The shock completed the destruction of many buildings damaged by former disturbances. There was camping in the open country.

There have been numerous curious results of the earthquakes. In Aidipso fully 100 fresh hot springs have been tory, has appeared and numerous subsidencies of portions of the coast have occurred. A Russian man-of-war is conveying food and timber, the latter for the erection of places of shelter for the the erection of places of shelter for the nual address to-day. afflicted districts.

HILL THE KICKER.

TAX OR NO TARIFF BILL.

Votes to Adopt the Finance Committee's Compromise Tariff Bill-Senator Hill Alone Opposes the Action of the Caucus in This

Matter. WASHINGTON, May 3 .- By a vote of 37 to 1, six of the forty-four Democrats being absent, the Democratic Senators in caucus to-day adopted a resolution agreeing to support the bill of the Finance committee, including the compromise amendments that have been agreed upon by the many conferences of Democratic Senators during the past two week. The resolution was presented by Senator Gorman and discussed at some length, as the session lasted from a few minutes past 4 o'clock until nearly 7 o'clock.

The six absent Senators were Senators Mills, Murphy, Lindsay, Irby, Butler and Gibson. It was claimed that they were all accounted for and assurances were given that they would support the Tariff bill. The only persons in whose absence there might be any significance are Senators Murphy and Mills, the understanding being that all others were in accord with any bill supported by the

majority of the Democratic Senators. Senator Mills was not at the Senate during the day and the call for the caucus was sent to his house. It is be-lieved that he has some objections to the concessions that have been made, but he has previously announced that he would support any bill that provided for reductions in the present law. Senator Murphy's caucus notice was also sent to his residence as he was absent from the Capitol. His position has all along been one of doubt, but sev-eral Democratic Senators assert that he will support the bill, and he is counted in the forty-three which are claimed as certain to yote for the bill. The other absentees are either out of the city or failed to secure notice in time. Some of them have been counted as against the bill and it was said that they would endorse the action of the caucus.

In presenting the resolution and stating the object of the caucus, Senator sions in order to secure the united support of the party and he further asserted that it would need a Democratic majority to pass the bill. He stated that concessions had been made on all sides and it was believed that the measure with the proposed amendments would now meet with the support which was absolutely necessary to pass a Demo-

Senator Jones, of Arkansas, the member of the Finance committee who has taken the most active part in the preparation of the amendments, known as the Compromise bill, made a speech in which he explained at length the proposed amendments and told why they were necessary. He did not discuss nor read all of them, and selected the most important and those affecting the greatest

Senator McPherson, of New Jersey, spoke in support of the resolution and dwelt at some length upon the concessions which Northern and Eastern Democrats had been obliged to make and what they had to give up in order to meet the demands of the South and West. He claimed that the concessions that were talked of by the other Senators were not wholly on one side,

Senators Palmer and Vilas made long

Great interest centered in the speech of Senator Smith, of New Jersey, and his remarks were received with a great deal of satisfaction, for while he said he was not satisfied with the bill and was unalterably opposed to the income tax, he was ready to support the measure with the amendments which had been agreed upon, although he claimed that what were called concessions by the Southern and Western men -were but small compared with concessions which Eastern Senators made in supporting the bill with the income tax provision. Senator Hill, of New York, was not

placated. He spoke only a short time, but it was long enough for him to convince the gaucus that his vote would not be for the bill if the income tax remained in it. He said his position was well known; he had made his statement before the country and there was nothing to add to what he had said. Whatever the so-called concessions might be, they could not compensate for a rider in the bill which neither the needs of the country or the party demanded. Without saying so in direct terms, there were none who listened to him who believed

The vote showed what those who had called the caucus expected. The conferences that have been going on among the Democratic Senators for two weeks had given the leaders the information as to how the different Senators stood, but they wanted official caucus action upon what had been agreed to in the conference room. The roll was called in order to place all on record and thirtyseven Senators voted in favor of the resolution and one Senator (Hill) against it. The vote was received with genuine gratification 4s many of the Senators believed it signified that the Tariff bill

Satisfactory Trial of the Marblehead. NEW YORK, May 3 .- The United States cruiser Marblehead steamed up the Louis receipts were 29 bales, shipments harbor on her return from her trial trip this morning and dropped anchor shortly after noon in the North river, The trip from which the Marblehead returned was her final inspection, and to at Norfolk. Georgia a reage is reduced 2 per cent., and the crop is ten to lifteen days late. The North steamed out to sea. At 2 o'clock she had The Marblehead left the Brooklyn Carolina State report complains of cold steamed out to sea. At 2 o'clock she bedraught. The sea was light and a faint breeze was coming from the southwest. She ran to the southeast. She ran 36.6 knots in two hours, making the average of 18.3 per hour, as registered trade, still had an unfavorable effect on by the patent log. She had at a previous trial run 19 knots under forced draught. still some long selling here, there was less pressure to sell. The net result todoubt the accuracy of the patent log. It was found to be nearly accurate, however. After the trial for speed, the Marblehead was put through 4 tactical trial in which she came out equally well as in

Dur ing the experiments on immediate den declines in the price of rupees have health-injuring symptoms were noticed but the men showed an unconquerabl dislike to the food prepared with peanut flour or grits. Its frequent use cannot be regarded as healthy or nourishing, Disquieting news was received at the treasury to-day from New York, concerning gold exportations. Rates of foreign exchange continue high and firm and, in consequence, large shipments are looked for. The reports are that at least \$5,000,000 will be withdrawn for ship ment from New York next Saturday India had been a crisis involving a waste with the probabilities that this amoun of money and mischievous fluctuations will greatly be exceeded. These shipments alone will reduce the gold reserve to about \$92,000,000. Of course the gold further severe decline, when the Gov-ernment of India would be unable to withdrawals do not diminish our cast resources. On the contrary, as United States and treasury notes are given in exchange for the gold, each withdrawal

sterling debt, increase the expenditures, increase the taxation, and to cause the Bank Officers Indicted. almost total abandonment of public JACKSONVILLE, Fla., May 3.—The United States grand jury in session has but it was plain that it must require returned several indictments against Nat Poyntz and Ollie T. Poyntz, president and cashier respectively of the suspended First National bank of Orlando, Fla., for embezzlement and making false returns as to the bank's condition, Directors Brooklyn, 3. Batteries-Mullane and Parramore, O'Neall and Lee, of the bank. have also been indicted for signing a false statement of the condition of the NEW YORK, May 3 .- New York, 4; New York, May 5.—New York, 4, Philadelphia. 7. # A Change for the Better

Suit has done good service and now looks shabby, would suggest putting it aside, if not for good, till next season at least. We are tired looking at it and know you would feel decidedly more comfortable and make a much better appearance if properly "diked" in one of our fashionable Suits Made to Measure or perfect fitting Ready Made Suits. They are the correct shape and make even a bad figure look like unto an Apollo. Too many Children's Suits espe-cially from three to ten years, and are closing out these sizes at cost. Shirt Waists at same figures. Negligee Shirts, Underwear and Belts at close prices Talk is cheap, while facts are stubborn things.

Is always desirable and as that old Winter
