Senator Hill to be Married. CINCINNATI, March 10.-A despatch from Louisville, Ky., says: Kentucky society is in a flutter to-day by the announcement of the reported engagement of Miss Letty Scott, a well-known belle, and Senator David B. Hill, of New York. The report lacks confirmation or denial, for the reason that both parties are at present at Washington. Miss Scott is the niece of Vice resident Stevenson, and, according to the it report printed in an afternoon paper, she tone Ills., is the place of her nativity, she is the daughter of a Kentuckian, her father, the late M. L. Scott, having resided at Lexington. Her mother and Mrs. Stevenson are sisters. Her relatives here refused to discuss the reported engagement.

He admits that he loaned A. M. Basket money—about \$200 in all; that the object of such a ioan was the prosecution of his (Basket's) candidacy for the the Hender-son post-office. BRITISH POLITICS.

SPEECH IN PARLIAMENT.

Not to Embrace the Entire Policy of the Administration-Lord Rosebery Silent as to His Policy Towards the House of Lords -The Approaching Demonstration Against

the Peers. LONDON, March 10 .- [COPYRIGHT.]-The outlines of the Queen's speech, which will be read at the reopening of Parliament next week, will not be communicated to the leaders of the opposition before to-morrow evening. Enough is already known to justify the prediction that the speech will be about the shortest one on record, simply canvassing the unfinished business of the Gladstonian programme. The bills for registration reform, Welsh disestablishment, the relief of evicted tenants in Ireland, and the amendment of the factory acts, are expected to cover most of the positive part of the document. Extra grants may be demanded, moreover, for several purposes. If the speech, as the outlined, were all the Liberals had to rely upon for disclosure of Lord Rosebery's policy, a general revolt of the party would be inevitable. The undoubtedly announce to them at this conference the continuance of the Gladstonian home rule programme in its entirety. He

will express his approval of the policy followed by John Morley, Chief Secretary for Ireland and, probably, will placate the Radical wing of the Ministerials with a declaration in favor of his hobby, the principle of federation for the United Kingdom. He is likely to propose the realization of this principle with the formation of grand central committees for Scotland. Lord Rosebery's attitude towards the House of Lords remains doubtful. Unless he promises a bill restricting the veto power of the Peers, he cannot expect smooth sailing with the Radicals, for Labouchere and his supporters would certainly now his supporters would certainly move to amend the address with some hostile clause concerning the Upper House. The impression in the Ministerial circle is that the Prime Minister will suggest an interim measure, giving the Peers the right to sit in the House of Commons, as a preliminary to a sweeping reconstruction of the whole system of hereditary Legislatures. In a let-ter written in 1888 Lord Rosebery declared

that he favored allowing the Peers the option of the Lower House. His supporters now argue that the occasion is inopportune for any more comprehensive reform.

The Liberal conference at the Foreign Office will be addressed also by Sir Wm. Harcourt, Chancellor of the Exchequer and leader in the House of Commons. Under the initiative of the American committee, the commission of International arbitration is being pushed among the Britobjectsional district to elect a successor to

> their operations and are already forming an enlarged committee to be composed of cler-gymen of all Christian bodies and of conspicuous politicians.
>
> Arrangements for the demonstration against the Peers on March 18th are being completed rapidly. The demonstration will be enormous beyond all expectations. More than 220 London societies and unions will take part in it and hundreds of committees will come from the provinces. Altogether, more than 200,000 men are expected to

march in the procession. Charles Fenwick, the colliers' member of Parliament for the Wainsbeck division of Northumberland, caused some consternamoners after he had been selected to second the address. He declined to wear the traditional levee costume, protesting that his every-day clothes were good enough for the occasion. The Government eventually asexciting considerable criticism.

> McKane Short a Half Million Dollars. NEW YORK, March 10 .- A committee of citizens of Gravesend have for the last ten days been examining the accounts of the town, and are said to have found many irregularities. Town bonds have been found in Brooklyn banks where they had been hypothecated by McKane. This afternoon it was announced that the town board of auditors had discovered that about \$500,000

> paid to McKane during the year 1893 had not been accounted for. Of this amount 11,000 from the treasurer to pay town bills, and \$6,500 from the excise commis-sioner. It is said that part of this money has been used by Mr. McKane to pay contractors and other creditors of the town, but whether it is true or not, the fact remains that the town auditors have no vouchers or other documents accounting for any part of this half million dollars.

The South Carolina Election. CHARLESTON, S. The result of the election has been in great doubt, because the election has been in great doubt, because three candidates have been in the field.
They are Gen. James F. Islar, of Orangeburg, who stands on the Democratic platform and is entirely in sympathy with the President and his policy; Dr. J. Sullivan, of Charleston, who has been running on his Charleston, who has been running on his own hook with the promise that Stokes would retire from the contest and leave the race to him. But Stokes will not retire, and Sulliyan to-day resolved to withdraw from the contest. HOUSE PROCEEDINGS.

Washington, March 10 .- The Speaker laid before the House the answer of Secretary Herbert to the resolution of Representative Boutelle, conveying the information asked for regarding the orders placing the naval forces at Honolulu under the orders of Com missioner Blount while acting in that capacity. It was referred without action to the Committee on Naval Affairs.

The substance of the answer is that the action was necessary to prevent a conflict of authority, and that the secretary's authority for issuing the order was the President, the commander-in-chief of the United States army and navy. A number of precedents for this action are cited.

The House then resumed, in Committee of the Whole, consideration of the District

of Columbia Appropriation bill.

Mr. De Armond endeavored to amend the bill by making the District property owners pay three-quarters of the school expenses, instead of one half, as the law provides, but his motion to that effect was defeated. On motion of Mr. Goldzier the bill was amended so as to prohibit the purchase of any school books or supplies in which any teacher or official has a pecuniary interest. Mr. De Armond moved to amend the bill by requiring the payment of interest in the District bill amounting to \$1,213,948, to be paid wholly out of the District revenues, but was unsuccessful.
At 3:25 o'clock the bill was reported to the House with a favorable report. The amendments, which were agreed to, increased the

otal amount carried by the bill by \$49,200, making it \$5,206,773. Futile motions to recommit the bill were made by Messrs. De Armond and Walker, and at 3:30 o'clock it was passed—111 to 11.

On motion of Mr. Sayers the House, in Committee of the Whole, took up the Sundry Civil Appropriation bill, making it the unfinished business for Monday's session.

An unsuccessful attempt was made by Mr. Sayers to reach an agreement respecting Mr. Sayers to reach an agreement respecting the time to be devoted to general debate and at 3:45 o'clock the committee arose and the

CHICAGO, March 10 .- Outside of guesses as o what would be the tenor of the Government report, but little interest was centered in wheat to-day. Cautious and conservative operators, no matter which side the market they were identified with, evened up their trades so that they could start afresh when they had learned the amount of wheat still remaining in farmers' hands, which would be given by Statistician Robinson this afternoon. May wheat opened ic lower than yesterday's close at 50%c, de-clined to 50%, advanced to 50%, closing with

a loss of 1 to 1 for the day.

Corn, like wheat, showed activity only in the line of squaring accounts. The trade came to the conclusion early in the day that whatever the Government report might be, t would more likely encourage the holder han the short sellers and the latter therefore bought to cover. May corn opened un-changed from yesterday, ranged between 37c and 37‡c, closing to higher than yester-

day at 37%c. Oats were firm entirely out of sympathy with corn. The opening was rather easy, but a rally followed on buying by several of the larger firms. At the close a gain of ½c for he day had been recorded. Provisions opened weak and lower, and with the exception of a reaction just before he close, that was the condition of the market throughout the session. The reaction mentioned carried prices for pork to the closing point of yesterday, that being the last price to-day. There was much activity in the trade. An unsatisfactory hog market was the basis for the bad start and the firmer feeling in grain later in the session furnished the reason for the recovery.

Not Coming South.

NEW YORK, March 10 .- George E. Stockhouse, secretary of the New York base ball management, said to-day that the New York team would not make the Southern trip, as was contemplated some months ago. "The idea was abandoned," he said, "because the Southern league members did not get to-gether soon enough for our team to make the trip. If our boys went down South now they would have no teams to play with. Ward has ordered his men to report here March 26th so as to open the season on the 29th for the preliminary games with college teams and minor leagues. The regular championship games will begin April 19th. The opening game will be played in Balti-more with the Baltimore team.

ESTIMATED RECEIPTS

WILMINGTON, N. C., SUNDAY, MARCH 11, 1894.

OF REVENUE RAISED BY THE SENATE TARIFF BILL.

The Amount Placed at \$411,000,000 Against \$385,000,000 Under the House Bill, Leaving a Deficit of \$32,000,000 - Greatly Decreased Holdings of Wheat and Corn by Farmers.

Washington, March 10 .- A rough state ment of the results of the experts' figuring The estimated receipts from customs i the amended Tariff bill, as reported to the full Senate Committee on Finance, amount to \$165,900,000 in round figures. From internal revenue, including the income tax and the additional tax of 20 cents a gallon on whiskey as imposed by the Senate, the increased tax over the House rates on domestic cigars and cigarettes and the tax on playing cards, it is estimated the receipts will amount to \$63,000,000. This \$63,000,000 of internal revenue tax is additional to the ent rates, and will make the entire receipts from internal revenue, as proposed by the amendments to the Senate bill, \$229,000,000. Adding to this amount \$161,000,000 now received from other sources of internal reve-

ceived from other sources of internal revenue taxation under the present law and \$21,000,000 from miscellaneous sources gives \$411,000,000 as the probable net receipts under the bill as approved by the Democratic majority of the Senate Finance committee, as against \$385,000,000 derived last year from the same sources of revenue under the McKinley act. the McKinley act.

The Wilson bill as passed by the House, carried an estimated deficit of \$73,000,000.

The bill as reported to the Finance committee of the Senate carries with it a deficit of \$32,000,000 only, a little more than half the deficit created by the House bill. House adjourned until 11 o'clock Monday.

The statistical returns of the Departmen of Agriculture for March consist principally of estimates of the distribution of wheat and corn, the amounts remaining in farmers' hands, the proportion of merchantable corn, and the average prices of both the merchantable and unmerchantable. The report is based upon returns of a corps of correspondents in each county of the United Of Chicago.

New York, March 10.—American Sugar was the feature of the stock speculation to day. The stock ranged between 90 to 93s and closed at 91, a net gain for the day of 1s per cent. The corn in producers hands, as estimated, aggregates 589,000,000 bushels, or 36.4 per cent. of the crop of 1893. This proportion is less than for any year in the past five, except that of 1891. The aggregate of corn in farmers' hands in the surplus States of Ohio, Indiana, Illinois, Iowa, Missouri, Kansas and Nebraska is 61.1 per cent. of that in farmers' hands in the entire country, being in quantity 360,000,000 bushels. The final estimates will probably still further reduce the total for 1893, as the preliminary estimates for Russia and Gernany are generally reduced by the final

The celebration was arranged nominall by the American League. Salutes were fired by the Philadelphia, Naniwa and Champion. Public exercises were held in the drill shed at 3 o'clock p. m., Dr. Mc-Grew presiding. The American Minister sat with President Dole. At the close Min-ister Willis was marked in his attentions to the speakers, especially to his outspoken critic, W. G. Smith. His cordial manner to the engagement must be fought at night. the Provisional Minister was also marked Mr. Willis has manifested much cordiality towards the Ministers, the other day meeting President Dole and strolling with him to the President's office for a half hour's chat, The most serious alarm has been taken by he Government at the fact of a very large number of arrivals of steerage passengers from Victoria and San Francisco during January and February—more than 100 in excess of what might be expected. About that number are evidently Canadians and Englishmen, corresponding to the class re-ported to have been enlisted at Vancouver by Sansome. More than ten of these men have been marked as wearing military badges of honor. Sixty such men are marked as lodging together at different houses. They are not in pursuit of employment, and evidently are supplied with means of subsistence Their sympathies are with the Royalists and are not concealed, as they are known to be in communication with them. From to be in communication with them. From various sources of information the police are entirely satisfied that these men are persons enlisted by Sansome, and that a decisive move to get possession of the Executive building with the aid of these men is fully planned by the Royalists, to be executed within a few days.

A Swindler Caught. PHILADELPHIA, March 10,-A man about 37 years of age, giving his name as Daniel C. Camp, of Georgia. was arrested this afternoon on the charge of attempting to swindle Strawbridge & Clothier, rejail dry goods men, out of \$1,000 by presenting checks for \$2,000 on the Maddox-Rucker Banking company, of Atlanta, Ga. Camp represented himself as the buyer of J. M. High & Co., dry goods merchants of Atlanta, and bought \$400 worth of silks. In payment of the bill he offered checks drawn on the Maddox-Rucker bank. The large amount of the check excited suspicion and Camp was put off with excuses while a telegram was sent to High & Co. asking if the man represented them. A reply was received that the man was a swindler. Camp has attempted to pass similar checks on John Vanamaker and presented a letter purport ing to be written by Secretary of the In-terior Hoke Smith, to the effect that the bearer was an honorable business man and

could be trusted. North Carolina News.

[Richmond Dispatch.] It is said that Gen. Hampton, of Jackson county, N. C., will not, after all, be ap-pointed a chief in the Treasury Department, but will be given a position under the North Carolina State Government. Congressman Henderson, of North Caro-lina, said to-day that the Senate's revision of the tariff bill would have suited him better if the tobacco section relating to cigarettes and cigars had been let alone. However, he was glad to know that no increase was made on smoking and chewing tobacco. Another letter just received from Senator Vance states that he continues to improve in health. For the past two weeks he has been at Suwanee, Florida. He does not expect to return to Washington until about the 1st of April. March is too variable a month for weather here, and his physician thinks the Senator should take no chances.

A NARROW ESCAPE!

How it Happened.

The following remarkable event in a lady's life will interest the reader: "For a long time I had a terrible pain at my heart, which fluttered almost incessantly. I had no appetite and could not sleep. I would be compelled to sit up in bed and belch gas from my stomach until I thought every minute would be my last. There was a feeling of oppression about my heart, and I was afraid to draw a full breath. I couldn't sweep a room without sitting down and resting; but, thank God, by the help of New Heart Cure all that is past and I feel like another woman. Before using the New Heart Cure I had taken different so-called remedies and been treated by doctors without any benefit until I was both discouraged and disgusted. My husband bought me a bottle of Dr. Miles' New Heart Cure, and am happy to say I never regretted it, as I now have a splendid appetite and sleep well. I weighed 125 pounds when I began taking the remedy, and now I weigh 130%. Its effect in my case has been truly marvelous. It far surpasses any other medicine I have ever taken or any benefit I ever received from physicians."—Mrs. Harry Starr, Pottsville, Pa., October 12, 1892.
