life and Property Destroyed by

St. Johns, N. F., Oct. 10.-St. Pierre, the French colony on the south coast of New Foundland, was visited last night by a terrific gale, which caused the loss of at least ten lives and unprecedented lamage to shipping. More than fifty ressels that were anchored in the roads were driven ashore and most of them destroyed. The crews escaped only by the erest chance. A fleet of more than 300 each fishing vessels had arrived at St. Pierre within the past few days, having een compelled to make port in consepence of damages sustained in the gale on the Sunday before last, which raged uriously along the banks. All vessels report serious losses. Several ships are missing and are believed to have found-

The Harricane off the Virginia Capes. CAPE CHARLES, Va., Oct. 10 .- A ternic wind and rain storm has been raging since last night with a northeastly wind blowing sixty miles an hour. The tug Norfolk, of the New York, Philedelphia and Norfolk railroad, with the barge tow, left Cape Charles last night Wrfolk. The hawser parted when os to Cape Henry, and on account then with weather and high seas the half to abandoned the tow and return for assistance. CONDITION OF CROPS.

THE GOVERNMENT CROP RE-PORT FOR OCTOBER.

The Condition of Cotton Slightly Reduced Since September-The Percentage by States of Condition and Yield Per Acre-Condition of Wheat, Corn and Other

Farm Products.

WASHINGTON, Oct, 10.-The returns to the statistical division of the Department production of sugar—The remains of of Agriculture for the month of October. production of October, Oliver Wendell Holmes were buried yesfrom the September condition, which was 85.9, as against 72.7 for the present month. The condition of cotton in June was 88.3, in July 89.6, rising to 91.8 in August.

The lessened prospective yield in the States of North Carolina and South Carolina is due in part to the storm which occurred in the latter part of September. For the most part, however, the decline in condition through the cotton belt is due to continued rains, that began about the middle of August and extended into September. There is much shedding, rot and rust, etc., reported as a consequence, and in addition no little loss from insect ravages, particularly by the boll worm. Texas is the only exception to the general falling off in condition, that State having gained 4 points, notwithstanding excessive rainfall in some parts of the State.

The per centages by States are as follows: Virginia 89, North Carolina 81.3, South Carolina 79, Georgia 79, Florida 71.9, Alabama 84, Mississippi 80, Louisiana 89, Texas 88, Arkansas 79, Tennessee 79, Missouri 90.

The State averages for September were: Virginia 100, North Carolina 88, South Carolina 86, Georgia 84, Florida 82, Alabama 86, Mississippi 85, Louisiana 91, Texas 84, Arkansas 89, Tennessee 84, Missouri 93.

The indicated yield in hundredths of pales per acre by States is as follows: Virginia 48.5, North Carolina 33.4, South Carolina 35, Georgia 27, Florida 26.3, Alabama 30 7, Mississippi 35, Louisiana 43.2, Texas 40, Arkansas 39.5, Tennessee

29.4; general agerage 34 7. The indications as to yield are merely preliminary and subject to future cor-

The October returns to the statistician of the Department of Agriculture make the general condition of corn as not materially differing from that of last month, it being 61.2 against 63.4 in September. In most of the Southern States the condition of corn has fallen since the last report, but in some of the Western States there have been slight gains in the conblown over board Monday and Capt. dition.

The averages of condition in the large Thomson plunged into the waves after and surplus corn growing States are as follows: Tennessee 88, Kentucky 77, Ohio 71, Michigan 56. Indiana 78, Illinois 78, Wisconsin 54, Minnesota 59, Iowa 67, Missouri 70, Kansas 45, Nebraska 14, South Dakota 44, North Dakota 80, California 94. The returns of the yield per acre of wheat indicate a production of about 13.1

bushels, being 1,8 bushels greater than last October's preliminary estimate. The rate of yield by States is as follows: New York 148, Pennsylvania 15.3, Ohio 19.4, Michigan 15.8, Indiana 19.4, Illinoise 18.3, Wisconsin 16.5, Minnesota 12.9; Iowa 14.8, Missouri 15.6 Kansas 10.4, Nebraska 6 5, South Dakota 3 4, North Dakota 11.2, Washington 16.6. Oregon 17.7, California 11.3. The indicated quality for the country is 93.5. The returns of yield of oats per acre. after consolidation, indicate a yield of

24,5 bushels, being one bushel more than the estimate for last October. The average yield of rice, according to the correspondents' returns of yield per acre is 13 7 bushels, against 13.3 bushels in 1893 and 12.7 bushels in 1892. The condition of rice, as reported on

October 1st is 89.8 against 89.4 last The October condition of potatoes is given as 64 3 against 62.4 last month and 1 2 at the same time last year. The condition of tobacco, as reported, is 84.5, against 74.5 last month and 74.1

The Sun's Cotton Review.

NEW YORK, Oct. 10,-The Sun's cotton report says: Cotton advanced 1 to 2 points, but lost this and declined 8 to 9 points, then rallied slightly and closed steady 6 to 7 points lower for the day. Sales were 147,600 bales. Liverpool declined 11 points, recovered this and then declined 14 points again, closing quiet. Spot sales were 12,000 bales at unchanged prices. In Manchester yarns were dull, cloths quiet. New Orleans declined 7 to points. Silver declined in London 3-16d. Spot cotton here was 1-16c lower. Sales were 160 bales for spinning. To day's features-No frost was

ported at the South and to-day the weather was warmer, while for many sections of the cotton belt still warmer weather was predicted during the next twenty-four hours. The crop movement was liberal. Liverpool was weak. The South was less active at easier prices, and, finally, the report of the agricula tural bureau, while stigmatized as in many respects absurd, was, nevertheless, considered a bear card, inasmuch as it reported a better condition than in many Octobers during the last twelve years. The crop was 12 per cent, better than that of October last year, and only 3.2 lower than a month ago. A condition of about 80 had been generally expected. The better weather news from the South and the bearish construction placed upon the bureau report caused considerable selling both for American and European account. Very heavy rains have fallen within the last forty-eight hours in some parts of the cotton belt, but they had little or no influence. The severe storm prostrated many of the wires. The bureau reported the condition at 82 7, against 85.9 in September, 70.7 in Octo-

ber of last year and 75.7 in October, 1891. Pool Rooms Closed.

CINCINNATI, Oct. 10 -Owing to the Ohio prohibition laws, the pool rooms have for years operated in Covington, Ky. To day all the pool rooms across the river are closed. The Criminal court fined Sharp & Co. \$2,000, Mark Simonton, Payne & Co., C. Bollington and unless the ordinance fining pool room nuisances only \$5 per day was repealed. Mayor Rhinock thereupon ordered the police to close all pool rooms.

A Wedding in High Life. WARRENTON, Va., Oct. 10.—One of the most notable weddings that have ever taken place in Warrenton was celebrated in St. James Episcopal church to-night, when Miss Elizabeth Fairfax Gains. of Warrenton, and Judge Thomas Smith, Chief Justice of New Mexico, ex-

changed their marriage vows, South Carolina Militia Officers Sus-

issued an order to day suspending all issued an order to day suspendin

THE LEXOW INVESTIGATION Evidence of Other Witnesses Threat ened With Death - Many Witnesses Testify to Paying Trib-

ute to Police Officers. NEW YORK, Oct 10 .- For the third time since the Lexow investigations commenced, Chief Counsel Goff to-day produced evidence to show that threats have been made to put an end to the witnesses who have appeared before the Senators conducting the examination. Samuel Kaufman, a tailor's salesman, was the first witness called during the

day. He gave the substance of a conversation which he claimed took place on an elevated railroad train just after Poceman Corcoran left the witness stand Monday. Corcoran was alleged to have asserted that he would "make those witnesses as dead as a door nail," and that he would "lay for them some dark night." The witnesses supposed to be referred to were Quinn and a friend. By those per-sons Corcoran was accused of being a "clubber." The policeman with Corco-ran had advised him not to talk so loud, and told him to wait until the Lexow-committee had finished its investigations before making the attempt.

Patrick Kelly, an iron worker, related a story of going to sleep on the street. He was awakened by a policeman going through his pockets. The name of the officer he thought was Thorow. He accused the policeman of abstracting 50 cents, but the officer only laughed at him and pushed him along, telling him to "move on." He reported the matter to the police station and he asserts that a day or two after this he was assaulted by the policeman who finally arrested him. He was fined \$5 on the testimony of the police. Since the Lexow investigations had commenced the captain of Eighty-eighth street station had sent for him, he alleged, and told him that there was a job waiting for him at the station. He did not go to see the captain about

Vernon H. Brown, the general agent of the Cunard line, admitted that he had paid \$10 weekly to the officer in charge of the Cunard wharf, but he claimed that he had never paid additional sums of money to the police.

John H. Lemon. a young man who attended the French ball, testified that Superintendent Byrnes and a number of police officials were present at the ball. They did not make any protest against the lewd conduct of the persons assembled there.

Wm. H. Jamouneau, president of the Alvin Manufacturing company, testified paying Detective O'Connor the recovery of stolen goods from the Vincent Majewski, who conducted a

acted by the police. He explained that there were seventeen or eighteen backers in the city, and that they arranged with the police for the territory they should work. All the backers, except Cornelius B. Parker, were in the combine at the present time. He was working alone, but was not allowed to have many shops on the West Side. Asked who had that territory, Majewski replied Al Adams, "The King." Letters were read which are alleged to have passed between Majewski and the police Captain Westervelt. In these letter there were constant references to the dangers of exposures by the newspapers. Majewski was troubled by opposition policy shops which did not pay tribute and fake letters of complaint were mailed to Superintendent Byrnes, but no attention was paid to the complaints. Majewski claimed that four of the policy shops

complained of were still running. The investigation closed for the day with an examination of Lieber Freemen, who claimed that he visited "Siver Dollar" Smith to secure immunity from arrest for his brother-in-law, Jos. Frankel. a Hester street saloon keeper. A man named Solemon claimed to represent Smith and \$200 was finally paid to secure the release of Frankel from prison. The arrangement was that Smith should find bail, but he secured a discharge for Frankel. The money was raised by Max Rosenschweig, and as Smith did not procure the bail as arranged upon at first, Rosenchweig has brought suit in the city court to recover \$200.

The Funeral of Ex-Governor Curtin. BELLEFONTE, Pa., Oct. 10 .- Notwithstanding the rain which fell since early in the night, the crowd that assembled here to-day to pay the last tributes of respect and honor to the memory of ex-Governor Andrew G. Curtin was numbered by the thousands. Prominent men from all over the State and adjoining

States were here. The first part of the funeral services held was a citizens' meeting in the court house at 10 o'clock, when the building was packed to overflowing. Gen. Beaver read the memorial minutes and resolutions of the Centre county bar association which were adopted and brief tributes were then paid to the life and memory of the deceased.

At the close of the citizens' meeting the remains, under escort of a guard of honor, composed of Company B, Na-tional Guard of Pennsylvania, of Bellefonte, and twenty members of Gregg Post No. 25, Grand Army of the Reputlic, were taken to the court house where they lay in state until nearly 2 o'clock. During this time they were visited by thousands of the ex-Governor's fellow citizens and many friends from abroad.

A few minutes before 2 o'clock the remains were returned to the family residence on High street, where religious services were held at 2 o'clock. These were of the simplest character. There was no singing. Rev. Dr. Laurie, D. D, pastor of the Bellefonte Presbyterian church, had charge of the services and was assisted by Rev. Dr. Robinson, of the Western Theological seminary, Allegheny City, who was Mr. Curtin's pastor while he was Governor in Harrisburg. Then preparations were made to convey the

remains to their last resting place. The procession, as it moved to the cemetery, was formed as follows: Military escort, special Grand Army escort of honor, clergy in carriages, honorary pall-bearers in carriages, the hearse with carriers on each side, the family and friends, representatives of the Pennsylvania Reserve association, representatives of the military order, Loyal Legion, representatives of the Union league of Philadelphia, general officers of the Na-tional Guard of Pennsylvania. the Governor's staff and the staffs of general officers of the National Guard, according Bennett & Co. \$1,500 each. The grand to rank, representatives of the Cenjury arraigned all the councilmen and to rank, representatives of the Ceninformed them they would be indicted several bar associations of Centre and adjoining counties, battalion of State college cadets, President and members of the town council of the borough of Bellefonte; citizens generally, Burgess W. E. Gray in charge. As the procession moved through the heavily black curtained streets of the town, the sidewalks were packed with a solid mass of sorrowful faced humanity.

> tery, where the remains were interred. At the tomb services were conducte by Gregg Post, No. 95, of which Governor Curtin had been an honorary member ever since its organization. As the final words were spoken a salute was fired.

It was but a fifteen minutes' drive from

the Curtin residence to the Union ceme

CRUDE WARFARE.

CHINESE SOLDIERS ARMED WITH BOWS AND ARROWS."

Germany Trying to Remedy This Deficiency - Families of Customs Officers Leaving Pekin-More Japanese Troops Landed -Holding a Stragetic Point - Pekin Ex-

posed to Attack. LONDON, Oct. 10 .- A despatch from Shanghai to the Central News agency says that, although the Chinese Government has plenty of men at its disposal, there is a total lack of modern arms for their use. This deficiency the Germans are endeavoring to supply. Many of the Chinese soldiers recently sent to the

less to cope with the enemy and, in fact, is of not the slightest use as a means of offense or defense. A despatch to the Star from Shanghai says the Japanese and Chinese out posts had a skirmish on October 9th, north of

the Yalu river. The Japanese across the river reported that 45,000 Japansese troops had landed at Shan-Hai-Kwan at the entrance of the Gulf of Lia Tong and cut all the telegraph wires.

A despatch to the Pall Mall Gazette, from Yokohama, says the Japanese Government has decided to raise an international war loan of £10,000,000, which, together with the new taxation

for war purposes, will bring the resources of the Government up to £28,000,000. A minority in the Cabinet favored a foreign loan, owing to the short time since the last international loan. SHANGHAI, Oct. 10.—Various rumors are in circulation, the most prominent being that 40,000 Japanese troops have landed near Shan-Hai-Kwan, on the boundary between the Chinese provinces of Manchuria and Chi Di, at the eastern

end of the great wall which traverses China. The telegraph wires have been cut, thus hindering communication with that district. A report, which is classed have effected a landing near New Chwang, Gulf of Liao Lon. According to the letter received here from Tien policy shop, testified to the tribute ex- Tsin, during the progress of a large fire there on Friday last, the China Merchants' Godown Volunteers protected the settlement, and are now patrolling the streets from sunset to sunshine. It is reported here that several Japan-

> kuar. A despatch received here from Tien Tsin to-day states that the British and Russian Ministers have arrived there and that they will proceed at once to Pekin. Another report which reaches the city says that after a skirmish which took place north of the Yalu river yesterday, the Japanese outposts were driven back across the river.

ese warships have been sighted off Ta-

Advices received here from Port Arthur say that the repairs to the Chinese fleet which was engaged in the battle off the Yalu river have been completed and that the fleet will proceed to sea to-day. Shan-Hai-Kwan where the Japanese are reported to have landed 49,000 troops, is directly on the railroad building from Tien Tsin to Moukden and is of great strategic importance. In fact, the opin-ion has been expressed that if Shan-Hai-Kwan is captured there is nothing to prevent the Japanese from marching on Pekin. A Japanese fleet was reported to have been sighted off Shan-Hai-Kwan on September 28th.

A STEAMER IN THE STORM.

Exciting and Perilous Trip of the Tar pon-Braye Attempt of the Captain to Rescue a Drowning Passenger.

MOBILE, Ala., Oct. 10.—The Plant Line teamer Tarpon, which was overdue and thought to have been lost in the hurri cane of Monday last, made this port this afternoon. Capt. Thomson reports a very exciting passage. The Tarpon left Tampa Saturday. Sunday the wind freshened, and at midnight increased rapidly in velocity. About this time the port steering rod broke and a heavy sea broke over the vessel, smashing three windows on between-decks and a window in the pilot house. Tackle was rigged on the steering geer and the ship was hove to on the port tack, At 20'clock a, m. Monday the vessel's course was shaped for St. Joseph's harbor, proceeding slowly, the propellers being out of the water much of the time and the sea

oreaking heavily. At 8:45 o'clock a. m, land was sighted and the vessel was driven through the breakers into St. Joseph's. She came to pone the nominations until Saturday n the bay with two anchors down. The wind between 5 and 7 o'clock p. m. was at its height, blowing about ninety miles an hour from the southeast, and the barometer recording 28.44. During the night the gale abated.

The only accident was a fatal one. In some way, on Monday, a second cabin passenger F. F. Taplein, fell overboard. Capt. Thomson was the first person to see him in the water, and, despite the fearful sea running, plunged into the sea and rescued the body, for the man was dead, though every effort was made to restore him. The Tarpon had three other passengers aboard.

A Brilliant Wedding.

RICHMOND, Va., Oct. 10.-A Smithfield special to the Dispatch says: Never before in the annals of the quaint old town of Smithfield has there been seen a more brilliant assemblage than that of this evening, when social and political friends from all parts of Virginia gaththe marriage of Miss Lucy Chambliss Day to the Hon. Thomas S. Martir, United States Senator-elect from Vir-

After the ceremony there was an informal reception at the house of Col. and Mrs. Day on Church street. A pretty little desk in the hall, beautified by candles and flowers and equipped with silver pen and ink stand, held the white vellum marriage record, in which the names of the bride and bridegroom and each guest was inscribed, including many humorous and tender good wishes for the happiness of the newly-made

Mrs. Martin, whose beauty and grace are now to become national, is a clever girl of 20 years, who has been im-mensely popular at the various cities and watering places of her native State. She made her debut at Old Point some two years ago. She is tall and stately, with a graceful, willowy figure, glorious dark eyes and golden hair. She has been known as the "Beauty of Isle of Wight" -a county justly famous for its hand-

Mr. and Mrs. Martin left at midnight by a special boat for Old Point, where they will stay for a few days before going to Asheville, N. C. Mr. Martin will not take his seat in the Senate till March 4th, 1895, and in the meantime, together with his bride, he will spend several months in Europe, COMMERCIAL NEWS.

Stocks and Bonds in New York-The Grain and Provision Markets of Chicago.

New York, Oct. 10 .- There was a falling off in the list at the Stock Exchange to-day, the sales amounting to only 125,-641 shares, against 178,712 yesterday. The storm interfered with business and the Hebrew fast day kept an important element away from the street. In the early trading Sugar, Chicago Gas and Bay State Gas monopolized speculative attention. Sugar advanced # per cent. to 83, Chicago Gas & to 73%, and Bay State Gas 2% to 28. The general list at this time moved up to t per cent, outside of Lackawanna, which rose 1 per cent. to 169 on dealings of 200 shares. The advance was succeeded by a decline of to 1 per cent. in the active list and a break of 2 per cent. to 10 in Cordage, common and 5 to 19 in the preferred. front have been armed only with jingals and bows and arrows.

The families of the customs officials at Pekin are arriving at Shanghai by every steamer.

Common, and 5 to 19 in the preferred. The decline was due to the closing out of long stock bought at considerably higher prices. The preferred sold lower than the assessment steamer. Steamer.

A high official in the service of the Government recently reported that the Chinese fleet which has been operating against the Japanese squadron is powerferred, and General Electric leading. The market at this time was strengthened by rumors that the Government crop report for October would make a favorable showing. Near the close, however, there was a sharp attack on St. Paul and the stock declined to 601. Sugar ran off to 822, Western Union to 872 and the other issues receded anywhere from 1 to 1 per cent. The market closed weak in tone. The net changes for the day show losses of \$\frac{1}{2}\$ to \$\frac{3}{2}\$ per cent.

St. Paul was affected by the heavy decrease in earnings of the first week of October. Linseed Oil rose \$\frac{1}{2}\$ per cent. to 19\frac{1}{2}\$ on rumors of impending favorable financial developments. financial developments. The bond market was weak.

CHICAGO, Oct. 10,-Wheat was in narrow rut to-day, no one wishing to take any great chances on the Government report, although it was generally believed that there would be nothing in it calculated to help prices. The open-ing and first 10 or 15 minutes was the most active period, and was made note worty by the selling of long wheat with an indifferent support coming from the holders of "puts." After this trading had ceased the market hung around one price throughout the balance of the ses-December wheat opened a 53 c, sold between 53 c and 53 to 53 c, closing at 53 to under yesterday.

Cash wheat was in moderate demand. Prices ruled steady without change from

yesterday.

A decided preference for the selling side was apparent in the corn market to-day, This held good above 50c for May, but the absence of "stop loss" orders when that figure was reached gave a different phase to the sentiment and inducced buying. Owing to the expected improvement in the condition of the crop which the Government would give, there was less strength than otherwise might have been. The trade was. howeyer, inclined to await the official announcement, and for that reason held aloof from the market. May corn opened from 50\$ to 50\$c, declined to 50, and rallied and closed at 50c, \$c\$ under yester-

day. Cash corn sold at a decline of to from yesterday.

A bearish feeling prevailed in oats, although prices did not suffer materially, the close being unchanged from yester-day, although the bulk of the business was at fractionally lower prices. The range was in very narrow limits, changes be ing in response to the action of wheat and corn. Cash oats were traded in at rices averaging ic under yesterday. The run of hogs at the yards was fully 4,000 less than figured on, the opening market at that place being firm with the close strong and higher. Under these

circumstances product was higher hroughout the entire day, the amount of business transacted being small and without significance as to character. At the close January pork was 10c above yesterday's final figures, January lard the higher and January ribs 5c higher,

THE NEW YORK BOLTERS.

Meeting at Cooper Union-Decision to Postpone Congressional and Assembly Nominations .- Confer-

ence Committee Appointed. NEW YORK, Oct. 10 .- A meeting of the New York State Democracy was held at Cooper Union this afternoon. The hour that had been set for the meeting was 4 o'clock, but it was 6 o'clock before business was begun. The object of the meeting was a consideration of the advisability of postponing the Congressional, Assembly and Aldermanic nominations fixed for to night. The delay in beginning business was due to a de-sire to hear from the State committee. The nature of the communication was not given out. It was decided to postevening and the following conference committee, to wait upon the State committee, was appointed: Charles S, Fairchild, T. H. Driscoll, John W. Reppenhagen, Wm. F. Grote, G. W. Green, James J. Slevin, Wm. R. Grace, John A. Penneberry, John J. Brady and Thomas

Another Station Agent Robbed. KANSAS CITY, Mo., Oct. 10 .- The Cook gang of bandits, heavily armed, held up the Missouri, Kansas and Texas station agent at Choteau, I. T., at midnight last night and took from him \$40, all of the money in the safe. Only three robbers were seen, but when the gang passed Gibson station thirty miles south of Choteau yesterday morning, there were six in the party. It was expected that an attempt would be made to hold up a passenger train last night and arrangements were made to give them a warm reception, but the officials were disappointed. Choteau is the first stationary tion south of Pryor creek, the scene of many previous robberies. A large posse is in pursuit of the robbers, but, as they knew the country thoroughly, the chances of capture are poor. The gang is the same that held up the agent at Gibson last week.

Death of an Aunt of Stonewall Jack

PARKERSBURG, W. Va., Oct. 10.—Mrs. Catharine Neal, widow of the late Wm. H. Neal, and aunt of Gen. Stonewall Jackson, died last night at her home in this city, aged 78. When a lad young Jackson lived for some time here with his uncle.

KICKIMG AGAINST BEING BOSSED BY OTHO WILSON.

Crops Damaged by the Storms-Low Lands Over Flowed-Dairy Farm Leased by a Nebraskan - Apportionment of the Extra School Fund-A New Morning Paper -Judge Graves Quite Ill.

MESSENGER BUREAU,

RALEIGH, Oct. 10. To-day was in great and delightful contrast to yesterday. It was bright and warm. The storm was at its height about 10 o'clock last night. The velocity of the wind here then was thirty miles an hour. At 8 o'clock, two hours before the storm was central between here and Wilmington, the wind at Wilmington was from the southwest, while here it was from the northeast. A little later it changed here to the northwest and became very cool.

The streams are high. Neuse river near here is on a boom, and streams near town are higher than in six years past. Much lowland is under water and considerable injury is done to the corn crop, which along the streams is partially or wholly under water. The rainfall here from Sunday night to this morning

was 3.42 inches. Washouts are reported on the Cape Fear and Yadkin Valley railway and also on the Carolina Central east of Hamlet. The cotton crop has suffered. The Commissioner of Agriculture says the injury is great. Farmers who came in today say that it is beaten out of the bolls and beaten into the ground. The injury is greater to the quality of cotton than to the quantity. Some timber is blown down, but very little as compared to the amount injured by last year's great

It may be that Capt, Jones, United States army, who is on detail here will not return to his regiment, as both Governor Carr and Adjt. Gen. Cameron specially request the War Department to

continue the detail. A convict from Robeson county arrived at the penitentiary to-day, his offence being retailing liquor without

The Governor is advised that Judge Graves is so sick as to be unable to hold the second week of Vance court. Judge Graves' health appears to be very feeble. Mr. H. H. Stoddard, of Nebraska, has leased for a term of years one of the large dairy farms near here, with its herd of cattle, creamery, etc., and will continue that business. It is rumored that Raleigh is to have

another morning paper. It is feared that the rain has done considerable damage to peanuts, which are stacked. It is a critical period for this Mr. John C. Scarborough, State Super-

intendent of Public Instruction, will next week speak at five places in Caswell county. He will be accompained by the county superintendent, The subject of his speaches will be public education. A list of the counties has been prepared. with their number of children between the school ages of 6 and 21, and the apportionment to each of the fund lately ordered distributed by the State board of education. The exact amount of this fund is \$43,266.93. It gives each child 7 cents. Wake, with 21 000 children, gets \$1,530 06; Mecklenburg, with 14,110 gets \$987.70; New Hanover, with 7,853, gets

\$549.71. There are in all 618,099 children of shool age. The straight-out, anti fusion Republi cans in this district are making a fight against Stroud, the Populist, and are calling on their people to vote for Milli-ken for Congress. The Wake Republi-cans say they in their convention adopted resolutions in favor of a straight fight. They do not appear to relish the idea of having Mr. Otho Wilson "boss" them. He appears to be managing the entire fusion campaign in this county.

The declination by Mr. Norman of the presidency of Greensboro Female college

was by no means unexpected. Your correspondent a day or two ago spoke of the then current rumor that he would

Mr. Thatcher on New York Bolters New York, Oct. 10 .- In regard to the third State ticket put up by the Shepard Democracy, John Boyd Thatcher, at the Democratic State headquarters, to-day made this afficial statement; "We have to deal with all sorts of men, with all sorts of theories in a political campaign. It is a healthy and not unhealthy sign to see activity and earnestness everywhere in the party. Differences of opinion are natural, both with regard to candidates and issues. think, however, as the days go on, that these gentlemen who oppose Mr. Hill be-

cause he is Mr. Hill, will support him because he is the leader of the ticket chosen by the representatives of the party. This a life and death struggle for the Democratic party. If we lose this election we cannot hope to succeed in carrying the Legislature for twenty years to come. If there is no hope of carrying the Legislature the party organization will go to pieces. Mr. Hill is, at best, only a passing figure in politics, like every other public man. The party goes on for every Chemilia. The party goes on for ever. Candidates come and go; the party is greater than the man. I have a high regard for Mr. Wheeler and his friends, but I have a higher regard for loyal Democrats who would rather injure the common enemy than help destroy their own party. The next two weeks will soften the feeling of opposition and bring better feeling."

The Burial of Oliver Wendell Holmes. Boston, Oct. 10 .- Amid a wealth of lowers, the plain. black, cloth covered coffin, bearing a plate on which was inscribed "Oliver Wendell Holmes," and containing all that was mortal of the famous poet, was placed at the head of the main aisle in Kings chapel at noon today and the simple funeral rites were held. They were conducted by the Rev. Edward Everett Hale, D. D., and consisted merely of the reading of the chapel service for the dead, and the singing of psalms by the choir. In the chapel were gathered the relatives and many friends and admirers of the poet and the ushers were all his kinsmen. After the service the body was taken to Mount Auburn and buried in the Jackson lot in the same grave in which the wife of the poet was interred. Only the family and most intimate friends were present at the last rites, which consisted simply of selections sung by a quartette.

RAISING A BREEZE

We might wait a month and let November do it; but we don't propose to let even the weather "get a drop on us." The pleasant days of the late fall will soon be but a memory. Shrill voiced wintry winds will soon press their lips to the cracks and cry, "What were you doing all last Summer?" Ere that day comes, get ready for it. "In time of peace prepare for war."

THIS WAY.

We will OPEN MONDAY and during the entire week a new lot of HATS, CLOAKS AND UNDERWEAR, for FALL AND WINTER WEAR, which will be sold at close
