## THE SEMI WEEKLY MESSENGER, ' FRIDAY, APRIL 8, 1898.

# The Messenger.

#### PUTTING ON WAR PAINT.

It really looks as if the fierce dog of war were about to be unleashed. The heavens are now deeply wan as if already "wrapped in drifts of lurid smoke." The American people are indeed profoundly moved. And from all parts of the country, unless New England goes as it did in 1812-'14, "war, war is still the cry, war even to the knife." While millions of Americans do not desire war but greatly prefer peace on honorable terms, they do not favor a surrender, a backdown now just as the insolence of Spain becomes more intense and its braggadocio more virulent. Probably McKinley's backbone has been sufficiently plastered and strengthened by the voice of the country and the demands of half of his party in the house, to do what is proper and patriotic and brave now. If he indeed favors Cuban independence and intervention at last, and even goes so far as to hold Spain responsible for the Maine disaster, a position we do not now believe he will assume without some provision, some loophole of escape, it will cure the suspense and then the fight for peace, independence and liberty will have began. Once begun it will be pushed with intense vigor and immense activity and pluck.

The report as to the readiness of the queen regent and the little heir to the throne to flee from Madrid means probably that a home in France will be safer for them in view of a possible revolution in Spain and overthrow of the present government. The other report, several times repeated last week, that Spain had sought and still seeks mediation is a sign of annew department, that of pharmacy, has been added, which enrolls 17 students the first year."

It is to be hoped that the United States government will take immediate steps to afford protection to Beaufort and Morehead in this Stste. Prior to the war Fort Macon, of the old style, stood ready to be used if dangers threatened. The war department should at once put defences at the entrance to these towns that will give the Spanish ships trouble if they do not keep them away entirely. It will be very neglectful and unmerciful indeed to leave the inhabitants of those towns and the people living on water courses adjacent, without the best available protection. While North Carolina militia are to be called out at the sound of the first tocksin, and her steamers are to be used for war purposes, let the federal authorities not overlook the present defenselessness of the towns indicated.

#### BREVITIES

Late London papers are of the opinion that Spain has waited long for peace--has lost her opportunity to settle the dispute with the United States amicably.

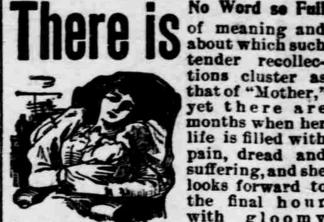

Diplomacy is at an end; will mediation of the European powers come? If so it must come quickly or it will come in vain.

Senator McMillan merely voices what everybody understands, that Mc-Kinley's delay from time to time as a dodge to get the country ready for the final appeal. He says:

"The president is flat-footed on the proposition that Spain must move out bodily.

"He also knows absolutely that Spain cannot or at least will not concent to this complete abandonment. That means war."

The state guard of Pennsylvania and

of meaning and about which such ender recollections cluster as that of "Mother," yet there are months when her life is filled with pain, dread and suffering, and she looks forward to the final hour with gloomy forebodings, fear and trembling.

"Mother's Friend

prepares the system for the change taking place, assists Nature to make child-birth easy, and leaves her in a condition more favorable to speedy recovery. It greatly diminishes the danger to life of both mother and child. Sent by Mail, on receipt of price, \$1.00. Book to "Expectant Mothers" free upon application. The Bradfield Regulator Co., Atlanta, Ga. SOLD BY ALL DRUGGISTS.

began in 1883, with a capital stock of 50,000, and today is capitalized at \$2,000,000, of which \$1,000,000 is in preferred stock, which pays 5 per cent semi-annually, and \$1,000,000 is in common stock, which pays 4 per cent. semi-annually.

One of the abuses in our country is the senseless hostility displayed by demagogues and unreflecting people to corporations generally. These "institutions" are assailed mercilessly as if a cotton factory, or a bank, or a railroad, were necessarily a public enemy, and should be warred upon as a sacred duty by every patriot, and particularly by all who never expect to have money enough to invest in any enterprise requiring capital and of the courts, and the great, fundamental public utility. There are 2,400,000 persons who live off the railroads in the United States, and are to a very great extent dependent upon them for daily bread and comforts. The actual employes are put at 800,000. Mr. St. John,

They will not rise above themselvesabove their own standard in selection in all probability. Only really worthy men, who can be trusted to do right and be honest and faithful. should be named for any office. When ever venal, vicious men are forced upon the party it is the duty of the upright, self-respecting democrats to refuse to vote for such fellows "of the baser sort.' No good and true man ought to vote knowingly for a rascal or for a man of doubtful record. Dare to do right when you vote. Think of North Carolina's fate and your own welfare and conscience.

#### "THE COUNTRY EDITOR."

A competent editor of a country newspaper is able to render important service to his patrons and the community in which he labors and in the section in which his paper circulates. If he is a man of intelligence, a man of personal integrity, of good morals and a friend to truth, he can be an educator, a benefactor, a true friend of the people. He can aid in all deserving enterprises, expose all crying abuses, uphold morality and religion, stand forth as the champion of education, in a score of ways help on good government, justice between man and man, and help to develop a better system of farming. In fact a faithful, well equipped country editor is a public blessing. He is to be relied upon always to favor and defend the rule of virtue, the conservation of the public peace, the maintenance of upright government, the purity and fidelity of invincible principles of civil and religious liberty, the freedom of the press, the right to think and to print. We have been led to indulge this brief train of reflection by a simple head line in the Annapolis (Mo.) Gazette-

redness or eczema. P. P. P. is a sovereign specific for all forms of Blood Poison, Rheumatism, Catarrh and Dyspepsia. Georgia M. Bloom, Macon, Gs., writes: "I had a tired feeling and was run down. I got a bettle of P. P. P. and it cured me in a week's time. Before that I could not eat anything. Now l'eat at every meal."

xiety and even weakness in spite of New Jersey is reported ready for acnewspaper bluster and "fool talk" by individual Spaniards.

The calling out of the state guard in all the states will occur at once if war is declared. That body numbers over 100,000. The United States have over 130,000 infantry and artillery to begin the racket with. If volunteers were called for from all the states, and the number fixed at half a million it would very soon be met. Once arouse the American war spirit fully and let this country realize that the eyes of the world are upon it, and great deeds and a magnificent display of patriotic enthusiasm and devotion is expected and its soldiers will pour forth from every city and town and village and hamlet, and from tens of thousands of homes in the country. They will come from the mountains and glens, from the hills and the vales-

"They will come as the winds come when forests are rended; They will come as the waves come when navies are stranded."

And yet millions of these patriots and country. loving peace and hating war, will sigh for peace, and tens of thousands of sis as well as Spain's. What will he prayers ascend daily to God, the Al- do with it? mighty Ruler of the armies of Heaven and the armies of earth, that the cries in the night for peace, and says dreadful, most stern arbitrament may there must be no war. It is understood be mercifully averted. These are the that the Boss is in the mighty meshes men who will do the best fighting of Wall street peace-makers. What when the fiery trial visits this coun-Ery.

The lie sent out about Spanish crucity to American seamen was a cruel, senseless joke for the 1st of April. The "fool" in that instance was the stupid fellow who fabulates the false- sum. With 996,000 blood suckers on bood.

#### HOME FOLKS.

Asheville may well expect two very tine addresses at the unveiling of the monument erected in memory of the great senator, Zebulon Baird Vance, the most popular man ever born within the boundaries of North Carolina cotton for some time as they were and certainly one of the truest, most many-sided and ablest. Senator John mills have realized profits, and in

tion. Miles says the United States army is ready. Of course. Is Miles ready also? Is his new uniform of Eu-

ropean cut ready and are his mustachios waxed and twisted? Northern Methodists now have dea-

conesses and they are licensed like the preachers are. Next.

The able New York Times in its issue of Saturday says that the "testimony against Spain" as to the destruction of the Maine "is simply overwheming." Of course it is, and Spain knows it, but plays a set-off, a sort of bluff game.

The Baltimore Manufacturers' Record dared to censure the course of the New York Evening Post in its intense opposition to war with Spain. One John M. Grath, of New York, in sympathy with the Post, writes to The Record that "it ought to be burned." That fate ought to be reserve for traitors. Grath thinks this country is as bad as Spain and has an antodafe ready for those who dare to think for themselves and are faithful to home

It is now President McKinley's cri-

Boss Hanna with infintile innocency will Major Mc. do with Hanna?

It is admitted by many republicans of the Dingley following that even if no war comes there will be a currency defici ncy of full \$25,000,000. It will no doubt be even larger than that the pension roll thirty-three years after peace a deficiency may be long expected. It takes nearly \$150,000,000 to fill the prodigious pension maw.

#### EDITORIAL ENTRIES

It is a fact that although times have not been favorable to large profits in some years ago, that most southern W. Daniel, of Virginia, and Colonel some instances very satisfactory prof-Alfred M. Waddell, of Wilmington, its. In the South Carolina cotton mills

vice president of the Seaboard Air Line, in opposing a reduction of passenger rates lately, said:

"Let us deal fairly with this great interest and see to it that it is not only permitted to exist, but to earn from just and reasonable rates sufficient to meet not only its operating expenses and taxes, but to have something over to meet its physical necessities and to pay that debt which it justly owes to its bond and stockholders, viz., the interest upon its bonds, coupled with a reasonable dividend upon its stock: and right here let me say that the railroads comprising this line have no bonds or stock which does not represent actual cash expenditures."

#### How to Look Good

Good looks are really more than skin deep, depending entirely on a healthy condition of all the vital organs. If the liver be inactive, you have a bilious look; if your stomach be disordered, you have a dyspeptic look; if your kidneys be affected, you have a pinched look. Secure your good health, and you will surely have good looks. "Electric Bitters" is a good Alterative and Tonic. Acts directly on the stomach, liver and kidneys. Purifies the blood, cures pimples, blotches and boils, and gives a good complexion. Every bottle guaranteed. Sold at R. R. Bellamy's drug store. W sents per bottle.

#### **GRANDJURIES AND WORTHY** CANDIDATES.

The Messenger many times has essayed to expose the insufficiency of jury trials in the south as now conducted. There is too much of race prejudice and antagonism in it, as gotten." well as race ignorance and incompetency, to obtain uniform justice and vindication. The grand juries also need overhauling. Not all, for some are good, faithful and efficient. But in the newspapers we meet with complaints and exposures of the inefficiency of these juries, and that it is simply impossible for some forms of viciousness and depravity to be brought to justice. The Richmond (Va.) Central Presbyterian lately had a timely editorial upon "Grand Juries" in which were discussed properly as "the fountain head of our government." Let this fountain be impure, corrupt, and let its stream of duty and fidelity become turbid and weak, You people up here are feeling secure and cease at last to flow, and a great evil befalls a state. A gentleman liv- it will be a hot time for the seaport ing at Darien, Georgia, Mr. Joseph A. towns of Florida when the Vizcaya, the

"The Country Editor." Now we turn to read what followed, and will copy the main part if not all, if it strikes us as good, as impressive, as supplemental in any way of our own short screed above. We find it very good and as true as good. Thank us for the following concerning the much neglected "Country Editor," one of the most useful of men and best of citizens:

"He is the packhorse of every community, the promoter of every laudable enterprise, the worst underpaid laborer in the vineyard. Counting his space as his capital, he gives more to charity, his means considered, than any other member of society. He is a power in politics, a pillar of the church, a leader in the crusade for better morals. He is pre-eminently the friend of humanity. Line upon line, paragraph by paragraph, he is embalming in cold type the facts from which the Herodotus, Tacitus, Sismondi or Macaulay of the future will write the history of our time. He fully chronicles our advant into the world, briefly notes our uprisings and our downsittings, and sorrowfully records our exit.

We are all more or less-generally more-his handiwork, and the creature should not be ungrateful to his creator. Without his generous and enthusiastic labors most of us would never have been here; and when he tires of us, most of us will return to private life, amid rural scenes propitious for secret meditation and silent prayer, Working night and day during the campaign, when the election is over and the time comes for the distribution of the loaves and fishes-now vulgarly called 'pie'-by some strange lapse of memory, he is generally for-

#### Excitement Down South

A gentleman arriving in Richmond from the southern part of Florida yesterday said that the excitement in the "land of owers" at this time by reason of the threatening condition of affairs between the United States government and that of Spain was growing more intense daily. "The inhabitants of St. Augustine, Ormond, Maimi and other coast towns of Florida," said he, "are greatly aroused over the situation and are afriaid that the Spanish warships will blow them off the face of the earth in case of war. Down at Key West, there is a general feeling of alarm. At Tampa and Clearwater harbor on the west coast one hears nothing but war talk and expressions of uneasiness. You see, the basis of operations will be shown in the vi inity, more than anywhere else should war be declared. enough, because you won't see much of the conflict if they get to fighting, but
