The drop fell at at 12:071 o'clock About 250 spectators were present. When the noose was placed around Higgins' neck he said: "Good bye" and had becun to repeat the first line of the Lord's rayer when the drop fell. The noise of of the falling trap reached the prisoners in the other side of the jail, and scores I them shouted two and three times in eccession: "Hang Prendergast." The murderer was pronounced dead in five minutes, and after the usual injuest the body was given over to the relatives. Brief funeral services were held in the chapel attached to the cathedral and the interment took place this evening. A mob nearly 1,000 strong, composed in the main of residents of the "tough" district in which Higgins resided gathered about the jail and hooted and yelled for an hour previous to the execution. A cordon of police made a charge at noon and drove the crowd back for a block. FIVE TONS OF DYNAMITE Exploded in a Mill Near Pittsburg-Five Persons Killed-Four of

them'Blown to Atoms PITTSBURG, March 23.-The dynamite works of the Acme Powder company, at Black's Run, fourteen miles above Pittsburg, on the Allegheny Valley railroad, blew up this morning, killing two men and three women, wrecking houses at Acmetonia, on the opposite side of the river, at Hulton, two miles south, and at Johnson station, a short distance east. The only person about the powder plant who survives is Superintendent James

who survives is Superintendent James Mooney. His legs were shattered, and will probably have to be amputated.

The following is a complete list of the killed: Wm. Arthurs, aged 30 years; his wife, Belle Arthurs, aged 19; Sadie Remaley, aged 30; Nellie Remaley, aged 35; Charles Robinson, aged 20. Nellie Remaley was injured by falling timbers in an adjoining building and died on the train bringing her to a hospital in Pittsburg. The other four were literally ourg. The other four were literally blown to pieces. Fragments of their bodies were scattered over a radius of one and a half miles. The largest portion of the remains yet found is one of Robinson's feet. It was picked up fully half a mile from the scene of the explosion. There were, it seems, two explosions. The first occurred in the packing house, in which those who were killed were at work. This building was scattered to the winds. An instant later there was a terrific explosion in the mixing house, which razed the building and machinery to the ground. The surrounding forest has the appearance of having been mown down by a gigantic scythe. The hole blown in the earth has the appearance of a monster cellar. The cause of the explosion will probably never be known. Mr. McAbee, the principal owner of the plant, estimates his lost at \$15,000. Five tons of dynamite were stored in the building ready for shipment and it all went in the

Congressmen vs. Capitalists. WASHINGTON, March 23.-The situation at the White House presents one strong feature of novelty in the fact that it appears to be the scene of a bloodless battle just now between the Congressnen on the one hand, the large majority of whom are urging the signing of the Seigniorage bill, and the great commercial interests of the country on the other; the communications coming from them re on the field, but the other side is in evidence in great force in the enormous number of letters that burden the Presidential mail and of House operator occupied to his full mail and wire are coming from all parts ing, and without debate or division the House agreed to the resolution as resupposed, altogether of Eastern origin supposed, altogether of Eastern origin. orted,

bill was then taken up in committee of Louis, San Francisco and Salem, Ore. Virginia has also joined the line, as was made evident by protests of the bill. It appropriates \$400,438-a against the bill from the cotton factors of Norfolk and the transportation interests there. A very thoughtful presentation of objections to the bill has come festly impossible for the President to read himself in detail all of these communications, but they are carefully examined by Mr. Thurber and any new Mr. Reed inquired of Mr. Wheeler what | point or suggestion on either side of the case is brought to the attention of the The Commonweal Army. Massillon, O., March 23,-At dusk

this evening two weary travelers, with bundles swung across their shoulders, arrived here overland from Twinsburg, Mr. Reed thanked Mr. Wheeler for the O., and took up their quarters in an abandoned freight car on the outskirts of the town. They constitute the guard of Coxey's great Commonweal army and are as yet all there is to it. Gen. Coxey and Chief Marshal Brown have been flying about all day making speeches from the tops of nail kegs, submitting to interviews and indulging in calculations for the march that is to begin Sunday. Gen. Coxey received nearly a bushel of letters to-day from all parts of the country, several of them containing money in amounts ranging from a 2-cent stamp up to a \$1 bill. There were two checks for \$1,000 each and several for smaller amounts. These pieces of paper are closely guarded by Gen. Coxey, but it is the opinion that they are not worth any more than the ink with which they are written. Gen, Coxey has received assurance to-day that over 20,000 men will reach Massillon before noon Sunday, the time set for beginning the long march. Most of the letters to-day containing these assurances bear "fake earmarks," but Coxey and Brown take them in sober earnest and are now positive that this will be the greatest event since the war. Just now the Commonweal army exists on paper only.

THE ANTI-OPTION BILL

WILMINGTON, N. C., SATURDAY, MARCH 24, 1894.

ORDERED TO BE FAVORABLY REPORTED TO THE HOUSE.

Synopsis of the Terms of the Bill—To Establish a Naval Station in the Hawaiian Islands, Involving a Protectorate Over the Islands-The Commonweal Army Causing

No Apprehension. WASHINGTON, March 23.—The House ommittee on Agriculture to-day perfected the Hatch Anti-Option bill and directed Mr. Hatch to report it to the House favorably. The vote on the bill was 12 to 2 as follows: Yeas-Messrs. Hatch, Alexander, Shell, Forman, Moses, Capehart, Sibley, Marshall, Schermerhorn, Hainer, Williams and Flynn, all Democrats except Messrs. Hainer and Flynn, Republicans. The opposing votes were by Republicans.

The bill, as reported, defines "options" and "futures," and provides that all such transactions or assignments shall be in writing and signed in duplicate and shall state in explicit terms the time when the right or privilege of delivering the articles shall expire. Dealers are to pay a special tax of \$12, and every person who, in his own behalf or as an agent, broker, or employe of another, deals in options or futures or makes any contract for their transfer, shall be deemed a dealer in options and futures. Contracts are required to have affixed to them internal revenue stamps representing taxes as follows: For every 10,000 pounds of cotton, hops, pork, lark or bacon, dried or salted meats, and for every 1,000 bushels of wheat, corn, oats, rye, and barley covered by the contract, 1 cent; and nails are said to be selling lower every bill of sale, executed at termination of contract, 2 cents.

Every cancellation clearance, settlement, acquittance, contango, backwardation, privilege or waver, or other agreement by which the-"options" or 'futures' are terminated otherwise than by actual sale and delivery, or such termination is delayed or obviated, is required to have internal revenue stamps, epresenting taxes, affixed as follows: for every pound of raw or unmanufactured cotton, hops, pork, lard, bacon, or salted or pickled meat, 1 cent, and for every bushel of wheat 3c, for corn, oats, rye and barley 2c.

Admiral Walker's formal orders direct nim to sail from San Francisco April 5th by steamer for Honolulu. The announce ment some days since that the President would make use of the \$250,000 appropriated for naval stations in 1892 as soon as possible in Pearl harbor, Hawaiian Islands, is fully confirmed by the statement of one of the highest officials of the Government that Admiral Walker goes to Honolulu for no other purpose than to establish a naval station of the United States, and to provide against any possible attempt by any foreign power to secure a footing in the affairs of the Government there. It is understood that the Admiral will be authorized to secure the necessary land for the naval station and to take possession of it. He will leave San Francisco the second week of April and hoist his flag on board the Philadelphia on his arrival at Honolulu. Admiral Walker will be relieved from the command of the Pacific station as soon as his mission is completed. But the completion of his mission will involve the practical establishment of a United States protectorate over Hawaii by the occupation of Pearl harbor as a

Inited States naval station. There is one circumstance which may interfere with the main feature of Gen. Coxey's announced programme at Washington. It has been stated that the main object of his bringing his army here is to assemble it on the steps of the Capitol on the 1st of May for the purpose of impressing its views upon Congress. To do this it will be necessary to first secure authority from Congress, as there are specific acts upon the statute books foroidding the assemblage of crowds in the Capitol or on the Capitol grounds, or the holding of any sort of public meet-ing except the sessions of Con-gress, and the assemblages which are incident to the inauguration of a President. These laws go to the extent of forbidding organized parades through the Capitol grounds. The law is also very strict in regard to the invasion of the grounds, and when societies are given permission to march through them they are required to keep strictly upon the walks and drive-ways. Only on the occasion of inauguration are people permitted to overrun the grounds.

The commissioners of the District of Columbia have not considered, as a board, the impending invasion of Gen. Coxey's army. Commissioner Ross was asked what the plan of reception would be. He is not inclined to look upon the matter seriously and said: "It is hard to believe that sensible people will enter into any such move. If it is a body that threatens the peace it is to be supposed that the Governors of the States will arrest its progress. We will probably not take any action until we hear that the body has started. There does not seem to be anything of the organization yet. When we hear that it has actually started and is moving on Washington, instructions will be given to the police to properly deal with them." It is said by the chief of police that exsting laws are ample for the occasion.

R. G. DUN & CO.

Report a Very Peculiar State of Trade and of Manufacturing Industries. New York, March 23.—R. G. Dun & Co.'s weekly review of trade to-morrow

will say: It is perplexing to be obliged to report that business grows larger in volume, at the same time not more profitable. Uncertainty does not diminish, but has rather increased in the judgment of many commercial bodies which have urged the President to yeto the Seigniorage bill. Prices of commodities do not rise, but are on the whole about 1,5 per cent. lower than last week, though then the lowest ever known in this country, and are 12.9 per cent. lower than a year ago. No more gold has gone abroad, and stocks average and stocks average only 3 per \$100 higher for railroads last week and exactly the same for trust stocks, but some foreign purchases and the intervention of a holiday explain the steadiness More mills are at work, though the proportion of productive force unemployed is still from a fifth to a third in different branches of industry, and many mills are stopping because their orders have run out, even while a larger number are starting with orders enough for a time. The prospect of getting constant or remunerative employment for works and hands does not change. The fact that orders keep only part of the force at work while both prices and wages tend downward, though spring is near at hand, renders present business less profitable and the future less promising. The starting of four furnaces by the Illinois Steel company and one other at Pittsburg increases the output of iron and some large sales have been made at the lowest prices yet reported, with indica-tions of continued demand for structural

work, especially at the West. On the other hand, the demand for wire in various forms which led the way to the improvement seems to slacken than ever, below 1c. A reduction of 60c in freights from Pittsburg to Tidewater only adds to Western while it takes from Eastern business.

In shoes some concerns which have been running on large orders for cheap goods find their orders exhausted but for other medium and low priced goods the demand is improving and shipments from Boston for the month thus far have been 16.1 per cent. less than last year. Textile industries are answering the growing demand for replenishment of stocks with hand-to-mouth production. Some mills are getting orders enough to start, and others which have filled or-Every person engaged in dealing in ders in sight stop without trusting to fulation of print-cloths continues. A large

ficial Announcement of His Death. BUDAPESTH, March 23.-An enormous and excited crowd assembled this afternoon in front of the Parliament house, which was strongly guarded by police. Led on by the students, the people filled the air with shouts and threats, insisting that Parliament was not doing sufficient to honor the memory of the dead patriot, Finally the crowds made a rush toward the doors of the Parliament house and a sharp engagement with the police followed. The police, strongly reinforced, charged upon the mob and drove them back, but the excited mob seemed determined to force an entrance and it required a number charges before the crowd could be

forced back within a reasonable distance. The police had great difficulty in keeping a passage way for the Deputies when they arrived, but when it was noticed that all the Representatives wore mourning the people became better humored and cheered the deputies. Inside the Parliament house there was

a large attendance of Deputies and the public galleries were crowded with people either dressed in morning or wearing mourning badges. When the President arose to address the House the Deputies arose and stood in profound silence and with bowed heads while he announced the death of Louis Kossuth. He concluded his remarks by asking for the unanimous adoption of the proposals made py Dr. Alex Wekerle, president of the council, who at the conference of the Liberal members of the Hungarian Diet, last evening suggested that the House express the nation's gratitude for the service rendered by Kossuth, send a telegram expressing sympathy with the family of the dead general, and that a deputation of members of the Lower House be appointed to go to Turin to place a wreath upon Kossuth's bier, the House to adjourn until after the funeral Dr. Wekerle had declared that should any further demands be made, such as the passing of an act placing Kossuth's services on record, or providing for the State's defraying the funeral expenses, it would be impossible for the Government to ignore the fact that Kossuth, to the end of his life, opposed the existing

legislation of Hungary.

After the President had made the oropositions agreed upon with Dr. Wekerle, M. Just, leader of the Hungarian Independents, warmly protested garian independents, warmly protested against them as being inadequate. He extolled Kossuth's services to Hungary and moved that the expenses of his funeral be borne by the State, that his services be recorded in an act of Parliament, and that the municipal authorities be instructed to close all the the afres until after the funeral. Finally he proposed a vote of thanks to the Italian Government and the municipal authorities of Turin for the hospitality which they had extended to their exiled pa-

Commercial travlers and merchants speak very hopefully of the business outlook. Trade is better than at this time last year. Farmers in most cases have some ready money. It is alleged by many farmers that much cotton is yet held on the farms, and that there is quite a disposition not to sell it at a price under 10 cents, some placing the figure at 9 cents.

orsville burglars, has been captured in the Brushy mountains, in Wilkes county. Much jewelry was found on his person.

The stores of J. M. Coffin and McMillan, at Eagle Mills, Moore county, were burned last Saturday night. The incendiaries have been caught and are in jail.

The party of white men who waylaid and shot Deputy Collector Gibson and his posse, have all been held for trial.

They are two negroes. Property stolen from the burned stores was found in prices, styles and qualities of goods. Dr. T. D. Hogg and a party of ladies left here to-day for Salem, N. C., to at-tend the beautiful Easter services at the MUNSON & CO Taylor's :: Bazaar. Five persons are concerned in this case Our : Spring : Opening
