ANOTHER VOTE ON THE BAPTIST FEMALE COLLEGE.

The Matter of Location to Be Decided on the 20th--The Location of Triuity College to Be Decided on the Same Day-Raleigh's New Tannery -- A Sensation in Raleigh.

MESSENGER BUREAU.) RALEIGH, N. C., March. 14, 1890.

Col. L. L. Polk arrived here this morning from Washington City. He tells me that he will carl a meeting of the trustees of the Baptist Female State College at Wake Forest on the 20th. A request for such a meeting was sent Col. Polk, as president of that board, by some of the trustees, and there will be a final settlement of the question of the location of the College. Your correspondent predicts that there will be some lively occurrences at that meeting. The trustees are gentlemen of high character and very grave and unjust accusations have been made against them.

Col. Polk is on his way to Atlanta. on business connected with his office of president of the National Farmer's and Laborer's Union of America. He will make a very brief stay at Atlanta.

The trustees of Trinity College, in the North Carolina Conference, are called to meet at Durham on the 20th instant, to consider the matter of the definite and positive location of that College. It was expected that the Durham people would put up \$175,000. So far they have put up \$108,000. It is said that \$15,000 is expected to be raised in the town of Durham by public | was a daughter of the late Hon. Wm. | latter's modus operandi was bound to subscription. unds will be raised to meet their expenses at the Charlotte firemen's tournament, on the 20th of May. Nothing of a definite and official character has been heard in regard to the attendance of the State Guard at

Richmond, Va, on the 29th of May.

Very probably letters of invitation will soon be sent to the various commands. Matters in regard to the wagon factory here are quite settled. The factory has not been in operation since just before the holidays. More capital is needed and so far has not been raised. The factory will pay well with means and good managment. It was put in operation last fall, and is admirably equipped. There was a good demand

The buggy was overturned, and, Rogers falling into the soft earth was smothered to death: He was about 70 years old.

The Danger Not Yet Over. WASHINGTON, March 14 .- A special bulletin from the signal office concerning the Mississippi river, issued to-day says: The rain storm of the past four days in the lower Mississippi Valley has practically ended, so that the water dangerous to the lower valley, is now in the Mississippi or its tributaries. There are no encouraginff prospects for any portion of the lower Mississippi valley. The stage of the water at New Orleans is now thre stenths of a foot above the highest ever kdown, and last night it touched six-tenths above. The river has fallen slightly at Cairo, but sharp rises at St. Louis and particularly at Ciucinnati, Louisville and Nashville, make it evident that the recession at Cairo is only temporary, and that thence southward the river must continue at its present high stage city of which President Harrison is an for at least a week.

Although the stage of the water at Cairo and Helena are about four feet below the extreme floods in the past, yet the prospects are very decided at even these places. The greatest flood ever known will obtain during the next seven days. At Vicksburg, the river is one feet two inches below the great floods of 1882, but the very high stage of water in the lower Arkansas renders it certain that there will be no relief at Vicksburg unless indeed the whole country should be flooded.

WASHINGTON, Mar. 14-[SENATE.]-Senator Hale, for the committee on appropriations, reported the urgent deficency bill, and said that he would call it up for action next Monday. As it came from the House, the bill called for \$24,122,140. The Senate committee has added items aggregating \$558,050. The Blair educational bill was taken up at 2:15 as unfinished business and Senator Teller addressed the Senate in support of it.

Senator Call gave written notice that he would, on Monday, move to modify certain rules as to Executive sessions, the object of his motion being to allow consideration of nominations of Charles Swayne and Joseph N. Stripling as judge and district attorney for the Northern district of Florida to be considered in open Executive session. Mrs. Harrison and Party in Charleston. CHARLESTON, S. C., Msrch 12 .- The Presidential party reached here shortly after 11 a. m., to-day. They were met at the station by the mayor of the city, the collector of the port, the postmaster and a committee of distinguished citizens and escorted to their hotel. The stars and stripes and the State colors fluttered to the breeze all over the city. The visitors were taken to FortSumter and were shown around the harbor. In the afternoon they entered carriages and were driven around the city, and to-night Mrs. Harrison and her friends had a reception, which was attended by the elite of the city. Later in the night the visitors were serenaded by the Vanderbuilt Benevolent So-

honorary member. It is admitted that the visit of Mrs. Harrison and her party has been a most delightful social event. Democrats and Republican vied witheach other in paying their respects to the first lady of the land. There are very few white Republicans here, but they were all present and for once there was no distinction in politics. Of course the colored Republicans kept in the back ground. The party, at midnight, returned to their car and will leave here for Florida in the morning.

The Mississippi Falling. NEW ORLEANS, March 14.-The Government gauge, at 7:30 a. m., reads 16 6-10 feet, a fall of four tenths from the highest point reached vesterday afternoon. The streets here, this morning, are free of overflow water along the river front, except at St Peter's street, and there the flow will soon be stopped. It rained slowly al night and is drizzling this morning.

The Levee at Burgeois and Son's Nita plantation on the New Orleans side of the river broke at 11 c'clock last night, and in less than two hours the break was twenty five feet wide. The levee was a new one and has become soft. The water from this crevasse will do but little damage, as it will flow into Lake Ponchartrain.

7 P. M .- A Northeast storm prevails and the river went down to sixteen and a half feet, but is again swelling and the water is now running over at Bienville, Conti and St. Peter streets, but the everflow is not enough to cause much inconvenience. A telephone message received at 10 a. m. from Nita Plantation, above the city on the New Orleans side, says the crevasse there is now 100 feet wide; that there is a wide bottom in front of it and the crevasse will be closed by the Mississippi Valley railroad. Several small breaks in the old levee in that vicinity, aggregating 500 feet are also reported.

NEW ORLEANS, March 14.- The condition of affairs on the river front this evening is much more satisfactory than at the same time yesterday. The city authorities, aided by the railroads, have strengthened the weak place in the levee and have constructed a temporary levee of bags filled with earth from St. Louis street to Hospital street, and at other points, but from St. Louis street to Canal street. Where so much water came in yesterday, nothing has yet been done. The city authorities, will, however, continue the work of constructing a temporary levee along the river front until the city is secure from overflow even with the still higher tide of the river The water flowing into the city from the river, to-day, has not been sufficient to flood the streets at any point, though the drains at Bienville. Conti and St. Louis streets were filled all the afternoon.

Trade Affected by the Great Floods In the West--Volume of Business Extraordinarily Large - Alabama Underselling Pennsylvania Iron-Increased Value of Exports for February.

NEW YORK, March 14.-R.G. Dun & Co.'s weekly review of trade says: There was not enough winter to make good the losses sustained by the restricted demand for seasonable goods, or to prevent one considerable failure, caused by arrested destruction and collections, but colder weather helped a little in many branches of trade while it lasted. Now the great floods in the Mississippi Valley interfere with the distribution and threaten serious disasters; on the other hand, the money market has been relieved by treasury disbursements, by another reduction in the rate by the bank of England and by fall of three quarters of a cent in
