THE WILMINGTON MESSENGER, WEDNESDAY, DECEMBER 17, 1890.

AN LUYPTIAN WEDDING.

CAIRO, Egypt, Nov. 10 .- The next

sest thing to knowing the khedive, ac-

ording to the tourist estimate, is to get

in invitation to an Egyptian wedding.

ome of the hotel guests are so anxious

or this honor that they do not wait for

in invitation, but take the liberty of

anding their cards to any house where

hey hear a wedding is in progress and

sking for admission. Oriental conrtesy

s so generous that this rudeness is not

nly forgiven, but often the owners of

It was the good fortune of the present

vriter to receive an invitation some

ime ago to be present at the wedding of

he two sons of Mohammed Pasha. This

nvitation gave me especial pleasure,

with because it was to give me an oppor-

unity to see a high caste marriage cere-

nony, and being a double wedding I

spected that it would be a very brill-

unt affair. My expectations were not

As to the marriage ceremony proper

here was none so far as I could see, and

me of the bridegrooms apologized for

he simplicity of the wedding arrange-

acats, saying that this was rendered

recessary by his father's absence in

What seemed odd enough, though of

ourse not unexpected, was the total ab-

mce of women. In the great central

ourt and the various rooms on the lower

bor of the palace no one could be seen

at men. But all grades and conditions

Here were some of the rich young men

f, Cairo in most elaborate toilets, and

lese to their elbows a bare kneed or

are arme I neighbor, who seemed to be

nade just as welcome as they. Some of

he most exclusive of the guests smoked

beir lonely cigars in the drawing room.

This was a large and comfortable apart-

uent, furnished in European style,

lough lacking-as even the khedive's

arlors lack-most of the beautiful and

azurious things which make these

rooms what they are to us. Most of the

company, however, preferred, as we did,

to mingle with the common people in

ealized, however.

he cards are cordially welcomed.

The Whole Koran Recited As Part of the Ceremony. [Special Correspondence.]

is an inflammation of the bronchial tubes the air-passages leading into the lungs. Few other complaints are so prevalent, or call for more prompt and energetic action. As neglect or delay may result seriously, effective remedies should always be at band. Apply at once a mustard poultice to me apper part of the chest, and, for internal treatment, take frequent doses of

2

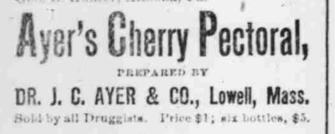

Ayer's Cherry Pectoral

C. O. Lepper, Druggist, Fort Wayne, Ind., writes: "My little sister, four years of age, was so ill from bronchitis that we had almost given up hope of her recovery. Our family physician, a skilful man and of large experience, pronounced it useless to give her any more medicine, saying he had done all it was possible to do, and we must prepare for the worst. As a last resort, we determined to try Ayer's Cherry Pectoral, and I can truly say, with most happy results. After taking a few doses she seemed to breathe easier, and, within a week, was out of danger. We continued giving the Pectoral until satisfied' she was entirely well. This indisputable evidence of the great merit of Ayer's Cherry Pectoral has given me unbounded confidence in the preparation, and I recommend it to my customers, knowing it cannot disap-"polat them."

"Ayer's Cherry Pectoral cured me of a bad cough and my partner of bronchitis. I know of numerons cases in which this preparation has proved very beneficial in families of

Young Children,

so that the medicine is known among them as 'the consoler of the afflicted.""-Jaime Rofus Vichil, San Cristobel, San Domingo. " A short time ago, I was taken with a severe attack of bronchitis. The remedies ordinarily used in such cases failed to give merolief. Almost in despair of ever finding anything to cure me. I bought a bottle of Ayer's Cherry Pectoral, and was helped from the first dose. I had not finished one bottle before the disease left me, and my throat and lunes were as sound as ever."-Gen. B. Hunter, Alloona, Pa.

GREAT

JOY.

SUCCESSFUL POULTRY PAISING.

Sensible and Plain Suggestions from Practical Poultry Grower.

In a paper read before a Massachusetts farmers' club Mr. A. C. Hawkins, of Lancaster, Mass., recently made a number of useful suggestions, among them the following:

Don't make poultry a side issue if you want to succeed. Many of the most successful poultry taisers are women, they having the patience and tact and intelligent application necessary. Start with small numbers and study the steps, read the poultry papers and magazines and learn what others are doing and how lon, O'Brien and others was that they are doing it.

A house for 100 fowls should be 50 feet long by 12 wide, divided into two pens, and on each end of the house an open shed 25 feet long by 10 wide. The ground should be gravelly to avoid dampaess; there should be six inches of clean, sandy gravel in the house, and a foot of dry leaves in the shed. A gravelly, well drained soil is best for a poultry house, as dampness causes sickness. A southeast exposure is best.

Barred Plymouth Rocks I place at the head of the list of breeds which are hardy, prolific layers, good setters and mothers, etc. White Plymouth Rocks are a good breed, though less hardy than the larred. The Wyandottes are the strongest rivals of the Rocks, and are an excellent breed for a farmer to leen.

Select for breeding stock the best birds in the flock and put them in pens separate from the others; twelve females to a male I have found to be the best. Give the breeding stock wide range and the eggs will be more fertile, and will hatch stronger, more vigorous chicks. The nearer we get to nature's methods the stronger the germ and the better start for the chick. With poor eggs the germ is poorly nourished and the chicks come forth weak and spindling. Use the same kind of house for sitting as for laying, and then the conditions will be such as the fowls are familiar with, and there will be less liability of the birds deserting their nests. April pullets ought to begin laying in October, and should be removed to their winter quarters before the cold nights come on. Early chicks can be raised at a cost of about twentyfive cents for food and sold for about a aggregate only 13,091 miles. or dollar, which gives seventy-five cents for about 3,000 miles more than the profit.

Prominent Clergymen, Physicians, and all classes of citizens are unanimous in the indorsement of Salvation Oil, the great cure for Rheumati-m. Price only 25 cents a bottle. At all Druggists.

Young ladies, on the eve of marriage now give "spinster dinners," at which female friends only are entertained. They are allowed to talk of every bing, and never fail to mention the numerous cura ive benefits of Dr. Bull's Cough Syrup that cures all coughs, colc, bronchitis, croup, and sore throat. Carnegie's advice to Messrs. Dil

three words should be telegraphed to Parnell: "Resign. marry, return." This is Carnegie's solution of the whole question.

The Great American Chorus. Sneezing, snuffling and coughing! This is the music all over the land just now. "i've got such an awful cold in my head." Cure it with Ely's Cream' Balm or it may end in the toughest form of catarrh. Maybe you have cztarrh now. Nothing is more nauseous and dreadful. This remedy masters it as no other ever did. Not a snuff nor a liquid. Pleasant, certain, radical.

A dealer in old sermons in London advectises 4,000 manuscript sermons in job lots at a very low price per 100. Those that are written "in large, bold, clear hand" bring a higher price.

The First Step.

Perhaps you are run down, can't eat, can't sleep, can't think, can't do anything to your satisfaction, and you wonder what ails you. You should heed the warning, you are taking the first step into Nervous Prostration. You need a Nerve Tonic and in Electric Bitters you will find the exact remedy for restoring your nervous system to its normal, healthy condition. Surprising results follow the use of this great Nerve Tonic and Alterative. Your appetite returns, good digestion is restored, and the Liver an | Kidneys resume healty action. Try a bottle. Price 50c, at Robert R. Bella.ny's drug tore.

women registered in Cheyenne, Wy.,

Hot Springs.

Have you ever visited HotSprings?

Alas! You meet while there so many

instances of terrible blood poison, evi-

denced by disfigurement of face and

form. Hither rush sufferers from

aching joints, limbs made crooked by

rheumatism, etc., etc. Some find re-

lief, some do not and come away poor

in purse and grievously disappointed.

Hot Springs. The experiment of go-

ing there cannot be indulged in with-

out considerable expense. How thank-

ful then should everyone be to know

there is a remedy even more beneficial

in cases of blood poison than Hot

Springs. We refer to Botanic Blood

Balm (B B B) as to its merits thousands

DR. KING'S ROYAL GERMETUER One fact is worth a thousand arguments and Dr. King's Royal Germetuer demon strates every day that it is making mor-cures than any other medical preparation

A daughter of Mr. C. Jordan, of Atlanta, was cured of a serious case of stomach and

bowel troubles. Mr. N. T. Johnson, of Atlanta, was cured of a long continued and severe case of catarrh which was sapping his life away. Mrs. M. Farmer, of West End, Atlanta, was completely cured of a ten years' case

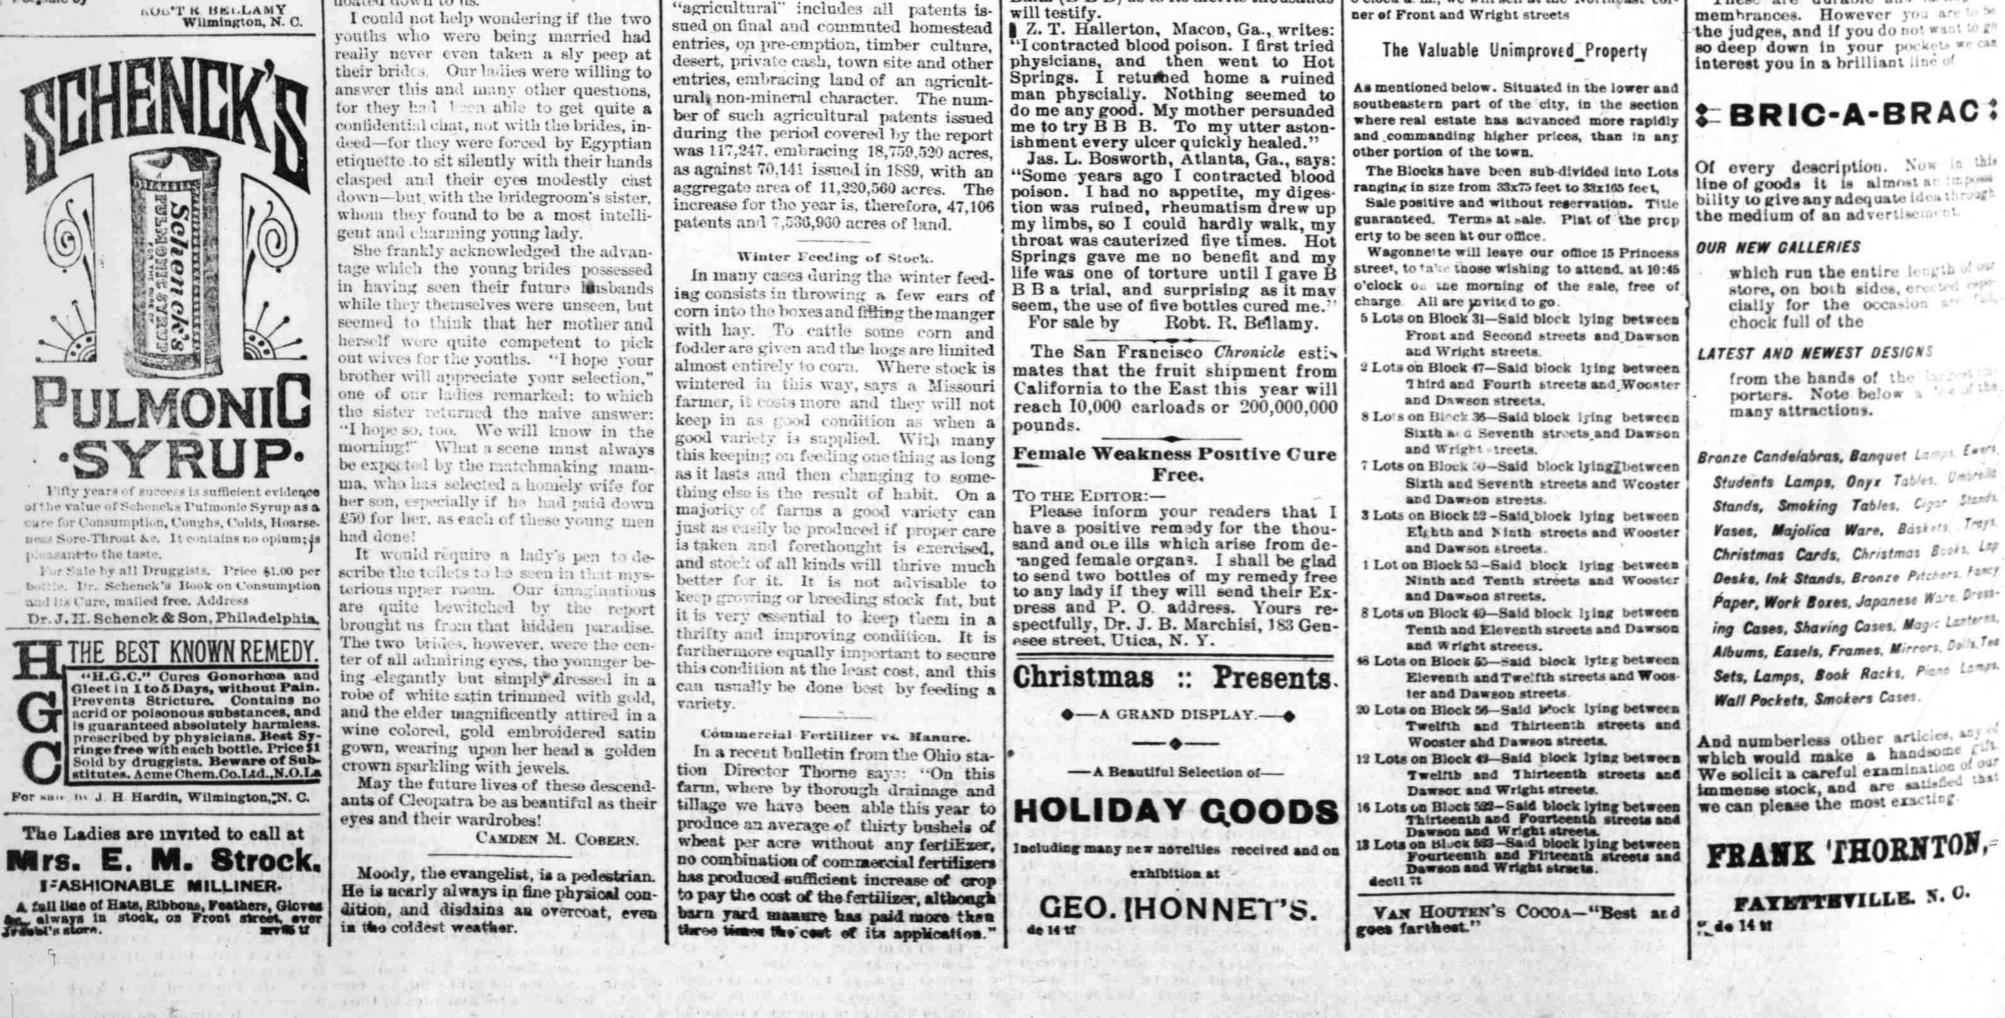

Rev. A. B. Vaughn, Canton, Ga., was cured of facial neuralgia, also of a liver and kidney trouble of many years standing. Mrs. T. S. Pelot, of Atlanta, had been an invalid 14 years, but Germetuer cured her. Mrs. W. F. Herndon, Atlanta, Ga., suf-fered with acute catarrh. One bottle of Germetuer freed her from this dreadful

A daughter of F. T. Brosius, of Atlanta, had tried every known remedy for ag-gravated dyspepsia. Two bottles of Ger-metuer cured her.

Mr. Lewis Bennett, Atlanta, Ga., had Mr. Lewis Bennett, Atlanta, Ga., had been afflicted with indigestion for 20 years, complicated with diarrhea. Three-fourths of a bottle cured bim sound and well. Thousands of voluntary certificates tes-tify to the remarkable curative virtues of Royal Germetuer. It builds up at once, wooes "nature's soft nurse" – refreshing sleep, stimulates the appetite, aids diges-tion southes the nerves and insures good ion, southes the nerves and insures good beatth. For weak women, clerks, bookbealth. For weak women, clerks, book-keepers, milliners, stenographers, house-gedies, As a blood purifier and an invigor-ating tonic it is without a rival 1 it is as pleasant to take as lemonade without sugar; is a scientific discovery, and cures finances by removing the cause. Price, 1.50 per concentrated bottle, which will make one gallon of medicine, as per ac-make one gallon of medicine, as per ac-full particulars, wonderful cures, etc. For sale by druggists and by KING'S HOYAL GERMETUER CO., ATLANTA, GA. •52525252525252525252525

FUL SHID UY

NUD'T R BELLAMY Wilmington, N. C.

the central court. This spacious yard was roofed for the occasion with immense Turkish rugs, and hung with targe chandeliers sparkling with glass orn: ments. Here the two happy bridegrooms were kept busy receiving their friends and seating them upon the mat covered benches, and keeping their slaves busy supplying them with food

hand drink. It is a part of the customary marriage ceremony that all the Koran shall be chanted in the house of the bridegroom during the day and night of the wedding. This joyful task is generally performed by blind men. On this particular occasion the chanter was also a descendant of the prophet, as was shown by his conspicuous green turban.

There was so much of shouting and trilling and dwelling upon the vowels in this recitation that it would have been impossible for an Arabic scholar who was not a Mohammedan nor accustomed to the devotional elocution employed to understand the words which he was repeating with such fervor. We ought not to lay this up against the Molsem preachers, however, for on one occasion, in one of the London cathedrals, I heard a notice read, and the only word which J understood was of Latin extraction.

Turning to the man standing by my side I whispered, "Do they always annonnce the notices here in Latin?" To my great surprise he replied: "He was speaking English. Do you not understand English?"

Certainly to the men who surrounded this blind reader his words were music, for again and again, after what seemed to be an impressive rendering of a favorite passage, they would shout in delight. "Allah! Allah!

Our Indies finally descended from those mysterious upper chambers where the brides were hidden, of whose existence we, were only made acquainted by the bursts of laughter which occasionally floated down to us.

I could not help wondering if the two youths who were being married had really never even taken a sly peep at

Crimson Clover.

Crimson clover closely resembles common red clover in appearance, except in the shape and color of the blossom; the color is a bright crimson. Crimson clover differs from red clover in that it is an annual. A correspondent in Rural New Yorker, writing from Delaware, says that in that state crimson clover is largely grown for the purpose of plowing under in the spring as a green manure. He says: "Several farmers in Kent county last season were so well pleased with it that they seeded large areas of their peach orchards and cornfields with it for the purpose of filling their silos with the green fodder. It is greedily eaten by all kinds of stock. If cut and cured before it is too mature it makes an excellent quality of hay."

Professor Beal, of the Michigan Agricultural college, after repeated trials of crimson clover on a small scale, thinks for the recent elections. Several it of no value for Michigan. Professor women rode twenty-six miles into Gulley is of the same opinion for Missis-Cheyenne to vote. sippi. Mr. D. S. Hicks has raised it in Brunswick county, Va., and has confidence that it will prove valuable as far north as New York. It is not hardy in Michigan, according to Dr. Beal.

Government Lands.

scrofula, syphilis, eczema, salt rheum, ulcers, blemished skin, twisting and In his annual report of the operation of his bureau for the fiscal year ending June 30, 1900, the commissioner of the general land office says that an agricultural domain of nearly 19,000,000 acres has during the year been transferred to It costs money to visit and sojourn at enterprising and industrious settlers by patents issued to them, while the areas patented to the states under the swamp grant and to corporations under special grants have been great, although somewhat reduced as compared with previous years. The class of patents known as "agricultural" includes all patents issued on final and commuted homestead entries, on pre-emption, timber culture,
