Yesterday's Cotton Market. [Special to the Messenger.]

New York, Jan. 20 .- The cotton market opened irregular and weak in tone. The first call, though opening at an advance of 2 to 3 points, finished at a decline of from 1 to 6 points. Still later, there was active liquidation, which carried prices down to a net decline of 7 to 8 points as compared with vesterday's closing figures, with the market expressed in public, declared that you ininally easy in tone at the lowest prices of the day. Although the session lasted only (we hours, owing to the Saturday half holiday, the sales reach a total of 157,200 bales. The cause of the weakness was primarily the large movement, receipts running much beyond estimates and taking the most pronounced bear by suprise. An additional factor of weakness was the bearish character of the English advices, the Liverpool cotton market closing at a net decline of 1-64 to 2-64d for futures, though the sale of 10,000 bales of spot cotton was considered good for Saturday. The selling to-day was almost entirely by the disappointed bulls, who are almost demoralized in the face of the enormous receipts. The market would have decline more Lad it not been for the buying of one prominent house, whose purchases to-day are estimated at 10,000 bales Hubbard, Price & Co. point out some feat-

ures of the statistical situation. According to the Chronicle the quantity of amount now in sight is 5.878,000 bales. The creased only 16,000 bales. Last year the decrease was 2,000 bales. Since September assaults which may arise directly or last the total of exports and the cotton in indirectly from such conflict. Persons have last the total of exports and the cotton in process of foreign shipment has been 706,-(00) bales in excess of last year. The excess of the crop in sight is 756,000 bales, so that from the Japanese representatives against practically the interior surplus of production over last year has been shipped out.

Stocks of cotton at the United States ports and the known interior towns are 56,000 bales less than last year. Estimatee as to the total of next week's receipts at the ports must be the merest guess work, they running to day any where from 130,000 to 150,000 bales, against 150,676 last week and 70,444 last year.

NEW YORK, Jan. 20.—The Sun's cotton report says: The old farmer's comment at a certain gathering of his neighbors on se upon a time, was: "There's a good deal of alk and no cider." That is about how th bears feel about the promised perpendic falling off in receipts-a good deal of talk and no facts. To-day prices declined be-cause the arrivals at the ports were enor-mous and those at the interior towns reported daily were also enough to disgust the average bull. Liverpool made little response to the decline here yesterday, but the crop receipts at the ports this week are nearly a large quantity of cotton, and in two hours, such is the activity of the Cotton Exchange, nearly 60,000 bales were acld. Some con tend that heavy buying by Europe in the in-terior partly accounts for the big movement to the ports and interior towns, and others maintain that the big movement is due to the fact that planters and others were tempted by the recent advance to hurry their crops to market. A large Wall street house is understood to have sold to-day nearly 15,000 bales of May. It is estimated that New Orleans will get 50,000 bales this week. One firm said "If the movement next week should we fear that nothing can prevent a serious sage satisfactory answers the questions; but be added: "If you still desire the specifications requested, I will be ready to furnish. that there is not going to be too much cotton, and buyers would probably be able to make their awn terms. THE LETTER FROM MR. DOLE TO MINISTER WILLIS.

Intention of the Minister -Charges Against the Administration Made in Most Unbecoming Language-Refusal to Withdraw Letter. .

WASHINGTOM, Jan. 20,-The interest felt in Hawaiian affairs was manifested in a striking manner this afternoon when President Cleveland's message transmitting the latest diplomatic correspondence on the subject was laid before the House of Representatives. After the reading of the brief nessage the Speaker stated that, without objection, the message and accompanying papers would be printed, but immediately Mr. Hitt, Republican, of Illinois, requested the reading of the communication to which the President had referred, which was done. Its reading was received with applause on the Republican side of the Chamber. Then the following letters were read, and Mr. Willis' responses to Minister Dole met the audible approval of the Democrats. The House insisted on hearing all the correspondence read—a most unusual thing—and every word was heard in the remotest corner of the hall, so absorbed was every one in listening to the clerk as he read. President Cleveland's letter of transmittal was as follows:

"I transmit herewith dispatches received esterday from our Minister at Hawaii, with certain correspondence which accompanied the same, including a most extraordinary letter, dated December 27, 1893, signed by Sanford B. Dole, Minister of Foreign Affairs of the Provisional Government, and ad-dressed to Minister Willis, and delivered to him a number of hours after the arrival at Honolulu of a copy of my message to Congress on the Hawaiian question, with copies of the instructions given to our Minister.

COMMERCIAL NEWS. Stocks and Bonds in New York-The Grain and Provision Markets

of Chicago. New York, Jan. 20 .- It has been many a week since Wall street felt as cheerful as it lid to-day. The tendency of prices were upward, and the bulls were in control from the opening to the close of the session. The reaction in the final trading occasioned no surprise, as it quite often happens that small traders take profits at the end of the week rather than carry their contracts over Sunday. The first thing to give an impetu to speculation this morning was the receip of higher prices from London and moderate buying orders from that centre. The ex-ecution of the latter developed the fact that there were few stocks press ing for sale in the local market. The aid received from the foreigners encouraged the bulls to make a cally declared that no seat would be sold for more aggressive stand and in a short time ess than \$25. If the crowd does not inmore aggressive stand and in a short time they had the whole list on the up tack. There was a disposition to anticipate the effect of the bank statement, which proved to snough money at that figure to probe a remarkable exhibit. The increase in big deficit, it is safe to say that the cash was \$13,786,900 and in surplus reserve \$10,170,775, lifting the amount held by the banks in excess of the 25 per cent. legal renirements to the unprecedented figure of \$102,754,450. The natural impression is that before a great while this vast hoard of idle noney will seek other channels for em-ployment and that the Stock Exchange will feel the benefit of this With money commanding only 1 per cent. on call and 2 to 3 per cent. on time, bank and trust companies prefer to purchase thoroughly good bonds which are obtainable at figures that return 4 per cent, and over. Another bull argument is the starting up of the mills and furnaces in various parts of the country. A factor of considerable importance is the improvement in the railroad earnings. Thus far the big systems have shown a smaller falling off in earnings so far this month than was the case in December and some smaller lines even show gains as compared with 1893. Net receipts will show up much better than the gross, as matters have induced certain opera-tors to take hold of the stock market, and the conceptsus of narket, and the concersus opinion on the street is that a livelier cond rose 27 per cent. CHICAGO, Jan. 20.—The speculative markets were very narrow and dull to-day. Opening trades in wheat were at from 642 to 642c for May, the market thereafter holding steady to firm and closing with a net gain of 2 to 2c for the day. The range in corn was about \$c and the lose was at the outside price. Oats were firm and prices were advanced The provision market opened higher on a

very light run of hogs at the yards, but, on second thoughts, the trade concluded that as hogs did not show any advance in price it would be more consistent to sell than to buy, and under these circumstances, prices eased off. Later in the day there was a spurt which carried values back to opening figures where they closed with May pork showing a gain of 12½c for the day, May lard 7½c and May ribs 5c.

ANOTHER OBSTACLE.

KELLY DEMANDS POLICE PROTECTION.

He Will Not Referee the Fight Unless It is Guaranteed-Beginning to Look as if the Fight Would Not Come Off-The Crowd Gathering Very Slowly -The First Pool Selling.

JACKSONVILLE, Fla., Jan. 20:-The Duyal Athletic club to-night furnished the following: "The Duval Athletic club wishes to state emphatically that the stage of doubt is passed. The club desires to make no more manifestos, as continual rushing into print might, nauseate the public, but it desires to state for the last time that the cou-

test will take place on January 25th."

In spite of the above, however, trouble

seems to be camping on the trail of the club." The club now finds itself face to face with a kick from "Honest" John Kelly, who holds the purse and will referee the fight if it is fought. Kelly got here this evening and the first word he said in relation to the fight was that absolute police protection must be guaranteed by the club or he would not act as referee. Kelly makes this demand because he does not want to be put in the unpleasant position of having to award the purse in an unfinished fight. Kelly says that in such an event a great howl would go up. The club would make a big kick and every man who had money on the man whom Kelly decided against would be heard from. Kelly proposed to see Corbett and Mitchell immediately and find out what they would demand in case the fight is unfinished. As far as the club is concerned, it will guarantee anything provided it can get the crowd on the scene and scoop in the cash.

If Vendig makes the application he will be summarily sat upon. No United States court is going to interfere with a Governor who is trying to prevent what is claimed by the Attorney General of the State to be an infraction of the police provisions of the The only obstacles in the way of the fight now are the Governor of Florida, "Honest" John Kelly's demand for police protection and the failure of the club to dispose of enough tickets to come out about even. Should the club satisfy Kelly, succeed in eluding the Governor, sheriffs and State troops, and pocket enough money from ad-

many manifestos and defiances the crowd is showing up very slim. In spite of the bold front of the club the Southern Associated Press correspondent has inside information that there is a blue feeling about the pros-

pects for a crowd.

The box and reserved seat tickets for the contest, printed by the American Bank Note npany, were received this morning by the nb, and are now on sale Two gentlemen entered the office to purchase tickets. They wanted a guarantee of front seats, but this Mr. Bowden would not give them, at the same time intimating the price might be raised, but that all tickets purchased now would be honored at the arena, regardless of the admission fee at that time. At the same time the club's manager emphati crease very largely the tickets will likely be advanced to \$50; if the club cannot get in enough money at that figure to prevent a will be thrown up and there will be no

Everything has already been arranged by the club for the erection of the ring and the accommodation of the people and, according to a Duval Athletic club official, the entire arena can be finished complete within two hours. The wire fence has already been constructed in sections, the wire bein attached to posts sharpened at both ends, which can be driven in thirty minutes, constituting a formidable barricade Everybody, of course, is guessing where the contest will be held, but the club people wages are lower and the companies are saving money in other ways. All these matters have induced certain operators to take hold of the stock market, and the concessus of concessus of the idea in view of the information received the idea in view of the information received the idea in view of the information received here that Governor Northen is notifying

"The bill exempts all incomes of \$4,000 and less. In other words, a man who has an annual income of \$4,000 pays no tax. A man with an annual income of \$4,100 pays a 2 per cent. tax on \$100, which is the excess above \$4,000. A member of Congress, for example, is taxed 2 per cent. on \$1,000, the other \$4,000 of his income being exempted by the law. It is well that the public should understand this for the impression seems to be general that where one's income exceeds \$4,000, one is taxed on the full amount, which is not

It grew out of an item Merritt sent the Times, saying the Chamber of Commerce had criticised the lack of enterprise on the part of Raleigh newspapers, to which Andrews replied in strong language. Neither party was hurt, though Merritt used a cane and fists and Andrews fists. The mayor fined each \$10 and costs and Andrews was required to give a peace bond.
