SENATE.

WASHINGTON, Aug. 15 .- During the routine morning business the chief clerk of the House delivered a message from the House, notifying the Senate of the discharge of the House conferees on the Tariff bill and of the fact that the House had receded from its disagreement to the Senate amendments and further, that he (the clerk) had been directed to present to the Senate for the signature of its President, the enrolled Tariff bill, Within a few minutes afterwards the Vice President announced that he had signed the Tariff bill.

Senator Quay gave notice that he would offer as an amendment to each of the four bills putting sugar, coal, iron tificates, United States notes and United ore and barbed wire on the free list, the McKinley tariff bill.

Senator Jarvis was appointed as a aboard, and after seeing he was, boarded member of the following Senate committees: Claims, Public Buildings, Na-The Misses Parsons are here and will tional Banks and to establish the Uniprobably go on the stand for the prose versity of the United States.

Senator Butler offered a resolution, which was referred, instructing the committee on Inter-State Commerce to inquire and report as to the freight and passenger charges, differentials, etc, of the Southern Steamship and Railway association.

At the request of Senator Harris, each of the four House bills as to sugar, coal, iron ore and barbed wire was taken up and received its second reading. This formality having been accomplished, Senator Harris rose and said: "I deem it my duty to submit to the Senate a communication from the Secretary of the Treasury received this morning. HOUSE OF REPRESENTATIVES. The first item of business in the House to-day after the reading of the journal was the announcement by the Speaker that the Committee on Enrolled Bills had reported that the amended Tariff bill had

been properly enrolled and that it had been signed by the Speaker, Several private measures were passed and half a dozen indefinite leaves of absence were granted to members, all on account of "sickness in the family. Mr. Black, Democrat, of Illinois asked unanimous consent for the conaideration of the following resolution:

WHEREAS, The balance of available gold in the United States treasury on August 1, 1894, had been reduced, despite the sale of fifty millions of gold bonds, to the sum of \$54,975,607; and, WHEREAS, The demands for gold on the treasury made for shipment to for eign ports continues and increases; and, WHEREAS. The reports from the treasury show that during the month of July not a dollar in gold was added to the treasury stock from the port of New York, the largest customs port in the United States; and, WHEREAS, It is a matter of common

knowledge that gold coin and gold certificates have virtually ceased to be used in discharging obligations to the Government, but that the obligations to the Government are discharged in silver cer-

States treasury notes, which are so used as to deplete the treasury of gold faster than it accumulates from all sources, in-

cluding customs, internal revenue and sales of bonds; and WHEREAS, There is in the treasury unused and available, an amount of

silver equal to \$513,880,682 in American standard coin and value, and WHEREAS. The income of the United States does not now equal its expendi-

> ers' Congress. MESSENGER BUREAU. RALEIGH, Aug. 15.

The Farmers' Alliance leaders claim that it will now grow in numbers, though it will never again reach the 100,000 figure, which they regard as an abnormal growth. They also claim that it is yearly getting more out of politics. Populists, according to what the leaders say, have left it in considerable numbers because they thought it had done its political work in putting the Third party on its feet. It appears that a good many thought this was the sole mission of the Alliance, because the leaders applied themselves so earnestly to the work of creating and developing the Populist party. They now claim that it will pay attention to agricultural matters.

Many Democrats assembled here to day to attend the Congressional convention. It was of course a foregone conclusion that Hon. Charles M. Cooke would get the nomination on the first ballot. WHY THIS REDUCTION?

You may ask. A natural question easily answered. We have opened up a large DRY GOODS AND MILLINERY ESTABLISHMENT in one of the most prosperous towns in Georgia. We don't want to move a single article in our store to our Georgia House, and if the greatest reduction ever offered to the trade will effect this end, we will not have to move them. COLD FACTS are the best and most convincing proofs. An inspection of our stock and comparison of prices, will substantiate what we say. Other closing out sales are not in it when it comes to prices and quality of goods. Remember all Goods that are not sold by the 15th of September will be shipped to our Georgia firm.
