Interesting News for Housekeepers.
 There is scarcely an article that enters more into daily use, or in which the housekeeper takes greater pride in than

HOUSEKEEPING LINENS.
 Because these articles may not only be selected for service, but be chosen with an eye for beauty as well, and this time we will dwell upon this line of goods, in which we also take, and we trust pardonably so, the greatest pride. Our present display, of staple as well as fancy housekeeping linens, we believe to be the largest in North Carolina.

Table: Damask
 In both the German and Irish linens, bleached and unbleached, also the Turkey Reds, in fast dye.

Napkins and Doilies
 In white, colored borders, and Turkey Red, the greatest variety of patterns and sizes, and at the widest range in prices.

BED LINENS.
 Linen sheetings, pillow linens, plain and fancy hemstitched linen sheets, bolster and pillow cases.
 As to the above we do not here mention prices, but will freely send samples, or upon inquiry, will give the fullest possible information.
 Many of the above articles are particularly suited as gifts, and when desired, we will submit same upon approval.

Novelties in Dress Textures
 It is our constant aim to make each year's display greater than that of the preceding year, and this season's offering leaves our past efforts far behind.
 Our magnificent exhibit is made up of every conceivable novelty in Woolen as well as Silk textures.
 Imported Dress Patterns of Embroidered Robes, Brocade Novelties, Cheviots, Camels Hair Plaids, Camels Hair Stripes, Bourette Effects in both Plaids and Stripes, Tweeds, Home-spun, &c., in the one class, and of the other, Faille Francaise, Armures, Bengalines, Surahs, and all of the newest weaves in Black Silks.

MEDIUM PRICED DRESS STUFFS,
 Of the medium and lower priced materials, every fashionable color and weave, is represented, and as to prices, sufficient variety is given, to enable any one to make a choice.
90c—At this price we will mention two lines, and of either, we show all the desirable Autumn shades. One is a soft finished French Henrietta, 46 inches wide, the other a little rougher material, Serge, this also 46 inches.
85c—For this price we speak of only one lot, but it is a grand stuff for a travelling suit, or any kind of a dress that one would want to be dust proof, and they are only 38 inches wide.
75c—A Camels Hair, 40 inches wide, in some of the late shades, and this is one of fuzzy materials, that will be so good this Fall.
50c, 45c and 40c—Solid colored Serges, Plaid Serges, Plain and Plaid Flannel Suitings, Tweeds, Cheviots, &c., &c.

We endeavor to render shopping with us little trouble to those remote from Raleigh, and the medium through which this is accomplished, is our thoroughly equipped

WASHINGTON NOTES.
NEWS, GOSSIP AND MATTERS OF INTEREST GATHERED BY OUR MESSENGER REPORTER.
WASHINGTON, Sept. 19.—[SPECIAL.]
 The correspondent of the Brooklyn Eagle says he considers Senator Vance's recent speeches the ablest and clearest presentation of the tariff subject that can be compiled. Acting on the thought, he filled several columns of his paper with extracts from them, and they were printed in full. This is an unusual compliment from a Northern paper to a Southern Senator, but it was no more than Vance deserved. His late tariff fight on the floor of the Senate entitles him to the gratitude of the Democratic party. It has brought him more than ever into national prominence. There has been no conference here looking to a compromise between Col. Polk, Ed Chambers Smith and Senator Vance. I don't suppose Mr. Smith ever thought of such a thing and Senator Vance needs to adjust no differences with Col. Polk or Colonel Anybody else, where the people of North Carolina are concerned. He will come back to the Senate by acclamation. Colonel Vox Populi will ask no compromises of him.
 The name of the new collector of the port of Wilmington will probably be sent to the Senate next Monday. My informant may be mistaken but he assures me that Judge Dan Russell is one of the foremost aspirants to the place. Jim "Long" mentioned in my last letter should have been Jim Young. He is a native of Henderson and is one of the colored political manipulators of Col. R. E. Young to whom I think he once belonged. He is a well educated, bright negro and thinks his services to the G. O. P. demand recognition. Col. R. E. Young was here several days trying to get the collectorship of the port of Wilmington for him. Col. Young is supposed to have political influence here, but whether he is sincere in wishing to see a negro made a collector of the port is a doubtful matter. Plummer Cheatham will push any man suggested by Col. Young for any place within the gift of the Executive. Jim Young is certainly in earnest about wanting the place, and he or some of his friends probably inspired Victor Dockery's recent letter in the State Chronicle on this subject. It seems to me that a business man, a native of Wilmington or certainly a long resident of that city ought to be selected for this important position. A negro politician who is presumed to be ignorant of the duties of the office is clearly out of the question for such a place and Benjamin Harrison will probably not be fool enough to make any such appointment. Judge Russell, Mr. Chadbourne, Col. Canaday or any Republican of similar ability ought to have the place—and probably will have it. The business interests of the metropolis of the State are too important to be tinkered with by second class Republican politicians who have no claims whatever on Wilmington or her people. It is bad enough to take a Republican whether he is a scallawag or carpet-bagger, but by all manner of means let it be a **Carpet** Fear man either by birth or adoption, and endowed with more business ability than it takes to get up a negro ward meeting or to raise a hubbub in a negro State Convention. There has been quite a gathering of the local Republican clan in Wilmington, in this city for the past ten days, and I am sure that Benjamin Harrison and his advisers will be more influenced by the leading men of this clan, which by the way is the most decent in the State, than by Col. R. E. Young, Plummer Cheatham, and all their negro henchmen from the black district. Plummer Cheatham is personally popular with the President, and Col. R. E. Young who has plenty of money comes on here, stops at the Ebbitt, drives in fine carriages, wears big diamonds, etc., but all this won't make the President install Jim Young in the Wilmington Custom House.

Remarkable Rescue.
 Mrs. Michael Curtain, Plainfield, Ill., makes the statement that she caught cold, which settled on her lungs; she was treated for a month by her family physician, but grew worse. He told her she was a **hopeless victim of consumption** and that no medicine could cure her. Her druggist suggested Dr. King's New Discovery for Consumption; she bought a bottle and to her delight found herself benefited from the first dose. She continued its use and after taking ten bottles, found herself sound and well, now does her own household work and is as well as she ever was.—Free trial bottles of this Great Discovery at Robert R. Bellamy's Drug Store, large bottles 50 cents and 1.00.

THE LADIES' HOME JOURNAL.
 Few better numbers of a popular magazine have ever been issued than is the October Ladies Home Journal. From cover to cover, the number bristles with an array of splendid articles, poems and stories seldom brought together in a signal issue. P. T. Barnum tells, in a very entertaining manner, the secret of "How I Have Grown Old"; Mrs. Ulysses Grant describes her courtships with the General, and how the warrior proposed marriage to her; the methods pursued by the Vanderbilts in the training of their children are freshly sketched; Mrs. Margaret Bottoms, the President of the "The King's Daughters," begins most admirably with what will hereafter be a regular department entirely devoted to "The King's Daughters"; Robert J. Burdette has a first-class humorous article on old people who try to be young; A. Bogardus, the pioneer New York photographer, has an exceedingly bright sketch on "Presidents I Have Photographed"; Dr. Talmage has some very bright things for women; Emma V. Sheridan, the Boston actress, tells how to conduct private theatricals; "Curl Papers and Husbands" is the unique title of a paper by Felicia Holt; Florence Howe Hall gives valuable hints in an article telling how to celebrate "Wedding Anniversaries"; and then come contributions, almost without number, from Harriet Prescott Spofford, Mrs. Lyman Abbott, Lee C. Harby, Sarah K. Bolton, Edward W. Bok, Ellen Le Garde, Kate Tannatt Woods, and a score of others. The October Journal is truly a perfect model of what a popular magazine should be. Published at one dollar a year, by the Curtis Publishing Company, Philadelphia.

GOLDSBORO JOTTINGS.
 We are at last having some beautiful fall weather.
 Cotton is just rolling in and selling for good prices.
 The Wayne County Democratic Convention meets here to-day.
 The New Berne Star cornet Band gave us some fine music Wednesday afternoon, for which they have our sincere thanks.
 Large quantities of scuppernon grapes are still being shipped from here daily. There are some splendid vineyards near this city.
 The number of fish shipped from Morehead is increasing every day. Morehead bids fair to be one of the largest fish markets in the South.
 Goldsboro's Fair begins just one month from to-morrow. The managers are doing all in their power to make it a grand success, which it will no doubt be.
 The many friends in this city of Mr. H. C. Prempert, who died in Wilmington Wednesday afternoon, regretted exceedingly to learn of his death, and many were the words of praise spoken of his noble life.
 This week closes the vacation season and the graded schools of the city open Monday when the teachers and scholars will have another nine months of hard work before them. It is hoped the schools will all be well attended.
 The festival given by the young ladies of the Presbyterian church Thursday night for the benefit of the Manse was a success in every way. Every delicacy that could tempt the appetite of the most fastidious was served by dainty hands, and quite a handsome little sum was realized.

CURRENT COMMENT.
 An inventor has patented a process for making shoestrings from paper. This ought to reduce the cost of Congressional gerrymandering in South Carolina.
 The ostrich has finally broken into comic opera. Now it should make an effort to keep its head out of the sand.
 An Easton freshman has solved the hazing problem with a baseball bat. In the future the Easton hazes will let the hayseeds severely alone.
 So far as the Hon. Rosewell P. Flower is concerned, the next Democratic campaign in Maine will be run on its uppers.
 "The Cleveland-Hill feud" and "the Blain-Reed vendetta" are the titles of two very thrilling romances now running through the columns of our esteemed organette contemporaries.
 That recent operation on Chauncey Depew's nose did not impair its usefulness. He was able to give it the proper elevation when Mr. Powderly's proposition for a compromise was presented.
 France wants pork and America art. Let them have our chimes and we their chef d'oeuvres.
 "What is Reciprocity?" asks Speaker Reed. It is the sort of thing that does not exist in the political relations of James G. Blaine and Thomas B. Reed.
 Mr. Hoar regards the Reciprocity amendment "rather as a declaration of purpose than as a definition of legislative policy," and in this view gives it his support. Under it the President is to threaten, not act.

A Boon to the Sick.
 Dr. King's Royal Germetoeur is endorsed by Rev. J. B. Hawthorne, pastor First Baptist Church, Atlanta, Ga., who says: "It is a great remedy." Rev. Sam P. Jones says: "I wish every poor suffering wife had access to that medicine." Thousands of others attest its virtues. Fifty gallons are drunk in Atlanta daily, where it is performing remarkable cures. It removes the cause of disease and builds up from the first dose. Send stamp for all particulars, certificates of wonderful cures, etc., to King's Royal Germetoeur Co., Atlanta, Ga. IT CURES WHEN ALL ELSE FAILS. Price \$1.50 per concentrated bottle, which makes one gallon of medicine as per directions accompanying each bottle. Can be sent by express C. O. D. if your druggist can not supply you.

The Effects of Mental Exhaustion.
 Many diseases, especially those of the nervous system, are the products of daily renewed mental exhaustion. Business avocations often involve an amount of mental wear and tear very prejudicial to physical health, and the professional, if ardently pursued, are no less destructive to brain and nerve tissue. It is one of the most important attributes of Hostetter's stomach Bilets, that it counteracts for this undue loss of tissue, and that it imparts a new energy to the brain and nerves. The rapidity with which it renews weakened mental energy and physical vitality is remarkable and shows that its invigorating properties are of the highest order. Besides increasing vital stamina, and counteracting the effects of mental exhaustion, this potential medicine cures and prevents fever and ague, rheumatism, chronic dyspepsia and constipation, kidney and other weaknesses and other complaints. Physicians also commend it as a medicated stimulant and remedy.
