The Howland Yarn Plants Concede the Demands of the Operatives-Difference in Position of Yarn and Cloth Mills-Ten Mills at Fall River Shut Down and Nineteen Partially Running.

He simply based upon a most superficial and hollow view of the conditions, and not of the actual situation. The conclusion was jumped at by some that inasmuch as the mills known as the Howland plants had conceded the old schedule of wages to the heart of the city." their employes, the other cotton manufacturing establishments in this city would hasten to follow their lead. Such as have taken this view seem to have lost sight of a very important circumstance in connection with the complication. Howland was not in the city and no representative of tery to everybody in the city who is not the Rotch or Howland corporations or of the New Bedford manufacturing company was present. There are not a few who do not hesitate to say that this was

not a coincidence. After a long consideration of the situ ation and with a reasonable assurance that the operatives would show fight, regardless of what Mr. Howland's views of course might be, the mills decided to post notice of a cut down.

Without positive knowledge of what Mr. Howland might do in regard to enforcing the notices, the operatives generally, from the first, felt that he would make his employes the concessions they desired, rather than see the pleasant relations which had existed between them ruptured. It is not to be supposed for a minute that the other manufacturers were not as well informed in this regard as the operatives. Yet in view of all the conditions, the notices were posted.

CORBETT AND JACKSON ccept the Sioux City Club's Propos tion to Fight For a \$25,000

Sioux City, Ia., Aug. 21.-Corbett's manager, William Brady, has telegraphed his acceptance of the Sioux City Athletic club's \$25,000 offer for the Corbett-Jackson fight.

Jackson telegraphed yesterday that he would accept, if training expenses were guranteed him, provided the fight did not take place. The gurantee was made. The club is composed of forty of the leading business and professional men, who have jointly signed a note for the \$25,000, to be taken up and the cash deposited when the articles are signed.

"We can reach any one of four States within one hour's ride of Sioux City and we have also the two Missouri river islands over which neither Iowa, Nebraska, [nor South Dakota claim jurisdiction, within fifteen minutes of

"I will not permit this fight to occur within the corporate limits of Sioux City," said Mayor Fletcher, in speaking of the effort being made to get a match. "What is more, I doubt if it will be allowed to be fought on Iowa soil. So far as my jurisdiction is concerned I shall

Sioux City's offer for the Jackson-Corbett fight is still somewhat of a mysin the inside of the scheme to bring the fight here. The thing was worked up very quickly and quietly and sprung after all the details were arranged. The men who have appeared on the surface say they are backed by the best people in the town, and hint who some of them are, and when the best people are asked about it they all refuse to give any in-formation and deny interest in it. They all believe a prize fight, if it is a big

enough fight, is a good thing for a town

to have, and they say they will make this the biggest fight that was ever held. There is a great division of opinion in the matter in the city. Some declare it is all a fake. The mayor and sheriff say they will have no fight, but the promo ters of the scheme only smile and say nothing when these statements are reported to them. They declare they have every corner guarded; that there can be no interference by local or State authorities and that they will have the fight right in the city. A favorite theory is that the scheme is based on the fact that South Dakota, which lies across the Big Sioux river from the city, has a weak law against prize fighting and it is believed the authorities in the counties adjoining the city have been induced to take the same liberal and thoroughy modern views of the subject as was entertained by Sioux Cityans and that having succeeded in this they have the assurance that the fight can be pulled off within a range of the suburban city street car

lines in South Dakota. The telegrams that have been received to-day by the Sioux City Athletic association indicate that Peter Jackson is not anxious to fight Corbett and is willing to get out of it if possible. When the club's offer for the fight came out he was interviewed in New York and said he would make a statement as soon as he heard from the club personally. He has not wired the club since the offer of a guarantee of training expenses was made, but Richard K. Fox has wired, asking if the club will deposit the full amount of the purse with him. This the club will not do. Corbett has sent word that he would require no further guar-antee from the club than a deposit of

BETWEEN REDUCTION AND ABO-LITION OF DUTIES.

> Goods Under Former Class Now in Bonded Warehouses to Pay the New Duties, Those Under the Latter, the Old-Chairman Wilson Thinks the President Will Not Sign the Tariff Bill. WASHINGTON, Aug. 21.-Chairman

Wilson, of the Ways and Means committee, will probably make a flying trip to Europe after the adjournment of Congress. He will take one of the fast iners and remain a week in London, returning to the United States about twenty days after his departure. He said this morning that he felt more fatigued to-day than he has at any time for two months. The excitement attending his work on the conference committee buoyed him up to some extent, and now that this excitement has passed a reaction has set in. It is his purpose to enter the campaign in his district immediately upon his return from Europe. He may speak in other districts, but he does not expect to go outside of the

action the President would take regarding the Tariff bill. He replied that he had not seen Mr. Cleveland for some days, but, in his opinion, the bill would neighborhood. probably become a law without the Executive signature. Should Mr. Wilson's surmise be correct, an adjournment of Congress will not occur before Tuesday

of next week. The President is anxious to get back o Washington on Thursday, as he has much to attend to before he lets Conress adjourn, and he expects to have ittle or no rest for the next week or ten days. He has no idea of staying in Vashington longer than that, Congress is scheduled to adjourn next week and any but the most urgent public business to interfere with his month of vacation and will insist that the privacy of his seashore cottage be respected during that time. Office seekers and people with any sort of axes to grind will be expected to week of October. Such matters pertainng to the official action of the President during his vacation as are of public interest will be transmitted to and given out from the White House. Imported goods now in bonded ware-

houses and placed on the free list by the new Tariff bill, are to be assessed at the rates prescribed by the McKinley law. While goods in bonded warehouses on which the duty is lessened by the Senate bill, but which are not placed on the free list are to have the lower rates. This seemingly nconsistent construction of the Tariff bill has been made at the Treasury Department as the result of conferences between Secretary Carlisle and Attorney General Olney. The bill provides that goods imported under the Mckinley act and placed in bonded warehouses may be withdrawn for consumption at the ower rates of the Senate measure. The penefit thus conferred was undoubtedly unfortunately for the importers, a direct provision of that character is not in the bill. The intent of Congress in the matter is so plain that it is believed the courts would construe the benefits of the Tariff bill to apply to the importers, but the Treasury Department is anxious to avoid legal complications. In view of the decision of the Secretary, however, it appears that this will not be possible, now in bonded warehouses and placed on the free list by the new bill will be assessed on their withdrawal under the rates imposed by the McKinley law and the importers will naturally protest and sue the Government for a refund of duties. Importers, however, may avoid embarrassing complications by withdrawing their goods without payment of luty, exporting them to some near by foreign port, and then re-import them

under the free list after the new law becomes operative.

They Died Together. NEW YORK, Aug. 21.-At 7 o'clock this morning Park Officer Thomas that 500 Anarchists were now on their Flynn, while patroling in the Ramble in Central Park between the east and west driveways and opposite Seventy-eighth street, discovered the bodies of a young man and young woman lying dead on the grass near the pathway. The man was Julius D. Marcus, who is supposed to live at No. 52 East Broadway. woman was Juliette Fournier, of No. 354 South Fourth street, Brooklyn. Marcus had a bullet wound through the centre of his forehead. He was lying prostrate across the woman who was shot directly in the centre of the breast. Marcus held a revolver in his hand. Two of the chambers were empty and three were still loaded. The blood from his head had run down and stained the face and clothes of the woman, whose body was still warm. It was evident that the man had first shot the woman and then killed himself. The man was about 30 years old and the woman 17. She had married her uncle and was unhappy with him. She and Marcus had been lovers previous to her marriage, so they made up their minds to die together. Letters found on their bodies showed that their act had been carefully planned to the last detail.

THE STRIKE INVESTIGATION impartial Work of the Federal Com mission-Synopsis of the Testi-

mony-The Starying People at Pullman-Governor Altgeld to Their Relief.

CHICAGO, Aug. 21 .- Officials of the American Railway union and local labor leaders are much pleased with the methods of the National strike commission so far. Several of them have expressed themselves as satisfied that both sides of the question will receive a fair and impartial hearing.

The first witness put upon the stand this morning was Michael J. Carroll, editor of the Eight Hour Herald, He believed the Government ownership of railroads to be the true solution of the labor problem. He cited the situation in Australia, where the Government owns the telegraph lines, as proof that

his ideas were practicable.

Malcom McDowell, a reporter for a morning paper, testified next. He had seen cars overturned and other overt acts, but could not say whether the work had been done by members of the American Railway union or not. He did not believe that many railroad men were engaged in these acts.

Thomas W. Heathcole, chairman of the Pullman strike committee, was recalled, He declared the Pullman employes had no other alternative but to strike.

Rev. M. H. Wickman, the Swedish minister at Pullman, told of the reduc-Mr. Wilson was asked to day what tion of his parishoners' wages. He said action the President would take regardmade to pay more rent at Pullman than at Roseland and other places in the

"Why, then" asked Chairman Wright, 'do the men not live in Roseland or ricinity?" "They are commanded to live in Pullman, on pain of dismissal. Even where men own homes outside of Pullman, if

work becomes slack, these men are the first laid off.' Mr. Wickman told of the case of an employe who was injured in the Pullman shops and obliged to stay at the hospital for nine weeks. During this is scheduled to adjourn next week and time the company charged him rent for the President will probably return at his house in Pullman, refused to pay him once to Gray Gables and spend the month any damages and cut down his wages of September there. He will not allow when he returned from the hospital, bewhen he returned from the hospital, because his injury prevented his doing as

much work as formerly, H. I. Cleveland, a reporter for a morning paper, gave his experience during the strike. He had seen rioting in several places, but thought those engaged in keep away from Buzzard's Bay and overt acts were roughs and rowdies and that lew or none of them were railroad ing at the White House, to which the men. He joined with the two reporters President's family will return the second | who preceded him in scoring the United States deputy marshals.

Herman E. Dutton gave his observations as reporter for two morning papers at different times during the strike. He had seen but few railroad men engaged

in rioting. Other reporters gave similar views. Governor Altgeld this morning sent a letter to George M. Pullman, in which he outlined the desperate condition of affairs among the strikers at Pullman, and invited Mr. Pullman to call on him and devise means of relief for the 1,600 starving families in his town. As yet the Governor has received no reply. The Pullman relief committee was informed by the Governor that immediate aid was at hand for the sufferers, but he declined to name its source. "While I can say that relief will be at hand at once," he, "I cannot at present define what shall be done to afford substantial help. States officials. Mr. Warner said he was not to be panic stricken into consenting that such bill as it now is should become a law. Amendments ought to be considered in committee and presented, he said, before the House was plunged into a discussion

of the measure.

The Senate bill passed, authorizing the construction of an addition to the public building at Little Rock, Ark., to cost not more than \$58,000; also a Senate joint resolution directing the printing of 20,-000 copies of the Tariff bill.

Haines in the groin, at Cass and Brists streets last night. White and his wife were arrested and taken to the East Chicago police station. Last evening Mrs. White called on friends near her home and returned to her boarding house at No. 113 Cass street in company with Haines.

a quarrel ensued. Few words passed be-tween the men before White is said to have knocked his antagonist down and have kicked at his prostrate form. Police Officer Thompson saw the encounter and hurried to the men. Haines jumped to his feet and started to run. Thompson says White fired at the fugutive and Haines fell to the sidewalk Haines is about 33 years of age and is connected with the Iron Age in an editorial capacity. White came recently from Richmond, Va.

IN ANY ARTICLE OF DRY GOODS, NOTIONS, HOSIERY, &c. WHY THIS REDUCTION?

DRY GOODS AND MILLINERY ESTABLISHMENT in one of the most prosperous towns in Georgia. We don't want to move a single article in our store to our Georgia House, and if the greatest reduction ever offered to the trade will effect this end, we will not have to move them. COLD FACTS are the best and most convincing proofs. An inspection of our stock and comparison of prices, will substantiate what we say. Other closing out sales are not in it when it comes to prices and quality of goods. Remember all Goods that are not sold by the 15th of September will be shipped to our Georgia firm. No Goods Charged from this date.

DO YOU BATHE?

WE MEAN IN THE SURF, AND ASK QUEStion thinking possibly as price on those two piece Jersey Bath Suits has been reduced 'twould be an inducement to purchase one. They are all right, but only a few left and want to close them out-hence the reduction. Children's Shirt Waists are cool and comfortable. Think present prices would interest you. Small size Juvenile Suits have gone with a rush and quantity rather too large for lateness of season. Your own price would very likely secure one now. Men's Suits are more saleable usually, but somehow or other stock hasn't yet reached low water mark. If close prices will move them they will certainly go this week. Don't fail to memorize the fact that your size can be secured for a very small outlay. Everything marked down.
