Madrid, August 27, 3 p. m .- Negoti- | Missouri; A, of the Twenty-seventh ations have been opened wth Washington to obtain permission for the Spaniards in the Ladrone islands to go to Manila, as the situation in the Ladrones is extremely critical. Great preparations are being made at Vigo and Pontevedra for the repatriated soldiers who are expected to arrive there shortly. All possible sanitary precautions are being made.

Commandant Emilio Diaz de Moreu, former captain of the cruiser Cristobal Colon, promises to conduct a lively anti-government campaign in the cortes on his return to Spain. It is pointed out, however, that he, as well as all the other commanders of Admiral Servera's squadron, will have to appear before a court-martial before anything else is done. As soon as the commandant arrives the government will ask the cortes for authority to presecute him, as he is a deputy and this authorization is necessary.

A semi-official denial is made of the statement that Admiral Cervera has written a letter, published in the American press, praising the American navy. His authorship is repudiated.

PHILIPPINOS IN EUROPE. London, August 27.-The Philippine islands committee in Europe has addressed a letter to President McKinley regarding the appeals made to him by high Roman Catholic ecclesiastics in America to protect the religious orders in the islands. The expuision of the friars, the committee contends, is "a necessary antecedent to moral sanitation." The letter names particularly the archbishop of Manila and the bishops of Nueva Sagovia and Nueva Caseres, "whose acts of hostility against both natives and Americans and against the Jesuites and other respected religious institutions are condemned by every one." The committee urges President McKinley to "aid the Philippinos to suppress the immorality of the diabolical institutions fostered by these monks" and the letter concludes as follows:

"Your name can never be associated with that of the friars; and in a sense of right of the noble nation at whose head you are placed will never permit the ever-victorious and humanitarian stars and stripes to protect

RUPTURE BETWEEN CHINA AND ENGLAND.

London, August 27.-Authoritative confirmation has been received of the dispatch from Pekin to The Daily Mail this morning asserting that the relations between the Tsung Li Yamen and Sir Claude MacDonald, the British minister to China, are strained to the point of rupture and that Sir Claude has intimated that Great Britain will regard as a casus belli any failure on the part of China to observe her wishes. They say that the situation between Great Britain and China is acute, Sir Claude MacDonald strenuously insisting that China shall observe her engagements to the British syndicates and demanding satisfactory explanations with regard to the Pekin-Hankow railway. If necessary, the British squadron now assembled at Wei-Hai-Wei will support the British minister's demands. Meanwhile it is stated the negotiations that are being conducted by Sir Charles Scott the British ambassagor at St. Petersburg, to define the respective British and Russian spheres of influence are proceeding in a friendly spirit. THE GERMANS ON THE QUESTION

OF PEACE. (Copyright by Associated Press.) Berlin August 27-The German press continues to discuss the peace conditions from various view points, a majority of the papers according to the United States high praise for the moderation the American government has displayed. Most of them seem to expect that difficulties will arise over the ultimate disposition and control of the Philippines: but, as a rule, the arguments advanced are repetitions and threadbare.

The Koelnische Zeitung's editorial may be worth quoting, as there is the best reason for believing that it was inspired. It says: "Before a definite peace is concluded considerable time must elapse. Meanwhile the internagional situation in the Philippines and the far east generally may have changed materially. It is not akely family, that Spain and the United States will agree to a definite settlement of the Philippine question without taking the advise of the powers interested, particularly Russia and France." "The foreign office maintains abse-Inte reticence as to the present atti-

tude of the government on the subjeet."
