According to the Secretary of War, Gen. McCook can use his troops at Denver only for the purpose of protecting the Federal Government until Governor Waite confesses his inability to preserve order by State authority and calls on him for aid.

—It was rumored in Washington City yesterday that Col. Breckinridge and Mrs. Wing were secretly married in New York on April 29th last, three months before the public ceremony was performed, and before he took Miss Pollard to the home of Mrs. Blackburn as his future bride.

—Miss Pollard testifies in her own behalf, giving the history of her life. She says that in August, 1892, Col. Breckinridge asked her to marry him. The session closed with Miss Pollard still under cross-examination.

—The order will need no more assistance from the public. —Jerre Horlbeck, hanged in the Berkeley county, S. C., jail yard for murder, attempted to commit suicide a short while before the execution. —The disagreement in the Southern Railway and Steamship Association has been practically settled.

—The certificate of marriage of Col. Breckinridge and Mrs. Wing, filed in New York, shows that they were married in that city April 29th, 1893, by Rev. John B. Paxton, a Presbyterian minister, at his residence. Dr. Paxton says he was requested to withhold the marriage certificate by Col. Breckinridge, because his wife had been dead only nine months, and after the public marriage he was urged to suppress the record.

The Effort to Abolish the Coast and Geodetic Survey—Gen. Sickles Relates an Interesting Incident—Improvements of the Mississippi and Missouri Rivers Subject of Adverse Comment.

WASHINGTON, March 16.—After an unimportant routine proceeding at the opening of the day's session the House went into Committee of the Whole on the Sunday Civil Appropriation Bill. The pending question was on Mr. Enloe's amendment directing the Dockery Commission to investigate the coast and geodetic survey with a view to determining whether or not its work could be more effectively and economically performed by the Navy and Interior Departments.

—The work of the survey and the administration of Superintendent Mendenhall found warm defenders in Messrs. Outlaw, Mahon, Conder, Sickles and Hooker.

—Gen. Sickles related an interesting incident in connection with the international geographical convention in Paris several years ago. He acted as the representative of the American Geological Society and had on exhibition a modest collection of the scientific publications of the Government, largely the productions of the coast and geodetic survey.

—The following amendment was proposed by Mr. Dingley: "Provided, that nothing herein shall be construed to diminish the salary of any officer or employee applicable to the coast and geodetic surveys."
