EQUITABLE LIFE ASSURANCE SOCIETY

Of the United States.

One Fact is Worth a Thousand Theories.

The Twenty-Year Tontine policies of the Equitable Life Assurance Society maturing in 1891 return the policy-holder all the premiums paid, and the following rates of interest on the preminms which have been paid during the twenty years, in addition to the assurance of his life during

the entire period. 20-Payment Life Policies. Life Rate Policies. A return in cash of all premiums with A return in each of all premiums with interest at the rate of interest at the rate of 44 per cent. 24 per cent.

31 per cent. 51 per cent. 5½ per cent. 67 per cent. 20-Year Endowments. A return in cash of all premiums with interest at the rate of 67 per cent.

8 per cent. The return on other kinds of policies is in proportion, depending upon the kind of policy and the premiums paid. There is no assurance extant in any company which compares with this. The Equitable is the strongest company in the World and transacts the largest business.

61 per cent.

Do you want to know of a good investment?

Do you want cheap life assurance? Do you want assurance which is secure beyond all peradventure?

Do you want assurance which is unparalled in its liberality? Do you want a policy which will be paid promptly and without discount deduction of any kind?

Do you want a policy which will give you large dividend returns?

Good Investments Are Not Hard to Find if You Know Where to Look For Them,

A DIALOGUE ON AN IMPORTANT THEME. Capitalist-How hard it is nowadays to find an investment which is safe beyond peradventure, and one which at the same time yields a fair rate of interest. Capitalist—I con't call that an investment; and as my family will be well off if I die, there is no necessity for my going to the expense of paying premiums on an assurance policy.

Friend—I am situated just as you are, and unt'l recently I had the same ideas about life assurance that you have; but I have discovered that I have been about the same ideas.

ern steam closed \$6.571 bid; city \$6.05; about life assurance that you have; but I have discovered that I have been about a quarter of a century behind the age, and that to-day life assurance (as practiced by the Equitable at least) is as advantageous to the rich man as it is to those who are poor. Capitalist-You surprise me. Friend-Well, look at the facts: In 1871 a New York man, whom I know,

took a policy in the Equitable for \$50,000; today he can draw out in cash several thousand dollars more than he has paid in premiums, or he can secure a paid-up policy for nearly \$65,000. Capitalist- You don't mean that all this is in addition to the assurance he has had for twenty years. Friend-Certainly.

Capitalist-If this man had died, say, after he had paid one premium, how much would his heirs have received? Friend-\$50,000. Capitalist - Wonderful. Friend-Yes, and remember that the Equitable has a surplus of \$25,000,000 and that under its Tontine plan the protection of life assurance is combined with

the advantages of an investment which is as secure as the best railroad mortgage in the country. Capitalist-You have interested me greatly. I think I must look into this matter on my own account. Friend -If you do you will follow my example and invest.

A Letter From the Widow of a Laboring Man.

Mesers. Argo & Black, Agents for the Equitable Life Co. Gentlemen-I am grateful for the check for the \$1,000 insurance held by my poor husband in your Company. I wou'd like to tell you about the benefit this

payment is to myself and my five little fatherless children. About five years ago my husband, who was then in good health, was persuaded by an agent of the Equitable to take a policy on his life for \$1,000, which was all he could afford, as his wages as a laborer were small and he was trying to pay by instalments for our little home, in addition to our living expenses. Al went well until about a year as o his health began to fail, and he was unable to earn any money either for the support of his family or to pay the premiums on his policy. His employer and other charitable people helped us along from time to time, even giving me money to pay the Company on his policy. At the time of his death there was not any money in the house, and with a debt of \$275 still unpaid on our little home, and with five small children to be provided for, this money came like a godsend. I am grateful to you and the Company for paying it so prompt, and 1 hope

many other laboring men are insured in your Company, whose widows and little ones will be supplied with money at the sore time when the husband and father CHRISTINE MEISNER, is taken away. Yours obediently, P. S.—The number of my policy was 342,556. Fort Wayne. It was fortunate that this good woman found such kind friends, and doubly fortunate that their charitable aid was so prudently directed. The usefulness of life assurance is even more forcibly and beautifully illustrated in this humble instance than where, through its means, the widow and family of a merchant or

professional man are maintained in their accustomed affluence by assurances aggregating half a million of dollars. Important Letters.

Louisville, Ky., Sept. 4, 1891. Messrs. Roe & Lyon, Managers, Louisville, Ky. Gentlemen-1 beg to acknowledge the receipt, through your firm, of the check of the Equitable Life Assurance Society, in my favor, in full payment of policy on the life of my late husband, Bennet D. Mattingly. The policy was only issued in June last, and it speaks volumes in praise of your Company that the loss has been so promptly adjusted, as the proofs of death were only sent forward on August 28, and the check is dated September 2. I may add that the Equitable's is the first settlement made under the policies on my husband's life. I am, gentlemen, yours truly,
MRS. M. J. MATTINGLY.

Louisville, Ky., Sept. 3, 1891. Messrs. Roe & Lyon, Managers, Louisville, Ky.
Gentlemen-We beg to acknowledge receipt of check of the Equitable Life Assurance Society for \$5,000, in payment of policy No. 213,320, on the life of the late Foster Thomas. We congratula e you on the promptness with which the losses of your Com-

pany are paid. The proofs in this case were only delivered to you on August 29. Of the several policies on Mr. Thomas's life, yours is the first one settled. Yours truly, FIDELITY TRUST AND SAFETY VAULT COMPANY, Administrator of Foster Thomas, by John Stites, Vice President.

The Old Story Once More.

Wampmu, Pa., October 1, 1891. Mr. Edward A. Woods, Manager, Pitteburg, Pa. Dear Sir-Dr. M. died last night at 11 o'clock. I was to have secured his apdication for a \$20,000 policy last week. I could not prevail upon him to take it four weeks ago, but he said that be positively would last week. When I called at that time he was sick, and now he is dead. Too late!

Yours truly,

H. B. SCOVILLE.

It is really remarkable how many such cases turns up in the experience of the Society. Procrastination is not alone "the thief of time." In innumerable instances it robs the widow and orphan. It defeats opportunity, and justifies the proverb that "the road to hell is payed with good intentions. MOORE & ADICKES, District Agents
