoring to back them. The engineer blew the whistle and reversed the locomotive but the collision could not be averted, and the watchman and the team were struck and hurled some distance away. Mr. Meacham vas a retired business man and lived in the vicinity. The watchman had been in the employ of the company about twenty years and he was killed within a few feet of his

MEMPHIS, Tenn., Nov. 20.-The question of the inability of Butch McCarver, the chief witness for the prosecution in the lynching case, was discussed in the criminal court to-day. McCarver was brought out of jail porting the cotton, and the further fact that and re-examined, but he persisted in all his it took more cotton than formerly to pay statements of yesterday. Dr. L. S. He said he had tried to raise his boy properly, but admitted that it was a failure. If McCarver is declared to be incompetent the case will fall through, as the entire theory of the prosecution is based on his confession of the invition he had from Smith and others to join the party of lynchers. Further arguments on the admissibility of the witness' testimony were heard this afternoon.

> cation. MESSENGER BUREAU.

RALEIGH, N. C., Nov. 20. Ex-Congressman J.M. Brower is an avowed candidate for the United States Senate. It is mighty easy to be a candidate, but mighty hard to get the place. There are now ten candidates who have come out of the woods to show themselves, and no doubt others are concealed in the shrubbery. These are Republicans. Only one Populist, other that Mr. Marion Butler is named, this being Mr. William A. Guthrie:

Governor Carr appoints Dr. W. P. Bell, of Greensboro, a member of the State board of health, vice Dr. H. T. Bahnson, of Salem, resigned.

Howard Alston, of Halifax county, is appointed a notary public.

The sheriff of Hyde county to-day brought a convict to the penitentiary, to serve ten years for larceny.

On the Supreme court bench, in front of Chief Justice Shepherd, this morning, there was a vase of superb chrysanthenums, bearing the card of a lady, with this quotation: riz, Causa Deis Placuit, Sed Victa

It will be but a little while before the familiar face of the chief justice will be missed from the bench.

In front of the headquarters of Mr. Otho Wilson, the People's party agitator, is a card with the words "People's Party Headquarters." In this county Wilson did a great deal of hard work for fusion. If he heard that one of the Populists was weakening he hurried to him and sought to revive his faith. Few people know this man's energy or how great an agitator he is.

This evening the referees on the part of the city and the contractor who made alterations and improvements of the market house, met with their arbitrator to see what could be done in the way of settlement. Ever since August 20th the city has been without a market. There is a great deal of feeling in regard to the matter.

This morning the three negro robbers who gave their names as Burston, Carlisle and Garver, were taken to Jackson, Northampton county, to be placed in jail. The evidence of their robberies at Seaboard and Garysburg is direct, stolen clothing having been found on their persons. The evidence against them here was not very direct, save

n the case of one. Within two weeks work on the new roller flouring mill here will begin. There has

been some months delay. Great numbers of patridges are brought in here and sold. Wagons from Chatham county are begining to bring rabbits. The sales of rabbits here are very large, and, strange to say, Chatham furnishes almost the entire supply. The rabbit is sometimes called the "sand horse," though how this name originated it would be hard to say.

The revival at the Baptist tabernacle here, conducted by the Rev. Mr. Adams of Reids.

ville, ended this evening. The theological dispute over the doctrinef "sanctification" continues. One Metho dist preacher declares his belief in "instantaneous sanctification" and says he was sanctified two years ago. Another Methodist pastor declares that the profession of sanctification is the best evidence one is not sanctified. Doctors differ-theologically as well as medically.

The Burial of Dr. McCosh.

PRINCETON, N. Y., Nov. 20 -The body of Dr. McCosh was laid to rest in the Princeton cemetery this afternoon with simple but impressive ceremonies. The under graduate body of the students, numbering more than 1,000, marched to the McCosh residence and escorted the hearse to the Marquand chapel. The trustees and faculties of the college and seminary, attired in academic dress entered the chapel immediately before the coffin-

President Patton opened the service withshort prayer, which was followed by a hymn and reading of scripture. Dean Murray followed with a eulogy of the Christian character of the ex-president. Dr. Henry Van Dyke, of New York, delivered an ad dress sketching the life of Dr. McCosh. The Rev. Dr. John Hall offered prayer, after which a quartette of the University Gleeclub sang. Professer Duffield pronounced the benediction.

At the grave President Patton offered prayer and the Rev. H. G. Hinsdale pronounced the benediction. The body was then lowered in a crypt in the presidents

Fatal Explosion in a Mine. STEUBENVILLE, Ohio, Nov. 20 -Ah explo-

sion occurred at noon to-day in the Blancha coal works, near Colliers, W. Va. Eighteen men were at work in the mine and it is not thought any of them escaped either death or injury. Seven dead bodies had been taken out up to 3 o'clock this afternoon. John Donnelly, of Steubenville, and a man named Welch have been identified. Donnelly was blown out of the mine by the force of the explosion. This mine blew up several years ago and a large number were killed. The balance of the miners are probably suffocated to death, The coroner of Brooke county went to the scene of the disaster this afternoon.

A Daughter of the Vice President Critically III.

ASHEVILLE, N. C., Nov. 20 .- Miss Mary L. Stevenson, daughter of Vice President Stevenson, contracted pneumonia on the New England coast last summer and has never fully recovered therefrom. She came here very ill and her condition is serious, if not critical. One of Miss Stevenson's sisters arrived here Monday and another is expected to-day. The Vice President is here with his wife and everything possible is being done for the suffering invalid.
