CLIFTON FORGE, June 29.—Col. H. C. Parsons was shot in the lobby of Gladys inn this morning at 5 o'clock. The shooting was done by Thomas A. Goodman, a passenger conductor on the Richmond and Allegheny railroad. He never spoke after being shot and died at 6:15 o'clock. Four balls from a double-action Smith & Wesson entered the body. One ball entered just under the right collar bone, one on the right and one on the left side of the abdomen, and one the left side of the head. Dr. W. A. F. Beverly Crump, Richmond, his attorney, directing him to procure and take charge of a certain important letter bearing upon the case, which, it is alleged, Col. Parons had written to General Manager Stevens, of the Chesapeake and Ohio railroad, seriously reflecting upon his

official conduct and character. RICHMOND, Va., June 29.—Capt. Thos. A. Goodman, the slayer of Col. H. C. Parsons, who resides in this city, is spoken of in the highest terms by his felow employes. He is a man between 40 and 45 years of age, and has been connected with railroads ever since he has been grown. He is a married man, and his family-consisting of a wife and two boys-is now summering at Afton, Va. The following statements, made by a railroad man who has been intimately acquainted with Goodman for the last

fifteen years, and to whom Goodman

often went with his troubles, are published

in an afternoon paper: "Goodman's mind is evidently unsettled by what he considers persecution from certain individuals in the Order of made by Col. Parsons to get him off the travel. road. The trouble with Parsons, it is said, grew out of Goodman's insisting that Mrs. Parsons should show a pass when she traveled on Goodman's train. Parsons wrote various letters to the company, it is claimed, which they turned over to Goodman, asking him to explain, In one of the letters it is said that whenever Mrs. Parsons and her guests wished to travel over the line they would telegraph to know who the conductor was, so as to ascertain how to arrange about tickets. Parsons is said to have written in another letter that Goodman was so

honest that he was a bore." Capt. Goodman also received anonymous letters, and after a while believed that his enemies among the railroad men and Col. Parsons were persecuting him. smaller. All Payments, Unless Absolutely Essential, Deferred-No Bonds to be Issued this Summer-Senator Walsh Anxious to Succeed Himself - Bills Found Against the Recalcitrant Brokers,

Washington, June 29.—The statement made to-day from an authoritative source that no issue of bonds will be made by the administration during the summer; that the President and Secretary Carlisle are in thorough accord on the financial policy of the treasury, and that an end to gold exports to Europe is believed to be about reached. The administration expects the new Tariff bill to go into effect by August 1st., and after that date increased revenues are looked for. During July expenditures will probably exceed receipts by \$15,-000,000, which will reduce the available treasury balance to about \$100,000,000. The present outlook is that by deferring everything but absolutely essential payments, the treasury deficit for the current fiscal year which closes Saturday, June 39th, will be brought within \$75,-000,000. Less than ten days ago it was estimated that it would reach \$78,000,-

Senator Walsh issues an address to the people of Georgia, saying: "Having been appointed by Governor W. J. Northen to fill the vacancy in the Senate caused by for United States Senator for the term beginning March 4th, 1895. He closes his address by saying: "Great as is the honor of being a member of the United States Senate, I would not accept the office merely for the sake of the distinction. As a position for usefulness in be deemed worthy of this office by the was mind and body to the service of my State and country."

The passage by the Senate and House of the joint resolution extending for thirty days after the expiration of the fiscal year, to-morrow, all existing appropriations, it is thought, removes the nly formidable obstacle to the President's contemplated 4th of July outing. The President approved the resolution as soon as it reached him.

A new source of demand for United States gold has developed in an order from Canada for \$250,000 gold. This was taken out of the New York sub-treasury to-day and sent North. In addition to the Canadian order, \$1,225,000 was engaged for shipment to Europe. With hese shipments deducted the gold reserve stands at \$64,828,815.

The Louisiana Senators are understood o be strongly antagonistic to the modification of the sugar schedules that were made by the Democratic members of the Finance committee yestarday. This modification changes the time when the schedule shall go into Big Four, Manhattan, St. Paul and effect from January 1st to the date of approva' of the bill. It also continues a ported to-day. This is something unpart of the bounty for the present year, giving a bounty .9 of a cent a pound on sugar above 90, and .8 cent on sugar pelow 90 and above 80 polariscope. Another change is that authorizing the Secretary of the Treasury not to impose an additional duty of .1 per cent. upon sugar imported from countries paying

an export duty. The grand jury this afternoon brought nto court indictments against Elberton R. Chapman, broker, of New York, and John W. Macartney, broker, of this city, two of the witnesses who refused to answer the questions of the Senate committee. Some comment was caused by the failure to return any indictments against the newspaper men, Shriver and Edwards, who were the first witnesses certified by the Vice President to the grand jury, but it is understood that the Government expects to make the brokers' cases test cases, believing it has a better chance for their successful prosecution than it would have in the cases of the

CHICAGO, June 29.—The close on wheat to day was to higher than yesterday, but the tone throughout the entire session and until within a few minutes of the end of the day's trading was decidedly weak, and prices ruled 1 to 1c under Thursday's final figures. September wheat opened from 60 to 59 to, declined to 59 to, recovered and advanced to 60 to. where it closed, with the gain above noted.

Corn opened firm, the strength evidently coming from yesterday's firm market, but the crowd speedily convinced themselves that there was nothing on which to theorize an advance. Prices became a little firmer late in the day in response to a similar feeling in wheat. September sold between 41tc and 41c, closing a fraction higher than yesterday. Cash corn was steady, prices showing no particular change. Oats had a very bearish sentiment to

contend with to-day. With everything else on the floor working downward there was no hope for oats, in face of the reversal of the tenor of the crop reports. July closed 11c lower than yesterday, September 1c lower. Provisions were weak to-day, losing

NEW YORK, June 29 .- The Pullman poycott, the engagement of \$1,250,000 gold for shipment to Europe to-morrow, the poor May statement of the Burlington and Quincy and some selling for foreign account combined, brought about a lower range of prices at the Stock Exchange this morning. The loss outside of Denver and Rio Grande, preferred, which fell 1 per cent. was insignificant, amounting to 1 to 1 per cent. The stock moved up and down according to the tenor of the advices from Washington. Chicago Gas declined from 731 to 78% and recovered to 78% to 78%. It is expected that Attorney General Maloney's decree, with some modifications, providing for the separation, of the companies composing the trust will be approved by Judge Windes to-day. The railway list, after the early decline, developed a little strength, especially near the close of business. Holders of stocks evidently believe that the strike is not as formidable as it appears on the surface and that a collapse is not far off. One thing is certain, that there is no pressur of long stock on the market and that the pears have been unable to make any headway. Spot cotton was steady, with sales of 110 bales for export and 1,325 for shipping. One hundred bales were delivered on contract. Southern markets were quiet and generally unchanged. Mobile and Norfolk declined 1-16c and St. Louis was easy. New Orleans sold 900 bales, Memphis 250. Interior receipts for the week were 1,718 bales, against 1,716 last week and 2,147 this week last year; shipments, 10 855, against 11,362 last week, and 19,733 last year, stocks, 73,399, against 79,939 last week, and 112,763 last year. To-day's feat-ures were: First, the market moved downward to a moderate extent, owing to depression in Liverpool, rumors that continental mills were to run on short time, favorable crop reports, and foreign and domestic selling here. Then Liverpool recovered the early declined, and local buying for short accounts caused a rally here. new president of Trinity college. To-day the work of "digging out" the street car tracks, unused since November 4th last, began. It is now learned that it is the purpose to put on the cars by July 4th. Of course it will require a great deal of work to do this. The line and its equipment are in very bad condition, and greatly run down. The new company will have to spend much Some weeks ago Mrs. Chanler; of Ne

braska came here to see how North Carolina suited her as a home. She returned to her far northwestern home, delighted In a few days her husband and Mr. C. A. Collard will arrive here. They are the pioneers of a colony of Nebraskans. If they make a report which is favorable the colonists will soon follow. They are farmers and stock raisers and have money and are well informed Americans, who are tired of cold Nebraska.

A Tribute to Vance From the Colored Teachers. [Correspondence of the Messenger.]

BEAUFORT, N. C., June 28. The following resolutions offered by E. E. Smith of Goldsboro, touching the death of the late Senator Zebulon B. Vance, were unanimously adopted by the North Carolina Teachers association,

colored, in session at Beaufort, N. C: Whereas, North Corolina, in the death of Z. B. Vance has sustained the loss of one of its most honored citizens and one of its most able and faithful statesmen; and the cause of negro education a staunch friend, by whose advice and direction the public schools were so much encouraged and the Normal schools established and fostered, and by and through whose efforts and influence the educational system of the State was

evolutionized, therefore: Resolved. That we shall ever remember with greatful hearts the long and valuable services rendered the whole people of North Carolina by him. Resolved, further, That the teachers of this association suggest to the teachers of all colored schools, private as well as public, that each pupil in the schools, with all teachers, an opportunity to contribute a free offering to be given by this association toward the Vance Monument Fund and that the first Friday in December of the present year be designated as the day for collecting this fund.
