THE TARIFF BILLS SENT TO COMMITTEE ON FINANCE.

The Senate Passes the Bill for Depor tation and Exclusion of Anarchists-What it Takes to Run Our Government-Comparative Statement of Appropriations - Slim Attendance in the

House.

WASHINGT V. Aug. 16 -As soon as he reading sesterday's journal was price of cotton two or three years ago finished the Senate bill for the exclusion and deportation of alien Anarchists was on motion of Senator Hill, taken from the calendar for consideration.

After a brief discussion the bill passed without a division. Senator Dolph gave notice of

the restoration of the McKinley duties At the close of the morning hour the

unfinished business, being the Free Sugar bill, was laid before the Senate, the pending question being on Senate Harris' motion to refer the bill to the Committee on Finance. Notices of amendments were given as follows:

By Senator Aldrich, adding a new section to repeal the Tariff bill just son continues favorable from now on, By Senator Manderson, to continue the

sugar bounty until July 1, 1905. Senator Berry called for the yeas and nays on the motion to refer. After one or two names were called Vest rose and addressed the Chair; but there were calls of "Too

Late" from the Republican side and Senator Vest resumed his seat. The vote resulted as follows—yeas, 33: nays, 17. So the Free Sugar bill, together with the proposed amendments to

was referred to the Finance comand Senator Harris moved to refer it to the Finance committee. Agreed to-

yeas, 35; nays, 17. The next was the bill for free iron ore, to-yeas, 37; nays, 17.

The next bill was the Barbed Wire bill and that was referred to the Finance committee without division. The Senate then, by unanimous consent, took up the pension bills on the calendar and passed all of them-eighteen in number-as well as the House bill empowering fourth class postmasters to administer oaths to pensioners.

After a brief executive session the Senate at 3:40 o'clock adjourned until

HOUSE OF REPRESENTATIVES. The large unoccupied spaces on the floor of the hall of the House of Representatives to-day demonstrated more clearly than any other fact could, probably, that the end of the session is near at hand. The attendance was about the same as on Friday night pension sessions, and the presence of a quorum, it is believed, could not have been obtained. All business transacted from this time forward will have to be done by unanimous consent. A number of Representatives were granted leave of absence for an indefinite period, "on account of sickness." An epidemic seems to have broken out among members since the

Tariff bill was disposed of. Most of the day was spent in discussing the item in the general Deficiency Appropriation bill, added by the Senate, providing for the payment of a judgment in favor of the South rn Pacific Railroad company for the transportation of troops, mails and merchandise for the United States. The payment of the money was bitterly opposed by numerous Representatives and strongly urged by others, and by a vote of 90 to 11 the House refused to concur in the amendment. A few minutes later, howferees it was agreed to pass the bill with a reduction of the amount of this item

to \$1,275,000. An effort was made to secure immedi the immigration of Anarchists into the United States, passed to-day by the Senate, but objection was made by Messrs. Tracey, Warner and others, and the

on the Judiciary. bill so as to take alcohol for use in the arts off the free list was reported from the Committee on Ways and Means, and after a brief debate passed-145 to 3. .Mr. Sayers, chairman of the Committee on Appropriations, made the following statement of the appropriation bills

for the majority of the committee: The appropriations made at the present and extraordinary sessions of Congress, including regular annual appropriations and permanent annual appropriations, amount to \$490,668,369. They are ess than the estimates submitted by \$29,994,471; less than the appropriations made at the last session of the last Congress by \$28,835,989; less than the approoriations made the first session of last

Congress by \$16.931,918; less than last sporting editor of the Omaha Bee, implisession of the Fifty-first Congress by cated in the death of Pugilist Fletcher \$50,555,481; less than the appropriations made at the first session of the Fifty-first Congress by \$3,787,879.

The Speaker announced the enrollment and signing of the Sundry Civil appro-priation bill and the House at 4:45 o'clock adjourned until Monday.

#### China and Japan Well Matched.

VICTORIA, B. C., Aug. 16.-Oriental papers which were received by the Tacoma yesterday differ as to the relatee in Session-Hon H. G. Connor's tive strength of Japan and China, but war will be watched with interest as the first occasion when steel armored vessels will be in conflict. English papers in Japan ridicule the claims of Japan to a great naval victory in the first engagement, as the vessels engaged were in no way equal.

The King of Siam was reported to be dead when the Tacoma left and her Majesty's steamship Rattler had gone into Siamese waters. That the Western world knows more

about the Corean situation than can be learned either in Hong Kong or Yokohama was the verdict of passengers on the Tacoma after looking over the late

SOUTHERN PROSPERITY.

The Farmers in Better Condition Than Since the War-Crops Fine Lverywhere-Great Value of Grain Crops.

BALTIMORE, Aug. 16 .- Letters from nearly 200 Southern bankers, scattered all the way from Maryland to Texas, in regard to the crop prospects and business conditions in the South, are published in this week's issue of the Manufacturers' Record. With but one or two exceptions, these letters report an unusually satisfactory outlook for the agricultural and great business interests of the entire South. The decline in the forced Southern farmers, who could not continue to borrow money in advance on their crops as freely as before, to pay more attention to the raising of their own food supplies. The result has been a steady decrease in the indebtedness of Southern farmers, brought about by the forced economy of the last two years, and, almost without exception, the reamendment to the Free Sugar bill, for ports from the bankers say that Southern farmers owe less money than at any time since the war. Added to these favorable conditions, they have the prospect of the largest aggregate crops, taking the grain, cotton, fruits and all else, ever produced in the South. While the drought in the West has cut short the corn crop of that section, unusually favorable conditions have given to the South the largest corn crop that it has ever produced. Even should the cotton yield from 8,000,000 to 9,000,000 bales, as it will probably do, provided the seathe value of the grain crop, owing to the large production of corn, will exceed the

SENTIMENT WITH GOODMAN.

value of the South's cotton crop.

His Case Greatly Strengthened-Acquittal or a Hung Jury Now Pre-

dicted-The Argument Begun. RICHMOND, Va., Aug. 16 .- A special from Covington, Va., says: There can be no doubt of the fact that Conductor Goodman's case is in a much better condition than it was two days ago. At seemed probable. This morning there are those who believe that acquittal is the worst the sentence will be light, even if there is a verdict. The large number of reputable witnesses who testified s readily to the fact that they would believe the prisoner on oath, notwithstanding that his life was in the balance, unquestionably made a most favorable impression upon the jury; and if Good man's story is believed by them his acquittal is inevitable. Apart from this, the one thing in the testimony of yesterday that most helped the prisoner's case, was the statement of Engineer Fisher that Col. Bryant's character for truth and veracity was questionable and that he had heard on that very day a railroad man say that he would not believe him on oath. The fact that this was brought out by a question from one of the attorney's for the prosecution gave it addiional weight. That statement not only practically removes one of the most lamaging bits of evidence against the prisoner, but tends to strengthen his story n general, for he himself was positive when on the stand that he never used the heartless words that "he had collared Parsons and given him all he had," and he affirmed with feeling that he would not have said such a thing, had he slain a brute. Moreover, Young Cooper, the only other man who was in the office at the time, testified that Goodman did not use these words. Nobody believes that Col. Bryant, who holds a position with the hesapeake and Ohio, has purposely told an untruth. The gossip about the court green is that he is an extravagant talker, who sometimes hits wide of the facts with no intention to do so. He is

heart in his bosom. The day was consumed in argument on instructions to the jury, which were voluminous; to the giving these instructions and to the opening of the argu-ment in the case by Mr. Craig for the

said to be an honest man, with a kind

The following one of the instructions prayed by the defence was not allowed "If the jury believe from the evidence that the prisoner upon a sudden and violent provocation, without malice, and in a transport of passion, killed the deceased, they are further instructed that they cannot find the prisoner guilty of any greater offense than voluntary

Messrs. Anderson, Grump and Par rish will speak in the order named for the prisoner. Mr. Allen closes for the

#### Sun's Cotton Review. NEW YORK, Aug 16.-The Sun's cotton

review says: Cotton declined 3 to points and closed steady. Liverpool declined 1-32d on the spot and 1 to 11 points for future delivery, closing quiet but steady. Spot sales were 10,000 balee. In Manchester yarns were quiet but steady. The orders for cloth were at low limit. The Bombay receipts for the week were 8,000 bales, against 6,000 bales for the same week last year; total thus far this year, 1,533,000 bales. against 1,508,000 during the same time last year. Bombay shipments since January 1st were 42,000 bales to Great Britian against 37, 000 for the same time last year and 733,000 for the Continent, against 723,000 for a like period of 1893. New Orleans was 8 points higher for August, but other months declined 2 to 4 points. The port receipts were 433 bales, against 1,120 this day last week and 1,530 last year. Exports from the ports were 1,400 bales to Great Britain, against 5,475 to the Continent. Spot cotton here was weak but without quotable change. Sales were they are on tolerably equal terms. The 1.470 bales for exports and 865 for spin ning. The Southern spot markets were quiet and unchanged.

> A Victory for Col. Breckinridge. LEXINGTON, Ky., Aug. 16.—The dead-lock in the election of a chairman for the Fayette county Democratic convention was broken here yesterday and a Breckinridge man got the place. John C. Scott, who had formerly voted with the Owens men deserted to Breckinridge and the result was a victory for Welsh. Minor P. P. Johnson, also a Breckinridge man, was elected chairman of the county executive committee.

## GONE TO GRAY GABLES.

THE PRESIDENT TAKES A SHORT HOLIDAY.

He is Suffering From an Attack of Malaria-The Tariff Bill Sent to Treasury Department for a Report-Error in the Tariff Bill Admits Diamonds Free-Gold Reserve

Increasing. WASHINGTON, Aug. 16 .- President Cleveland left the city early this morning. Private Secretary Thurber makes the public the following statement in re-

gard to the President's departure: The President left this morning for a few days' absence under advice of his physician, in the hope of shaking off an attack of malaria, from which he has been suffering for several days. Yesterday the attack culminated in fever, but which was under control this morning. Dr. O'Reilly, his physician, expressed no doubt that a few days of salt air would recuperate the President sufficiently to enable him to renew his official duties, and he will return to Washington by the middle of next week. He has gone to Gray Gables and is accompanied by Dr. O'Reilly.

The President has never fully recovered from the attack of malaria which caused him to make the two trips in the light-house tender Violet down Chesapeake bay and outside the Capes. Anxiety over the tariff situation is supposed to have aggravated his indisposition. and when the matter was ended by the action of the House in passing the Tariff bill, the relaxation came and made a change of air necessary. He left by the 7:10 train over the Pennsylvania road He took no action upon the Tariff bill before his departure, beyond sending it to the Secretary of the Treasury for a report, as is customary with revenue

It will be necessary for the President to be back in Washington by Tuesday that time murder in the second degree | next. The resolution continuing appropriations expires Monday, but the Sundry Civil bill has not been signed and all appropriations carried by it from last year probable, and others that the jury will will cease on Monday unless the Presirtment says the clause of the Tariff Finance committee was made and agreed hang. A large majority believe that at dent returns and gives the bill for the and Harbor bill also awaits the action of the President, and there is much speculation as to whether he will approve it or not. Many of the appropriations carried by it will cease if it is not approved by Tuesday.

Doubt still exist in the minds of many importers as to the assessment of duty on goods arriving in this country prior to or on the day the Tariff bill becomes effective, but not formally entered until after the bill has become a law. In reference to this confusion it is explained at the Treasury Department that the bill will not go into effect until the day after the President's signature is affixed or the law becomes operative through the expiration of the ten days' limit. In other words, if the bill were signed to-day, Tuesday, August 16th, it would become operative one second after midnight, or at the beginning of Friday, August 17th. Therefore, as the law does not become operative until the day following its approval or the last day of the limitation, goods reaching a United States port on the day of the signature McKinley tariff, and it will not avail the importers anything by waiting until the following day to make entry. In cases, however, where goods arrive on the day preceding the date of effect and are assessed under the McKinley law, refunds of any duty over the Senate law will

almost certainly be made. The first meeting for several weeks of the House Ways and Means committee was held this afternoon. Mr. Wilson, the chairman of the committee, came back from West Virginia in order to be present. The purpose of the meeting was to consider the bill introduced yesterday by Mr. McMillin, of Tennessee, to correct the paragraph of the Tariff bill which makes free, alcohol used in the arts and

medicinal compounds. It was ordered to be reported favorably without division, Mr. Tarsney, of Missouri, then called up a bill introduced by him on Monday last which provides that lead ore, in which the component of chief value is silver shall be declared silver ore and permitted to enter free of duty. The Republicans opposed the bill and it was defeated by a strict party vote, 6 to 5.

Before the meeting adjourned Chairman Wilson announced that he had been informed by the officials of the Treasury Department that the paragraph in the Tariff bill relating to diamonds could be so construed as to permit the free entrance of those articles, and said that at a subsequent meeting a bill cor-

recting the paragraph would be called up. This led Mr. Reed, of Maine, to remark sarcastically that poor [people of the county ought not to be denied the privilege of free diamonds if they wanted them. This observation caused a general laughter, which was followed immediately by the adjournment of the com-

Telegraphic Sparks.

on the first ballot. McCall and Lanham

#### THE YACHT RACE.

The Vigilant Forced to Sacrifice a Assured Victory by the Conduct of the Britannia-The Satanita the Victor.

RYDE, Aug. 16.—Whatever chance the ligilant may have had in the race to day for the Ryde town cup, valued at \$500 , she was forced to sacrifice it, jockeying with the Britannia which clung to her throughout the contest, occasionally forcing her into shallows where, in windward work, she found it impossible to use the full depth of her board, and thus made leeway, which was beneficial to the Britannia. The object of the skipper

on the Prince's cutter seemed to be to help the Satanita win the race. That, Capt Hank Haff declared in an interview after the event, was undoubt edly Capt. Carter's scheme. The Yankee skipper says that after crossing the line, the Britannia ran up on his port or weather quarter, and blanketed him. The jockeying, always forced on the Yankee skipper, continued until the two boats were two miles off the course This enabled the Satanita to win, which she did by a handsome margin. She vanquished the Britannia by 6 minutes and 23 seconds and the Vigilant by 7 minutes and 50 seconds. On corrected time the Vigilant was beaten by the Satanita 8 minutes and 2 seconds and by the Britannia 3 minutes and 31 seconds. The course was nearly all inside. The start was made from an imaginary line off Ryde, eastward to the Nab lightship,

thence to a mark boat off Spit fort, and to Ryde, twice around, a distance of age.

There was a light This morning the vestibuled train on the 'Atlanta north-northwest wind and a towering sky portending squally weather when the trio of giants came out to the starting point ready for battle. The wind was on the port quarter, as the yachts came from the line. The Satanita held the weather berth and the Vigilant was to leeward. They crossed the line thus: Satanita, 10:00:04; Britannia, 10:00:07; Vigilant, 10:00:09.

The Vigilant drew away from the Britannia immediately after crossing. The Prince's cutter headed eastward and The Vigilant luffed up and the two wind almost abeam, when, if they had vision for their becoming members wa kept their course, they would have had | indeed a happy idea. the Yankee sloop and the Britannia, licit distillery in Caswell won the race on the first six-mile run, She was 4 minutes and 5 seconds ahead of the Britannia when she gybed around

the Nab lightship. The Vigilant and Britannia had finally given up their luffing tactics, and, with spinnakers set had gone down to the Nab only 30 seconds apart. The Vigitage trated News and Record. It is an artislant permitted the Britannia to pass her to windward rather than keep up the Raleigh and the State. profitless jockeying. In the beat of about five miles to the Fort Spit, the a negro gambling den here and captured wind freshened and the Vigilant crawled up.

Again she was intercepted by the Britannia. Both were on the port tack and they indulged in luffing, while the Satanita, also on the port tack, was bounding in to Fort Spit mark boat. The Vigilant and the Britannia had the port tack only a little while. There they came about and the Britannia compelled the sloop, in self-defense, to enter

The Britannia went about first. The Vigilant held on longer. The Satanita was 4 minutes and 5 seconds ahead of the Vigilant at the Spit. The Yankee sloop had gained twenty seconds on the Satanita and thirty-three seconds on the Britannia in the windward work. The igilant ran through the Britannia's lee and was 46 seconds ahead of her at the mark boat. The Satanita had increased her lead to 6 minutes and 9 seconds.

The Britannia was 15 seconds astern of the white sloop at Ryde. Off No Man the Britannia ran under the Yankee's stern and blanketed her. Capt. Haff was evidently losing interest in the British system of racing. The Britannia got the better of him by jockeying, and led him by 1 minute and 12 seconds at the Nab. Then the Satanita was 3 minutes and 52 seconds ahead of the Britannia. The Satanita iled by 7 minutes at the Spit and the Britannia was 2 minutes

and 10 seconds ahead of the Vigilant. As the tusslers approached Cowes close hauled, a heavy rain squall lashed up foam-topped seas and the yachts heeled heavily to port. The Vigilant reduced the lead of the Britannia to 1 minute and 20 seconds, or fifty seconds since leaving the Spit. She had made the reach in a strong squally wind 3 minutes and 25 seconds faster than the

In the run home from Cowes the Vigi, lant lost seven seconds to the Britannia, and fifty-five seconds the Satanita. Time at finish: Satanita, 3:36:00, Britannia, 3:42:22; Vigilant, 3:43:50.

The average strength of the wind during the race was less than ten knots. Capt. Haff says the victory of the Satanita was a "put up job." It is somewhat doubtful, in this event, whether the Vigilant will enter the race to-morrow for the Royal Victoria race around the Isle of Wight for the commodore's cup, valued at \$400 to go the winner, and a prize of \$200 for the second yacht. The Satanita, Britannia, Vigilant, Carina, Corsair and Namara have been entered

The Vigilant and Britannia will sail on Saturday fifteen miles outside the Needles and back, on the reverse for the Wolverton cup.

The Odd Fellows of this city are looking forward quite eagerly to the time when they will occupy their new quar-ters in the Pullen building, which is approaching completion. The building is

extremely ornate in style, and the I. O. C. F. quarters will be spacious and handsomely fitted up.
Mr. Wiley Rush is appointed by Mr. James H. Pou, Democratic State chairman, to the position of secretary to the State eeecutive committee, succeeding Mr. R. H. Cowan. Mr. Rush is from Randolph, and is a very active worker

as well as a stirring speaker. Quite a number of Alliancemen were here today on their way home from the annual meeting of the State Alliance. They say the Alliance will not suffer any loss in numbers hereafter. Of course they never expect it to again have 100,-000 members. That was abnormal, and

#### they know it. JAPS, DEAD OR ALIVE.

Rewards for Capture of Japanese Vessels, Sailors and Soldiers-Understandings Between Russia and France and Between England and Germany.

LONDON, Aug. 16.—The Central News' correspondence at Shanghai says the Governor of Formosa has published a schedule of rewards for Chinese who capture or destroy Japanese ships, or kill or capture Japanese soldiers or sailors. The soldiers or sailors may be taken dead or alive. The Governor offers 6,000 taels or almost £2,000 for the destruction of a big Japanese warship. For the destruction or the capture of a small warship he promises 4,000 taels or £1,200. One hundred taels will be paid for the head of a Japanese private. The Central News' correspondent also says: A fleet of eight vessels westward bound was reported as passing Chee Foo on August 14th. Chinese officers are leaving the country in large numbers to join the Chinese troops entering Corea. The merchant steamships Taku and Smith have given up foreign protection and have gone back to the Chinese flag. They left port yesterday

with troops and rice. It is reported here that France and Russia have an understanding favorable to the Japanese and England and Germany one favorable to China.

#### An American Citizen Sentenced to be

SAN ANTONIO, Texas, Aug. 16.—A private despatch from the City of Mexico received here states that Edward T. Adams, formerly prominent in society in this city and who married into one of the best families here, has had his sentence of death for murder confirmed by the Supreme court of Mexico and will be shot in a few days. United States Minister Gray has interested himself in the case and will ask President Diaz to

Forced to the Gold Standard. LONDON, Aug. 16 .- In the House of Commons, Henry Fowler, Secretary for India, said that the Indian Governmen had no intention of re-opening the mints to the free coinage of silver. The experiment of closing the mints would be well tried before there would be any thought of abandoning it. So far, there has been no reason for alarm. The great difficulty was the steady depreciation of silver and, sooner or later, this would QUINCY, Mass., Aug. 16 .- The funeral | force India to go over to the gold stand-

> LONDON, Aug. 16.—Arthur Zimmer-man won the international five mile race at Leizester to day in 11:51 2-5. Banker was second and Edwards third.

# 8 DOLLARS 8 IN YOUR POCKETS.

REGARDLESS OF COST OR ACTUAL VALUE, OUR ENTIRE STOCK TILL THE 15th of September is at the mercy of the buyer. A SACRIFICE not of our choosing, but a necessity of which we make a virtue.

#### Bargains.

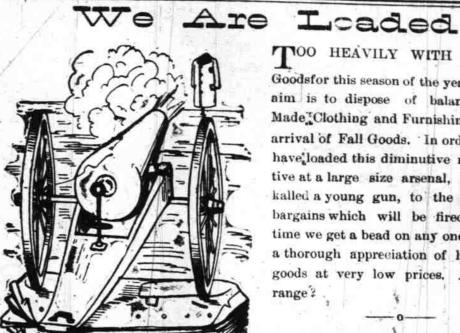

Bargains.

IN ANY ARTICLE OF DRY GOODS, NOTIONS, HOSIERY, &c.

#### WHY THIS REDUCTION?

You may ask. A natural question easily answered. We have opened up a large DRY GOODS AND MILLINERY ESTABLISHMENT in one of the most prosperous towns in Georgia. We don't want to move a single article in our store to our Georgia House, and if the greatest reduction ever offered to the trade will effect this end, we will not have to move them. COLD FACTS are the best and most convincing proofs. An inspection of our stock and comparison of prices, will substantiate what we say. Other closing out sales are not in it when it comes to prices and quality of goods. Remember all Goods that are not sold by the 15th of September will be shipped to our Georgia firm. No Goods Charged from this date.

#### FENNELL, FORE & CO., Front Street, Next Door North of Purcell House, Wilmington, N. C.

TOO HEAVILY WITH SUMMER Goodsfor this season of the year, and our aim is to dispose of balance Ready Made Clothing and Furnishings prior to arrival of Fall Goods. In order to do so have loaded this diminutive representative at a large size arsenal, kommonly kalled a young gun, to the neck with bargains which will be fired off every time we get a bead on any one who has a thorough appreciation of high grade goods at very low prices. Are you in range?
