

ESTABLISHED 1867.

TELEGRAPHIC SUMMARY.

The race horse Buck McCann is killed by a train in Chicago. A barkeeper in Grafton, Ohio, is killed by two burglars, who were tracked by bloodhounds. The Petrel reaches Japan. Two men are burned to death, two others and a little girl are injured in a fire at Nainamoo, B. C. There is a possibility of a settlement of the strike at Fall River. The practice of hazing is formally abolished at Princeton by unanimous vote of the students. Bradstreet's reports business less satisfactory than a week ago. A Chicago policeman is shot and mortally wounded by a football player. He gave the high wayman a mortal wound. The committee is appointed to notify the Democratic nominees of New York of their nominations. The Japanese army invaded the Chinese province of Manchuria and repulse a Chinese army. Capt. Howgate is ordered sent to Washington for trial. The woman he is living with gave him some money. Four men are buried beneath a huge pile of rock in a Pennsylvania mine. The Lucania makes the westward trip in 5 days, 7 hours and 48 minutes, beating her last run by fifty minutes. There are rumors of rioting in Rio Janeiro against Portuguese merchants. Many were killed and much property destroyed. English miners will support the Scotch strikers. Two men are hanged in Texas for murders committed in Indian Territory. The schooner Wm. T. Parker, Georgetown for Philadelphia, was spoken off Cape Romano on the 27th with both masts gone. Fitzsimmons says he expects to get a fight out of Corbett yet. W. S. Boone, charged with murder in the Roanoke, Va., riots, is acquitted. Secretary Herbert decides to reinstate the former number of boatswains on war vessels. The trial of the Ericson is again postponed. She has met with an accident. At Waldhal John S. Johnson breaks the world record in 120 1/2 miles. All Japanese are enthusiastic over carrying on the war. The Emperor of China contemplates a change in his cabinet. There was a big drop in September coffee on the New York Exchange yesterday. The Richmond, Va., Chamber of Commerce establishes a traffic bureau. Chas. B. Plummer, of Petersburg, commits suicide. Twenty moonshiners in Arkansas will surrender to the revenue officers Monday. An old woman in Alabama kills her husband in self defence. Six is leaving himself to death. There are signs of a movement against the Government in China. The Czai's condition is very serious. Whiskey exported under the McKinley law and imported under it and held in bonded houses till now has to pay \$1.10 per gallon.

NEW NAVAL ORDERS.

OUR NAVY CANNOT GIVE UP HER BOATSWAINS.

Reduction of their Number Working Badly—The Old Order to be Re-Established—The Petrel Reaches Japan—Accident to the Ericson—Treasury Hauling on the Whiskey Tax. WASHINGTON, Sept. 28.—The Petrel arrived at Nagasaki, Japan, yesterday. The Thetis, which recently left San Francisco for an extended surveying cruise along the coast of Lower California, where she was at work last spring, has reported at San Diego. When the new navy came into being, the ships generally having little or no sail power and rigging, it was supposed that the old fashioned boatswain could be generally dispensed with. In fact, the number of these warrant officers was considerably reduced, their duties being transferred to the executive officers and boatswain's mates. Now it has been found that this plan has worked badly. In the first place there is much work remaining for a boatswain in connection with the boats, ground tackle, rigging, care of stores and other things, and the executive officer is already an over-worked man on our complex modern ships and unable to carry other responsibilities than those properly belonging to his office. In the second place, the change had a most discouraging effect upon the sailors, who were down to the apprentices, who were thereby deprived of the inducement held out by a possible promotion. Consequently the best men began to drop out until now it is difficult to get them to enlist when their terms expire. So Secretary Herbert has determined to increase the number of boatswains, which he may do, as the law does not fix upon a definite number. After twenty years on one vessel a boatswain's pay is \$1,800 a year and a ration, equivalent to about \$1,900, and with the hope of reaching this goal by a gradual but substantial increase in the number of boatswains, it is believed that the defection of trained seamen and expert sailing masters, who have been educated at considerable expense to the Government will be stopped. The official trial of the Ericson is again postponed. She came ashore at ground from Dubuque to New York it was announced that her official trial trip would be made not later than September 1st. To-day the steamer has preliminary contracts run and met with an accident, the details of which are not yet known to the Navy Department. The decision that the Ericson and from the United States under the McKinley tariff and imported under the same law, placed in bonded warehouses, but not to be sold until after the next tariff act took effect, will have to pay duty at the new rate of \$1.10 per gallon will be announced from the treasury to-morrow.

RIOTS IN RIO JANEIRO.

Portuguese Merchants Attacked—Many Foreigners Killed and Much Property Destroyed—President Peixoto the Investigator—The News Discredited.

NEW YORK, Sept. 28.—A special cable from Montevideo says: Admiral Da Gama asserts that there has been rioting in Rio de Janeiro, lasting five days, accompanied by outrages on Portuguese merchants, instigated directly by President Peixoto, who incited soldiers, dressed as citizens, to make an attack, on the pretense that they wanted to break up a meeting of Royalist conspirators. Rio, it is reported, looks like a great military camp, soldiers patrolling the streets, cavalry companies in public gardens and launches patrolling the harbor front. The number of killed is stated to be 325, and 215 wounded entered the hospitals. Most of the fighting occurred near the water's edge and many bodies were cast into the harbor. The damage to the property of Portuguese, British and other foreign residents will amount to \$1,500,000. Admiral Da Gama exhibited a telegram giving this news. It was not addressed to him, but was in cipher and sent to a well known Englishman here. The Brazilian Government sent a revised, authorized account of the riots. The British Minister has asked for a guard at the legation and residence. This was granted him by order of Peixoto. The legation is crowded with refugees who, although promised protection by the authorities, are afraid to go on the streets. NEW YORK, Sept. 28.—A special dispatch from Rio Janeiro says: One hundred and ninety-seven persons have been arrested for being implicated in the riots of the last four days. Italian and Portuguese houses have been fired. The small boats were all blown away and numbers are now lying high and dry in the marsh together with the floating dock, which was at the foot of the Grand Canal. The British steamship Boston City and Elmville collided and were badly damaged. A dispatch from Palatka announces great damage to river craft at that place. The steamer Princess was sunk between Palatka and Picoletta. She is valued at \$12,000. The steamer Edith was driven against the draw bridge and wrecked. The steamer yacht Maude was sunk near Cranston City. To-day the Times-Union received advices from St. Augustine, which has been cut off since Tuesday. These advices were about the same as those of the reporter, who made the trip on a hand car. Mrs. Mariotte gives a graphic account of the condition of things at St. Augustine. No lives were lost, but several houses were wrecked and the losses will run into the thousands. Nearly all the windows of the buildings were blown out and the houses flooded with water. The Ponce de Leon was damaged in this way. The loss on the hotel furniture is heavy. At St. Augustine the waves dashed over the sea wall and made rivers of the streets. Many wharves were blown away. Between Jacksonville and St. Augustine not a telegraph pole was left standing. The damage to the orange groves is incalculable. Despite the fact that the account of the rioting in the large groves is literally covered with green ground. The loss will be fully 20 per cent. The East coast is still cut off from communication below St. Augustine, though every effort is being made to clear the route. The Jacksonville, Jupiter and West, which are supposed to have been in the storm centre. Despatches to the Times-Union indicate that the storm was as severe in the interior of the State as on the coast. It struck Tampa and then traveled northeastward to Orlando, interior points, several sea gulls and sea seals were found after the storm passed. It is safe to say that the storm has cost Florida more than \$1,000,000, but no lives have been lost, unless at Key West, Titusville, Jupiter and other East coast points.

STORM-SWEPT FLORIDA.

NEWS FROM MANY SECTIONS BEING RECEIVED.

The Greatest Damage Done at Tampa—Several Cigar Factories Wrecked—Steamers and Yachts and Other Small Craft Great Damage to the Orange Crop—The Ponce de Leon Damaged. JACKSONVILLE, Fla., Sept. 28.—Communication with South Florida is being restored and special dispatches are pouring in on the Times-Union relative to the damage done by the West Indian cyclone which raged in the State Tuesday and Wednesday. The despatches all tell the same story of houses wrecked and crops destroyed, but no loss of life is reported. The Times-Union received a dispatch from Tampa to-day, which is the first information from that place since Tuesday. At Tampa several large cigar factories were wrecked. The large three-story brick factory of Seidenberg & Co. was destroyed. The factory of C. A. Joyce was demolished as were also the factories of Ybor & Manarara, Teodoro, Perez & Co., and O'Malloran. The First Presbyterian church and the palatial Tampa Bay hotel were badly damaged. The small steamer Edith was driven against the draw bridge and wrecked. The steamer yacht Maude was sunk near Cranston City. To-day the Times-Union received advices from St. Augustine, which has been cut off since Tuesday. COMMERCIAL NEWS.

Stocks and Bonds in New York—The Grains and Provision Markets.

NEW YORK, Sept. 28.—Speculation in American sugar was the overshadowing feature of to-day's market at the Stock Exchange. The stock figured for 98,000 shares in a total of 244,500 for the entire list. The stock sold as low as 88 1/2 against 11 1/2 a little over a month ago. The stock was under the hammer during the early trading and the reports that the insiders were not averse to lower figures was again revived, to gain credence among weak holders. Chicago Gas was another stock which received particular attention from the bears and broke from 70 1/2 to 67 1/2. The selling of Gas from the bears point of view was not considered. The stock and the rally to 69 1/2 was not a surprise to close observers of the market. The general list as a whole tried to cut away from these stocks and in fact ruled firm. The August statement of the St. Paul, following the favorable reports of the great trunk lines, inspired a more confident feeling in the railway group, but the pressure against Sugar and Chicago Gas finally led to a decline of 1/4 to 1/2 per cent. The market was unchanged in oil, many stop orders came out and a drop took place under the volume of selling. Privilege stocks and shares of the Erie, which had been generally held, were sold off yesterday. Cash wheat was in good demand for the day. The final weakness in corn extended to wheat. Most of the early buyers parted with the wheat at 53 1/2, closing at 53 1/2. The wheat market was weaker. Sales of listed stocks aggregated 100,000 shares; unlisted 105,000. CHICAGO, Sept. 28.—After falling and rising frequently to-day, wheat closed weak at a slight improvement over the extreme inside figures. There was very little outside of the usual every-day announcements to affect values. Linn, who made his first appearance on the floor in several months, yesterday, did some buying for his admirers and the scalpers following his lead, the success that usually attends his operations being well known. New York City was generally quiet. The final weakness in corn extended to wheat. Most of the early buyers parted with the wheat at 53 1/2, closing at 53 1/2. The wheat market was weaker. OUR PENSIONERS.

THE NUMBER INCREASED THIS YEAR ABOUT FIFTY.

At the office of the State Auditor it is learned that the increase in the number of pensioners this year will not exceed fifty. The exact number cannot yet be given, as a few applications, received since the last meeting of the board, are yet to be acted on. The number of pensioners last year was 4,846. As yet the State Treasurer has not reported to the Auditor the amount derived this year from the pension tax, but it may be stated that the pensioners will certainly receive as much as they did last year. The insurance "rafter" sent here by the Southern Term Tariff association, has completed his work. He has reduced considerably below the last rating many of the risks, but yet the rate is much above the old one. There is a good deal of inquiry as to the damage to cotton by the storm. The fact that the cotton was wet saved most of it from blowing out. As yet few farmers have been able to examine their crop to see what the damage really is. The storm ended last night. To-day's weather is cloudy. The atmosphere, a part of the State are not high. There are fears of a freshet in the Roanoke. This would do great damage to the big crop on the State farms. Ohio Wilson, the Populist county chairman, has opened regular headquarters in this city. The State headquarters of that party are at Gettysburg, and it is said much campaign literature is being sent out. None of the circulars sent out from Republican headquarters at Greensboro to be secret chairman Holton says. He has issued two. The nomination by the Populist Republican party of Mr. W. S. O. B. Robinson for Judge in this district, is a surprise. His friends in those parts claim he will be a winner. Judge Allen is, however, very strong in the district. State Geologist Holmes has arranged for a very comprehensive and valuable display of rock-making machinery at the State Fair. This will be a great attraction. Japanese Enthusiasm Over the War.

YOKOHAMA, Sept. 28.—The general public is in favor of continuing the war against China in defiance of all obstacles, and it is urged that a desperate attack upon Peking be made. All party feeling for the time will be suspended and the only readily won whatever credits are needed. Reinforcements are continually going forward, but nothing is known in regard to their destination. LONDON, Sept. 28.—A despatch to the Times from Yokohama says: The destination of the second Japanese army of 30,000 men is still a secret. The Japanese army in Korea is rapidly advancing north. No resistance to its progress is expected on the side of the Chinese frontier. There is no truth in the rumor of an armistice. A dispatch from Shanghai dated Friday says: It is believed that the Emperor contemplates a change of advisers and the dismissal of all the Mandarins and others who have been concerned in the conduct of the war. Affairs at Peking are tending towards an imperial coup d'etat, involving the overthrow of Li Hung Chang and other statesmen.

The Child of Rev. W. G. Clarke Threatened.

CHICAGO, Sept. 28.—Mrs. W. G. Clarke, wife of the Rev. W. G. Clarke, chairman of the committee on gambling of the Civic Federation, which has been waging a vigorous war on the gamblers for some time past, received an anonymous letter to-day by mail warning her to look well to her child and threatening that "your husband's death will not satisfy those who meditate this hellish business." Mr. Clarke says he is certain the letter was written on account of his connection with the attack on gambling, but says that it will have no effect on his actions.

Killed Her Husband.

MONTGOMERY, Ala., Sept. 28.—A special to the Advertiser from Dothan, Ala., tells of the killing of a man named Peter Skipper by his wife. The parties are each over 70 years of age and have numerous grand children. The old man's mind has been weak for a long time and occasionally he would try to run away. His wife was trying to keep him at home yesterday when he attacked her with a knife, cutting her in the neck with a wound, killing him instantly. Mrs. Skipper refuses to say anything and says she will starve herself to death.

Moonshiners to Surrender.

LITTLE ROCK, Ark., Sept. 28.—Twenty moonshiners who have operated in Pope county for years will surrender to revenue officers at Coe, Pope county, next Monday. Several revenue officers of this city will leave for Coe to-night to take charge of the illicit distillers and destroy their stills. The men, according to an agreement with the officers, who pleaded guilty to illicit distilling, will receive a minimum sentence. The revenue officer have been pressing them for several months, and succeeded in getting to a point where they are obligated to surrender.

Barred Beneath a Pile of Rock.

SRANTON, Pa., Sept. 28.—The lives of four men, two miners and two laborers, were without warning, crushed out in the Northwest colliery of Simpson & Watkins, at Simpson, near Carbondale, Pa., yesterday afternoon. They were mangled remains, as near as can be ascertained, beneath a fall of rock which is ten feet wide, six feet high and extends for at least sixty feet in the gangway.

Suicide of Chas. B. Plummer.

PETERSBURG, Va., Sept. 28.—Charles B. Plummer, of this city, aged 89 years, unmarried, committed suicide to-day at St. Louis, but under what circumstances is not stated in the despatch announcing his death. He was a son of Mr. H. L. Plummer, of this city, and left here about a month ago for Newport, Ark., where he had been engaged to buy cotton for Eastern parties.

Bradstreet's Report.

Less Satisfactory Reports from Several Southern Centres—Some Check to Business Noted. NEW YORK, Sept. 28.—Bradstreet's report to-day says: The feature of general trade throughout the country is found in moderate reactions within the week, particularly in the volume of purchases of staples in the West, which has been quite active, and at Eastern points, in the course of prices, the week falling to show an upward movement of prices in this line, and in the check to business South, together with damage to the rice and orange crops. Less satisfactory reports come from some of the more important distributing points South, owing to the effect of the storm. Augusta reports the outlook not so bright and refers to the low price of cotton and its effect on the purchasing power of producers. General business has been unsettled also at Savannah and Jacksonville, and rice and orange crops have suffered. There has been no material gain in business at New Orleans, importation of fruits and receipts of bulk grain for export being but slight. There has been a fair business in hardware at Chattanooga, but other lines report less activity. Nashville says iron pipe mills are unable to keep up with orders, but pig iron in that market is quiet. Business is practically unchanged at Charleston, Memphis and Birmingham.

The Sun's Cotton Review.

NEW YORK, Sept. 28.—The Sun's cotton review says: Cotton declined 10 to 12 points and closed barely steady at a net loss for the day of 8 to 11 points, the sales were 103,200 bales. Liverpool advanced 1 1/2 points and closed easy. Spot sales were 12,000 bales at unchanged prices. In Manchester yarns were steady; cloths quiet. New Orleans declined 11 points. Cotton goods were in demand and cotton nearly nominal at 2 1/2-16c. Spot cotton here was 1-16c lower. Sales were 155 bales for spinning. Prices are lower than the low quotations of 1892. Galveston, New Orleans and Memphis declined 1-16c and Baltimore 1/2c. A private despatch from Liverpool says that it is rumored there that the labor troubles will be settled immediately. Receipts at New Orleans to-morrow were estimated at 11,000 to 12,000 bales and 6,000 to 8,000 to-day. Last week, and 10,305 last year. To-day's features: The depression in Liverpool was the chief source of weakness in heavy selling there against buying of the actual cotton in the South caused a decline which acted unfavorably upon New York. Very heavy rains were reported in the Atlantic States and some of the crop reports of late from South Carolina, Georgia, Alabama and Louisiana have been unfavorable. But the signal service predicted fair and warmer weather, and this fact offsets the other weather news. Stocks in sight are heavy and it is contended that the crop is likely to exceed the world's requirements of American cotton. The South seems to be discouraged and is hurrying the effect upon the price, most operators here are bearish.

Two Murderers Hanged.

PARIS, Texas, Sept. 28.—Eugene Fulk and Tom Moore were hanged here to-day for murders committed in the Indian Territory. The drop fell at 2:05 o'clock p. m. Both were pronounced dead in twenty minutes. The men both refused ministerial consolation on the gallows and Fulk died with an oath on his lips. The crime for which Eugene Fulk was hanged was the murder of John McGuffee, an old man living at Antlers, I. T., last February. Fulk's correct name was Davis and he was born in Nashville, Tenn., in 1870. Thomas Moore murdered Charley Palmer in the Choctaw Nation in 1889. The motive, it is believed, was a fear that Palmer, who lived on an adjoining farm, had learned too much of another murder in which Moore and his brother were concerned. Moore was born in Missouri.

The Lucania Beats Her Best Time.

NEW YORK, Sept. 28.—The Lucania, from Liverpool and Queenstown, arrived this afternoon. The time of her passage was 9 days 7 hours and 48 minutes, fastest on record, beating her best former time and last run by 50 minutes. Her average speed was 21 1/2.

A Schooner Dismantled.

SAVANNAH, Ga., Sept. 28.—The steamer D. H. Miller reports speaking the schooner W. T. Parker, Georgetown lumber laden for Philadelphia, at 3:30 o'clock p. m. on the 27th, twenty-five miles off Cape Romano, with both masts gone. The T. D. Miller offered to take the crew off, but the offer was declined. She was under jury rig.

Two Records Broken.

WALTHAM, Mass., Sept. 28.—The big cycle record of them all—a mile with a pacemaker—was beaten all day by John S. Johnson, of Syracuse, this afternoon on the Waltham Cycle course. The most sensational piece of riding of this whole sensational year. Until this afternoon the world's record was 1:53 1/2, made by J. P. Bliss at Cranston, N. H., in 1892. The record previously held in the world on a bicycle had been 1:51 by Mike Dirnberger, of Buffalo, but this record was not accepted as official, as he was waded by horses. But the Waltham track now holds a faster record, John Johnson's time being 1:50 3/4. Besides breaking the world's mile record, Johnson also beat the three-quarter mile record, doing that distance in 1:23.

Japanese Invade China.

LONDON, Sept. 28.—A despatch from Shanghai says it is reported there that the Japanese have succeeded in entering the Chinese province of Manchuria and that they are advancing upon the capital, Moukden. It is also said that fighting has taken place between the invaders and the frontier. The engagement is said to have ended in a decisive victory for the Japanese, who, it is added, established themselves in the position previously occupied by the Chinese troops. No details of this reported battle are given and the Chinese at Shanghai discredit the report.

W. S. Boone Acquitted.

ROANOKE, Va., Sept. 28.—The jury in the case of Walter S. Boone, who has been on trial for the past three days for murder, brought in a verdict this evening of not guilty. Boone was indicted on a charge of murdering a man named Murray participating in the riot of last September in which nine citizens lost their lives. This trial ends the riot cases, as the T. D. Miller offered to take the crew off, but the offer was declined. She was under jury rig.

Howgate Ordered Sent to Washington.

NEW YORK, Sept. 28.—Capt. Henry Howgate was taken before Judge Benedict of the United States District court this morning. He admitted his identity. Judge Benedict signed an order for his removal to Washington for trial in the case of the Disruption of the Ombudsman. Howgate was then taken to the private office of United States Marshal McCarty. He was asked whether he had anything to say in his own defense. "I have nothing to say here," he replied. "Whatever there is to be said will come out in Washington." Benedict then ordered Howgate to be taken to Washington, the deputy marshals sat close to him and never took their eyes from him for an instant. He did not seem in the least depressed by his arrest. He was joined shortly before 11 o'clock by the woman who is known as Mrs. Williams at No. 149 Third street. He shook hands with her and they entered into a whispered conversation. The woman gave Howgate some money from a well-filled pocket book.

Hazing Abolished at Princeton.

PRINCETON, N. J., Sept. 28.—The practice of hazing was formally abolished at Princeton to-day by the unanimous action of the student body at a mass meeting. At the close of the meeting President Patton tendered his thanks and congratulations, saying that nothing could please him more than such an action on the part of the students. Dean Murray also addressed the students. The measure was carried amid great enthusiasm.

Killed by Burglars.

GRAFTON, Ohio, Sept. 28.—John Haney, barkeeper at the Allen house, returned from the Fair at Elyria at 2:30 o'clock to-day and found his door open. He entered and was surprised to find a barroom and surprised two burglars. He was shot twice and died in fifteen minutes. His cries brought help and the murderers were gone. Officers tracked the burglars to Elyria by bloodhounds. One of them had his head badly cut by a glass thrown by Haney.

Two Men Burned to Death.

NANAIMO, B. C., Sept. 28.—Two men were burned to death, two other men and a little girl were badly injured, and \$20,000 worth of property was destroyed by fire that broke out here at 5 o'clock this morning.

Highest of all in Leavening Power.—Latest U. S. Gov.'s Report.

W. S. Boone Acquitted. ROANOKE, Va., Sept. 28.—The jury in the case of Walter S. Boone, who has been on trial for the past three days for murder, brought in a verdict this evening of not guilty. Boone was indicted on a charge of murdering a man named Murray participating in the riot of last September in which nine citizens lost their lives. This trial ends the riot cases, as the T. D. Miller offered to take the crew off, but the offer was declined. She was under jury rig.

Howgate Ordered Sent to Washington.

NEW YORK, Sept. 28.—Capt. Henry Howgate was taken before Judge Benedict of the United States District court this morning. He admitted his identity. Judge Benedict signed an order for his removal to Washington for trial in the case of the Disruption of the Ombudsman. Howgate was then taken to the private office of United States Marshal McCarty. He was asked whether he had anything to say in his own defense. "I have nothing to say here," he replied. "Whatever there is to be said will come out in Washington." Benedict then ordered Howgate to be taken to Washington, the deputy marshals sat close to him and never took their eyes from him for an instant. He did not seem in the least depressed by his arrest. He was joined shortly before 11 o'clock by the woman who is known as Mrs. Williams at No. 149 Third street. He shook hands with her and they entered into a whispered conversation. The woman gave Howgate some money from a well-filled pocket book.

Hazing Abolished at Princeton.

PRINCETON, N. J., Sept. 28.—The practice of hazing was formally abolished at Princeton to-day by the unanimous action of the student body at a mass meeting. At the close of the meeting President Patton tendered his thanks and congratulations, saying that nothing could please him more than such an action on the part of the students. Dean Murray also addressed the students. The measure was carried amid great enthusiasm.

Killed by Burglars.

GRAFTON, Ohio, Sept. 28.—John Haney, barkeeper at the Allen house, returned from the Fair at Elyria at 2:30 o'clock to-day and found his door open. He entered and was surprised to find a barroom and surprised two burglars. He was shot twice and died in fifteen minutes. His cries brought help and the murderers were gone. Officers tracked the burglars to Elyria by bloodhounds. One of them had his head badly cut by a glass thrown by Haney.
