SENATE. WASHINGTON, June 13.—The presenta tion of numerous petitions for the exception of beneficial societies from the propositions of the proposed income tax furnished an opportunity to Senator Vest to state on behalf of the Finance committee that the amendments asked for in relation to these societies were not necessary; but still an amendment had been agreed up by the committee to exempt those benevolent fraternal societies. The bill, as it was, did exempt from taxation all corporations that were

not organized for profit-all that were organized for charitable, religious or education process. These societies seemed to have agreed to the following amendment; to which the Finance committee had not the slightest objection: "That the exemption shall stand to those corporations, including fraternal beneficiary societies, organizations or associations operating on the ledge system and the reduced gold export, tions, operating on the lodge system and providing for the payment of life, sick, accident and other benefits to the members and the dependents of such mem-

Stocks and Bonds in New York-The Grains and Provision Markets of Chicago.

NEW YORK, June 13.-Speculation at the Stock Exchange to-day was confined almost exclusively to American Sugar and Chicago Gas, the first named ranging between 1001 and 1021, ex-dividend of 3 per cent, and closing at 1017. The stock was bought by the shorts, and the Havemeyer testimony that the company earned a profit of over \$10,000,000 a year for the past three years aided. Chicago Gas was in demand throughout and a new pool was said to be buying. The stock moved up from 77½ to 79½ to 79½ and the general list was characterized by firmness, and a higher range of quota-tions was established. The reported hitch in the settlement of the soft coal strike did not have any influence an easier Sterling exchange market and the recent successful placing of bonds by the Rock Island, the St. Paul and the Baltimore and Ohio roads. This, so the oulls claimed, indicates a revival of confidence in railroad securities and ought to lead to a broader and higher market for securities later on. Atchison was higher on the announcement that the plan of reorganization will be given out next week. The improvement in the railway list ranged from 1 to 18 per cent. The market closed firm at or about the top figures of the day. Total sales were only 125,000 shares, of which 42,000 were American Sugar, 19,400 St. Paul, and

3,900 Chicago Gas. Seventy-five thousand shares were listed and 59,000 unisted. The bond market was firm. CHICAGO, June 13.—The final outcome of the day's trading in wheat showed a net depreciation from yesterday's close of 11 to 18c. The weight of the selling was too much for even the effects of the to hold up against. At the start there was a firm and strong tone under running operations, but the pressure of long wheat was continuous and eventually succeeded in determining the direction of prices. July wheat opened from 61+ to 61%, sold between 61% and 59%c, closing at 59 c, with the loss above noted. Cash wheat was in good demand, but prices lost about 1c, the decline being due to the break in the futures.

was not represented by quite as big a The changes were, as a rule, governed by the larger market. There was heavy selling of corn at one time during the early portion of the session. July opened at 421 to 411c, sold between 421c and 411c, closing to under yesterday at 41gc. There was a fair demand for cash corn with prices firm early, but closing easier.

Notwithstanding the weakness of wheat and corn, oats held firm, and while not making much of a gain, were, nevertheless, in a better position at the than yesterday. June and September were unchanged. Cash oats were in good demand and firmer. Prices were

COAL CREEK, Tenn., June 13 .- All the miners in the Coal Creek and Briceville district resumed work to-day. This includes the Black Diamond mines, which have worked but very few men since the strike began. The miners returned to work at the old scale. A great number of objectionable miners were discharged. It is believed now that the strike is at an end here.

CRIPPLE CREEK, Col., June 13 .- No trouble has occurred over the opening of mines this week. Most of the agitators have left the camp. The Victor mine resumed operations to-day, and now over twenty mines are lifting ore. This afternoon 250 militiamen of the Second regiment escorted twenty-five prisoners to Colorado Springs via the Cheyenne Canon road and the soldiers will then return home. SITUATION IN SALVADOR.

The Refugees on the Bennington to be Surrendered to an Established Government-Preparing a Precedent for Probable Hawai-

ian Complications. WASHINGTON, June 13 .- It is stated on authority that as soon as the new Government in Salvador has fully established itself and is able to preserve law and order it is the intention of President Cleveland to direct the surrender of the refugees now on board the United States steamer Bennington to the proper officials-not, however, without the fullest guarantees on the part of Salvador that the prisoners shall be tried by an impartial tribunal, organized in conformity with the Constitution of the re-

from Commander Thomas, there still exists throughout Salvador a state of chicaffairs but little short of anarchy, and chi the members of the late Government who were given asylum on the Bennington, would, in his opinion, be murdered without any formalities whatever mo-

ment they reached shore.

It is said Commander Thomas was anxious for permission to take his refugees to Panama in the Bennington, or to put them aboard some outward-bound merchant vessel but was restrained from this proceeding, because this Government was opposed to establishing a precedent in the matter of granting asylum. While it is true that the naval regulations contain an ancient paragraph giving a commanding officer certain discretion to act in the interests of humanity in extraordinary contingencies, and that Commander Thomas is, in all probability, fully protected by that clause in the instance, it is also a fact that very grave complica-tions might result from a continuance of this old practice in modern times. The difference between the case in Brazil, where the refugees on the

Portuguese ship were revolutionists and at La Libertad, where they are members of an overturned Government, it considered scarcely matterial. The Hawaiian situation presents possibilities which the United States desires to be prepared to meet; for in case of trouble there the United States does not want to make it possible for British or Japanese ships to grant asylum. The demand which has been made on

United States Consul Pollock at Salvador for the extradition of the refugees on charges of robbery, does not affect the administration in its action, for the extradition treaty provides fully for its enforcement without governmental inter-ference. Should the Salvadorian refugees be regularly indicted under proper judicial procedure the courts of the United States would alone be competent to execute it if the refugees were within their jurisdiction. This matter will not be permitted to obscure what is considered to be the paramount one, that of granting

Reports from Salvador this morning show that the new Government there is as far from stability as ever and that the conditions requisite for the delivery of the Bennington's refugess are distant.

Liverpool declined 2 points, recovered this and, according to an erroneous dispatch to the exchange, then advanced 2 points more. But this proved to be a mistake. The net improvement for the day was only about i point. The spot sales there were 8,000 bales at unchanged prices. New Orleans advanced 3 to 5 points. Port receipts were 2,755 bales, against 857 this day last week, and 2,288 last year thus far this week 12,717 against 13,337 bales last week. trust committee again to-day. He was on the stand about half an hour and made only one important statement that was new. He declined to state the amount of money the American Sugar Refining company had contributed to State and local campaign funds, and asserted that this was a matter over which the committee had no jurisdiction. In this connection he reaffirmed his statement of yesterday, that the refining com-pany had contributed nothing to any National campaign fund. With reference to the question as to how much money the so-called trust had made in profits that could be attributed directly to the McKiniey act, he made the rather ambiguous answer that the profits that would be made under the Tariff bill now before the Senate would be about one-fourth of those made under the McKinley law. Mr. Havemeyer was excused at the conclusion of his testimony. It is understood that the committee has no authority to make him tell how much money the refining company contributed for State and local campaign purposes. The members of the com tee are very much gratified at the full and free statements made by Mr. Have-meyer and they are inclined to believe that he was entirely frank in what he

ob't P Bellamy,

OFFICE OF S. CHERRY, 21 Drayton Street, MESSES, LIPPMAN BROS., Savannah, Ga.; DEAR SIRS-I would like to add my testi mony to the almost miraculous effect of P. P. P. in the case of Mary Ingraham, a woman living on my place; she had a constant cough, sore throat, debility, etc., and was emaciated to a degree that she was unable to get out of bed unaided, being given up by physicians; she had taken the ruinous so-called Blood Medicines without the least effect, until being put under the P. P., she immediately began to improve and is now in as good health as ever in her life. You can refer to me at any time as to the

effect of P. P. P. in the foregoing case. Yours truly, SAMUEL CHERRY. For sale by all druggists. P. P. A wonderful medicine; it gives an appetite, it invigorates and strengthens.

P. P. Cures rheumatism and all pains in side, back and shoulders, knees, hips, wrists and joints.

P. P. P. Cures syphilis in all its various stages, old ulcers, sores and kidney complaints. nev complaints. P. P. Cures catarrh, eczema, erysipelas all skin diseases and mercuria

Cures dyspepsia, chronic female complaints and broken down con-stitution and loss of manhood. The best blood purifier of the age.

Has made more permanent cures than any other blood remedies.
